** the information in this book is subject to change based on new information mandated through the Texas Legislature, TEA or the State Board of Education **
Welcome to College Station ISD

As you look over the information in this book, we encourage you to plan for your future. CSISD strives to provide students a rigorous, challenging academic career designed to prepare them for a global future. We provide many opportunities for students to challenge themselves, encourage their creativity, find their passion, and discover the path for their lives.

We have two comprehensive high schools in College Station ISD: A&M Consolidated High School (AMCHS) and College Station High School (CSHS). Course offerings at AMCHS and CSHS are comparable. Students attend the campus they are zoned for in 9th grade. The only differences are in UIL competitive swimming (9-12), located at AMCHS, and in Career and Technical Education Programs. *If a student chooses to participate in and is accepted into* one of the three different Career and Technical Education Programs illustrated below beginning with his/her 10th grade year, the transfer process must be completed in the spring of the previous year. A student will have to maintain enrollment in a campus-specific Career and Technical Education program on an annual basis to remain at that identified campus. Please see the CSISD web page for more information on transfers.

The College Station Independent School District does not discriminate based on race, color, religion, sex, national origin, age, disability, military status, or any other basis prohibited by law in providing education services. Dr. Penny Tramel, Chief Academic Officer, 1812 Welsh, College Station, TX 77840 (979-764-5760) has been designated to coordinate compliance with the nondiscrimination requirements of Title IX. Lindsey Fuentes, Director of Special Services, 1812 Welsh, Suite 120, College Station, TX 77840 (979-764-5433) has been designated to coordinate compliance with the nondiscrimination requirements of Section 504 of the Rehabilitation Act.

No Discriminación
El Distrito Escolar de College Station no discrimina en base de la raza, color, religión, sexo, origen nacional, edad o inhabilidad en el abastecimiento de los servicios educativos. Dr. Penny Tramel, El Director Academica, 1812 Welsh, College Station, TX 77840 (979-764 5760) ha sido señalada para coordinar conformidad con los requisitos del Titulo IX. Lindsey Fuentes, Directora de Servicios Especiales, 1812 Welsh, Suite 120, College Station, TX (979-764-5433) ha sido señalada para coordinar conformidad con los requisitos de la Sección 504 de la Ley de Rehabilitación.
Graduation Plans

Students graduating from a Texas high school must complete graduation requirements outlined by the state and receive a passing score on five End of Course (EOC) Exams including Algebra 1, Biology, U.S History, English 1, and English 2. Each student will graduate under one of the graduation plans. All students automatically start under the FHSP with Endorsement. High school courses taken in middle school will earn credit toward graduation.

The state legislature amended the current admission eligibility requirements for students applying to any four-year public education institution. Only applicants who have completed the Foundation Plan with Endorsement or Distinguished Level of Achievement are eligible to apply for admission to a four-year Texas institution. This also applies to students eligible for automatic admission by graduating in the top ten percent of their class. In addition, this law further states that institutions of higher learning shall admit any applicant who is the child of a public servant killed or having sustained a fatal injury in the line of duty. Applicants need to meet the minimum requirements of the institution.

If a student wants to graduate under the Foundation High School plan without an endorsement, the student must attend a meeting with the counselor and a parent/guardian to discuss post-secondary impacts.

High School Graduation Requirements

**Foundation High School Plan (FHSP) – 22 credits**

(4) English
(3) Math - including Algebra and Geometry
(3) Science - including Biology and Chemistry, Physics or IPC
(3) Social Studies - including US History, Government and Economics and either World Geography or World History
(2) Languages Other Than English - Level 1 and II of the same language
(1) Fine Arts
(1) Physical Education – PE class or Marching Band, Drill Team, Cheerleading can substitute for PE
(5) Electives

**Foundation High School Plan (FHSP) with Endorsement – 26 credits**

(4) English
(4) Math - including Algebra and Geometry
(4) Science - including Biology and Chemistry or Physics
(3) Social Studies - including US History, Government and Economics and either World Geography or World History
(2) Languages Other Than English - Level 1 and II of the same language
(1) Fine Arts
(1) Physical Education – PE class or Marching Band, Drill Team, Cheerleading can substitute for PE
(7) Electives

**Foundation High School Plan (FHSP) with Endorsement and Distinguished Level of Achievement – 26 credits**

(4) English
(4) Math - including Algebra, Geometry and Algebra 2
(4) Science - including Biology and Chemistry or Physics
(3) Social Studies - including US History, Government and Economics and either World Geography or World History
(2) Languages Other Than English - Level 1 and II of the same language
(1) Fine Arts
(1) Physical Education – PE class or Marching Band, Drill Team, Cheerleading can substitute for PE
(7) Electives

* Foundation High School Plan (FHSP) is the minimum requirements to graduate from a Texas High School. Students may not consider this plan until both their 16th birthday and the completion of 10th grade.

** Some endorsements require more than the credits listed above. For more information on endorsements and performance acknowledgements see pages 3-4.
Endorsement Areas

<tbody>
<tr>
<td>Agricultural, Food and Natural Resources, Architecture and Construction, Arts, Audio Visual and Comm, Business Management and Administration, English Electives, Hospitality and Tourism, Information Technology, Marketing and Finance</td>
<td>Health Sciences, Human Services and Education and Training, Law, Public Safety, Corrections and Security</td>
<td>World Languages, AP Social Studies, Fine Arts: Art, Music, Theater, Dance</td>
<td>4 credits in the four core subjects – this is the default endorsement for all students unless they choose something different</td>
</tr>
</tbody>
</table>

An endorsement is a pathway a student has chosen for their coursework in high school. All students are defaulted to the Multidisciplinary endorsement to begin their high school career. Students are free to visit with their counselor and choose a different endorsement if they prefer. We encourage Multidisciplinary because colleges and universities expect to see these courses on a student’s transcript. The chart below outlines the course requirements for earning different endorsements.

STEM Endorsement Course Requirements
Science, Technology, Engineering and Math – requires Algebra 2, Chemistry and Physics; students must complete all other graduation requirements and either:
- A coherent sequence of four or more CTE credits, including at least one advanced CTE course and a course that is the third level or higher course in a sequence; or
- A coherent sequence of four credits in computer science selected from an approved list; or
- Three credits in math by completing Algebra 1 and two additional math credits for which Algebra 2 is a prerequisite; or
- Four credits in science by completing Chemistry, Physics and two additional science courses; or
- Algebra 2, Chemistry, Physics, and a coherent sequence of three additional credits from no more than two disciplines represented by the options listed above

Business and Industry Endorsement Course Requirements
Students must complete all graduation requirements plus either:
- A coherent sequence of courses for four or more CTE credits that includes at least two courses in the same career cluster, and an advanced CTE course. The courses may be selected from a list of career development or CTE innovative courses approved by the commissioner of education, but the final course in the sequence must be obtained from one of the career clusters relating to: Agriculture, Food, and Natural Resources; Architecture and Construction; Arts, Audio/Video Technology, and Communications; Business Management and Administration; Finance; Hospitality and Tourism; Information Technology; Manufacturing; Marketing; Transportation, Distribution, and Logistics; Career Prep I or II and Problems and Solutions if the course addresses a career from a field listed above; or
- Four English elective credits to include three levels in public speaking, debate, advanced broadcast journalism, advanced newspaper journalism, or advanced yearbook journalism; or
- Four technology applications credits selected from a list; or
- A coherent sequence of four credits from the above options.

Public Services Endorsement Course Requirements
A student earning a public services endorsement must complete all other graduation requirements and a coherent sequence of four or more credits in CTE with at least two credits from the same career cluster, and at least one advanced CTE course, which includes any course that is the third or higher course in a sequence. The final course must be obtained from a CTE career cluster relating to Education and Training; Government and Public Administration; Health Science; Human Services; or Law, Public Safety, Corrections, and Security; Career Prep I or II and Problems and Solutions if the course addresses a career from a field listed above
Arts and Humanities Endorsement Course Requirements
A student earning an arts and humanities endorsement must complete all other graduation requirements and either:
- Five social studies courses; or
- Four levels of the same language other than English; or
- Two levels of the same language other than English and two levels of a different language other than English; or
- Four levels of American Sign Language (not offered in CSISD); or
- A coherent sequence of four credits, selecting courses from one or two categories or disciplines in fine arts or innovative courses approved by the commissioner; or
- Four English elective credits from an approved list.

Multidisciplinary Endorsement Course Requirements
A student earning a multidisciplinary studies endorsement must complete all other graduation requirements and either:
- Four advanced courses that prepare a student to successfully enter the workforce or postsecondary education without remediation from within one endorsement area or among multiple endorsement areas that are not in a coherent sequence; or
- Four credits in each of the four foundation subject areas to include English IV and Chemistry and/or Physics; or
- Four credits in Advanced Placement, International Baccalaureate, or dual credit selected from English, math, science, social studies, economics, languages other than English, or fine arts.

Performance Acknowledgements
To receive a Performance Acknowledgement, students must complete an application which is available in the counseling office or on the high school webpage. Applications are due in the counseling office by May 1st of the student’s senior year. A student may earn a performance acknowledgment on their transcript for outstanding performance in one or more of the following ways:

College Credit
- complete at least 12 hours of college academic courses, including dual credit with at least a 3.0

AP Test
- earn a score of 3+ on any AP exam

Bilingualism
- demonstrate proficiency in two or more languages AND 3 credits in the same language, complete a level IV course with an 80 or earn a 3 or higher on an AP exam for a language other than English

Standardized Test
- be recognized as National Merit, Commended or Hispanic Scholar on the PSAT, earn a 1310 on the SAT or earn a 28 on the ACT

Certificate/License
- earn a nationally recognized business or industry certification

Required State Assessments for Graduation (STAAR)
Students will take the State of Texas Assessments of Academic Readiness (STAAR) exam at the end of English 1, English 2, Algebra 1, Biology, and U.S. History. To graduate, a student must achieve at least “approaches grade level” on each exam. Retest opportunities are available in spring, summer, and fall for students who do not pass their exams. Tutorials are provided for each retest opportunity. Specific substitute assessments are allowed: Advanced Placement exams, PSAT, ACT and SAT scores may be used in place of failing STAAR scores. Details are available in the counseling office. SB149 allows for students who have not passed all their exams to qualify for an Individual Graduation Committee during their Senior year. To be considered for an Individual Graduation Committee, students must complete a series of requirements. English Language Learners who use the English 1 special provision must count that assessment as one of their failed assessments.
Early Graduation
To pursue early graduation, a student must meet with a counselor and have the approval of a parent and principal. Specific details about early graduation are available in the counseling office.

Student Classification
**Freshman:** promoted from 8th grade **Sophomore:** completed 5.5 credits **Junior:** completed 11 credits **Senior:** completed 17 credits This classification is based on the number of credits completed. Credits earned through summer school, credit by exam, or correspondence need to be turned into the counseling office before the first day of school for classification purposes. This is the student’s responsibility.

Course Requests / Schedule Changes
It is important for students to select courses based on their personal 5-year plan. The choices made during course selection determine the creation of the master schedule. The master schedule is designed to maximize choices for students and minimize scheduling conflicts. Students should choose their alternate courses carefully, since those courses may be used in the event a course request does not fit in the master schedule or a course doesn’t have enough students to be offered in the final master schedule. Courses offered are subject to interest and staffing.

Students in 9th, 10th, and 11th grade will meet with their counselor individually to choose their courses for the next year. Students in 8th grade will meet individually with one of the secondary counselors to plan their high school courses.

Parents of 8th grade students will have opportunity to get help with registration. Parents are strongly encouraged to attend one of the help sessions or schedule an appointment with the middle school counselor. The high school counseling office is open in the summer and provides help by appointment.

Course requests will be final June 11, 2021. After this time, requests for changes may be considered based upon course availability. Students who are concerned about any course request should sign up to see a counselor prior to the June 11 deadline. A request to change a course/drop a level will likely change the student’s entire schedule. We do not overload classes to make schedule changes. If we need to switch multiple courses to keep them balanced, we will do that.

Level Change Procedures
For students enrolled in AP or Advanced courses, the following guidelines will need to be met for a level change: (1) parent and student will communicate with the AP or Advanced teacher about problems being experienced in the class; (2) at semester a student can change from an advanced to a lower level of the same course; (3) for a year-long course, the level change must occur by the end of the 5th week of school or the student will remain in the class until the end of the first semester. For a one semester course, it is recommended that the change occur by the end of the third week; however, a level change may occur up to the above deadline under special situations; (4) necessary paperwork (Level Change Request Form) must be completed with all signatures and turned in to the Counseling Office; (5) grades from the dropped upper level course will be carried into the added lower level course; (6) when a student exits a course (not a level change) after twenty class days during a semester, a semester grade of WP (withdrawn passing) or WF (withdrawn failing) is recorded for that course. When computing semester GPA, WP is not included and WF is averaged as a zero. If changing from a lower level to a higher-level course, grades from lower level will NOT transfer. Students must make up all work and assessments previously completed in the upper-level course.

Waiver Process
If a student would like to register for a class other than the one recommended by their current teacher, then a parent must submit a waiver before the schedule change deadline. Waiver questions can be answered in the counseling office.
Special Requirements and Restrictions for Physical Education/Activity courses
1. A student may not enroll in more than one physical education or athletic class per semester.
2. A student dropped from an athletic program during the semester will be enrolled in a regular physical education class for the remainder of the semester.
3. Based upon the physical activities involved in drill team, marching band, and cheerleading during the fall semester, students may use these activities as a waiver for the required units of physical education.
4. If a student's health warrants a homebound placement, a modified physical education curriculum will be delivered by the campus homebound teacher.
5. Off-campus PE must be approved through Central Office before the first day of each school year.

Language Other Than English (LOTE) Substitutes
The Foundation High School Program requires a student to complete 2 levels of language other than English. If a student, after completing the first level of a language, demonstrates he/she is unlikely to be successful in the second level of the same language, a substitution can be discussed with the counselor, student, and parent. The substitute can't be used to satisfy the coherent sequence requirement for any endorsement. It also may not fulfill the admissions requirement for most colleges/universities that students have 2 years of a foreign language. It’s the student’s responsibility to check their college/university to determine their admission requirements.

High School Courses in Middle School
CSISD offers courses in 7th and 8th grade that count for high school credit. Students who take these courses must meet all the required pre-requisites. These courses will be reflected on the student’s high school transcript but only Advanced courses will be included in the high school GPA. Students who successfully complete Spanish 1A and Spanish 1B in middle school may use this to satisfy Spanish 1 at the high school level. Dual language students who successfully complete Spanish 2 and/or Spanish 3 Pre-AP will earn the equivalent high school credit for that class as well as the preceding levels of Spanish. Example: a student who tested into and successfully completed Spanish 3 Pre-AP in middle school will receive high school credit for Spanish 1 and Spanish 2.

Transfer Students
A student transferring into the District from a TEA accredited school (or an American school located outside the country) will receive the numerical grade earned in courses from that school. Weighted courses will be honored and converted to match our system. Students from other countries will receive Ps for passing in appropriate courses. Letter grades will be converted as follows:

<table>

</table>

Credit by Exam/Correspondence
Credit by acceleration is offered during the summer through CSISD. Registration begins in the spring and is free to all students. Students must earn at least an 80 to receive credit for the course. Testing is also available during the school year but is scheduled individually. High school students who desire to take a credit by exam during the school year should contact their campus counselor to complete the registration process. Credit for recovery is available any time during the year. This expense is incurred by the student. Students must earn at least a 70 to recover credit for a course. All credits earned over the summer must be turned into the high school counseling office before the first day of classes in order to make sure students are enrolled in the correct course for the year.

Correspondence courses are available through Texas Tech University and The University of Texas. All costs are incurred by the student. Students are responsible for enrolling and ordering all their own materials. Tests can be proctored in the counseling office, but a time must be scheduled ahead of time.
Summer School
Courses are offered in the summer for advancement and for recovery. Tuition is set by the district and paid for by the student. Free and reduced prices are offered. Details about summer school are released in late spring each year. Contact your counselor to make sure you are signing up for courses you need for graduation.

Minimum Course Load
All students are required to enroll in seven classes (or equivalent) each semester with the following exceptions: (1) Students enrolled in vocational cooperative training programs must be enrolled in at least two other courses each semester. (2) High school students enrolled in Blinn or seniors enrolled in TAMU courses must enroll in a minimum of four periods on the high school campus. The student is allowed 30 minutes travel time before and after the class. CSISD will not provide transportation. (3) Fifth-year seniors graduating at mid-term may take a minimum of two classes. (4) Seniors may take a total of two periods of no credit (i.e., no class, aide, etc.). Freshmen, Sophomores and Juniors may take only one period of no credit.

Working During School Hours
Students may be employed during school hours only if enrolled in a career preparation program. Because employment is a required component of the programs, these programs are only open to juniors, seniors, and certain qualifying 16-year-olds. Career preparation training programs are designed to provide occupationally specific training. The training is planned and supervised cooperatively by the school and employers. A student is required to work 15 hours per week. If not scheduled for a class, the student must be off campus.

Dual Credit/Technical Dual Credit
Students may obtain college credit and high school credit simultaneously under an agreement with Blinn College and College Station ISD. Blinn and CSISD faculty teach the courses on the high school campuses. To be enrolled in a dual credit course, students must pass the TSI test (or exempt TSI with the following scores: ACT (19 in English with a 23 composite) or SAT (480 in EBRW and 530 Math) and pay the required tuition to Blinn College and purchase textbooks before the course begins. Deadlines will be STRICTLY enforced. Each student is responsible for ensuring the Blinn College Dual credits will be accepted at the college of their choice.

The following courses are approved for dual credit enrollment:
- English IV (Blinn English 1301, 1302) – 1 high school credit; 6 hours college credit
- Economics (Blinn Macroeconomics 2301) – ½ high school credit; 3 hours college credit
- Government (Blinn Government 2305) – ½ high school credit; 3 hours college credit
- Accounting I (Blinn ACNT 1303) – 1 high school credit; 3 hours college credit
- Computer Maintenance (Blinn ITSC 1325) – 1 high school credit; 3 hours college credit (AMCHS only)
- Telecom & Networking (Blinn ITNW 1325) – 2 high school credits; 3 hours college credit (AMCHS only)
- Audio/Video (Blinn ARTV 1351) – 2 high school credits; 3 hours college credit (AMCHS only)
- Graphic Design & Illustration I, II F/S (Blinn ARTC 1302, 1353, 1313(AMCHS only)) – 3 high school credits; 9 hours college credit
- Biotechnology (Blinn BITC 1411) – 1 high school credit, 4 hours college credit (CSHS only)

Students may earn college credit through Technical Dual Credit programs. Technical Dual Credit offerings are contingent on staffing each year. These programs provide the student a way to start their college technical major in high school. Each student is responsible for ensuring the Blinn College Dual credits will be accepted at the college of their choice. For more information on Technical Dual Credit courses, please contact your high school counselor or the Blinn College Technical Dual Credit office at (979) 209-7547.

Blinn
Students may attend Blinn Junior College. Students must have a grade point average of 3.0 and approval from a high school counselor. This grade does not count for high school credit, nor is it part of the GPA. Students must pass or be exempt from the Texas Success Initiative exam to enroll at Blinn. Students may take one or two periods to attend one class or two or three periods for two classes. Proof of enrollment must be submitted to the counselor by the second week of each semester.
Advanced Placement Classes
AP courses are designed to challenge students with college level curriculum and rigor. In May, students will have the opportunity to take the College Board Advanced Placement test(s) to earn college credit. The test costs approximately $95, is paid by the student, and is scored by ETS. Exam scores range from 1 to 5. Students making a test grade of 3, 4, or 5 may receive college credit. Awarding college credit is determined by each individual institution.

Texas A&M University
Students may apply for courses through Texas A&M University's admissions office. Check with Texas A&M for exact dates. Students must rank in the top quarter of their class and have written permission to apply. Students may have two high school periods for one TAMU class or three school periods for two TAMU classes. Students may only take courses not offered on our high school campuses. Students will pay the same application fee as well as tuition and fees as regularly enrolled TAMU students. This grade does not count for high school credit, nor is it part of the GPA. Students must pass or be exempt from the TSI to apply. Proof of enrollment must be submitted to the counselor by the second week of each semester.

Top 10% Graduates
This group of students consists of both three-year and four-year graduates who fall among the top 10% of the graduating class at the time of official rankings. They are eligible for automatic admission to any public university in Texas except the University of Texas (see details below). To be eligible for automatic admission, a student must:

- Complete the Foundation Plan with Distinguished Level of Achievement OR Satisfy the SAT or ACT score requirements for designated colleges/universities; and
- Graduate in the top 10 percent of his/her class at a public or private high school in Texas; and
- Enroll in college no more than two years after graduating from high school; and
- Apply to a Texas public university for admission before the institution’s application deadline. Since deadlines vary, students should check with the specific university to verify the application deadline.
- Senate Bill 175 amended the top 10% for the University of Texas. Their automatic admission is top 6%.

Texas Success Initiative
Texas law requires all students entering college to meet college readiness standards. Students who do not meet these college readiness standards may be required to take remedial courses which do not count for graduation. Each year the Texas Success Initiative (TSI) exam is offered on the high school campuses to current juniors and seniors. There is a minimal fee to take the test. Details about testing dates can be found in the Counseling office at each high school. TSI is typically taken by students who desire to attend college but have not taken the SAT/ACT or made a high enough score for college admission.

Grade Point Averages and Ranking
GPAs are computed at the end of each semester. All grades on a student's transcript, including failing grades and repeated courses (for remediation), will be included in GPA and class rank except as stated below. Advanced and Advanced Placement courses receive a weight of 10 extra points added to the numerical semester average when calculating GPA. (Additional 10 points will not be shown on transcript.). Total GPA is calculated by adding the GPA of each semester course together and dividing by the number of courses taken. All students shall be ranked upon basis of weighted grade averages. When reporting GPAs to colleges and universities, a numerical weighted value is reported. If a student repeats a course for remediation only, the existing grade as well as the new grade is averaged into the GPA. Credit is received only once! If a student is denied credit due to excessive absences, the grade will be calculated into the GPA as failing. A grade of WF is calculated in the GPA as zero grade points.

Courses Used in Calculations Include
- High school-level Advanced courses at middle school
- Dual Credit courses
- Grades earned at other accredited high schools
- Courses taken at CSISD high schools (including summer school and courses taken for initial credit or credit recovery)
Courses NOT Used in Calculations Include

- Non-Advanced High School courses taken at the middle school
- Courses taken at Texas A&M University, Blinn College, or any other university or college except those earned as part of our Dual Credit Program
- Correspondence courses or Credit by Exams (remediation or acceleration) or off campus (preapproved) P.E. equivalents (the grade earned in these courses will appear on the transcript, but it does not calculate in the GPA)
- Noncredit courses
- Semester grade of WP
- Non-accredited schools, programs, or curricula

Grading Scale, Class Ranking, & GPA Grading/Credits

When a student successfully completes a semester of work with a grade of 70 or higher, one-half (1/2) credit is earned. Each semester stands alone. Semesters are not averaged together except in cases of Pupil Progression (see below).

Pupil Progression Plan

If a student fails a semester but passes the other semester with a high enough score to create an overall average of a 70, the student will earn two one-half credits and will not need to repeat the failed semester course. The failing grade will be reflected on the student’s transcript and be used in the calculation of the student’s GPA. PPP only applies to non-module courses taken in the same academic year.

Non-Credit Athletics

Several non-credit options are available for students who wish to take multiple years of athletics but not have them impact the overall GPA. Available classes are in the course description section of the course catalog. The student must specifically request a non-credit class before the semester begins.

Repeating a Course

A student may request to repeat a course in which credit has been earned. The following guidelines are used: (1) The course is a foundation for subsequent courses (2) No credit is earned when a course is repeated (3) The second grade appears on the transcript along with the first grade. However, only the original credited average will be used to compute the student's overall grade point average.

Algebra II Graduation Notification

In accordance with Texas Education Code 28.02123, we are providing the following notification regarding certain high school graduation requirements to all parents and guardians of students in grades 9-12. Students are not required to complete Algebra II to graduate under the foundation high school program; however, there are potential consequences when students do not complete this course including the following: (1) Automatic college admission for eligible students (2) Eligibility for financial aid under Title 3 including: TEXAS grant program and The Texas Educational Opportunity Grant Program.

Transcripts

Enrolled students will receive a transcript at the beginning of the registration process. Sophomore, Junior, and Senior transcripts include current GPA and ranking. Freshmen transcripts do not include class rank. All official copies requested will cost $2.00. Seniors wishing to send transcripts to colleges should check whether their college requires paper copies or if their college prefers electronic copies of transcripts. It is the student’s responsibility to request transcripts on time. Transcript request forms are available in the counseling office.

NCAA (National Collegiate Athletic Association)
Bylaw 5-1-(j) -- Students entering NCAA Division I, II institutions as freshmen who wish to receive financial aid and wish to practice and compete on an intercollegiate level must be certified by the Eligibility Center. To be certified by the Eligibility Center, students must (1) apply for certification in your junior year of high school. The Eligibility Center will issue a preliminary certification report when you have had all your materials submitted. After you graduate, the Eligibility Center will review your final transcript to make a final certification decision according to NCAA standards. Apply for certification at www.eligibilitycenter.org (2) earn a grade-point average of at least 2.00* (on a 4.00 scale) in a core curriculum of at least 16 academic courses which were successfully completed during grades 9 through 12. Only courses that satisfy the NCAA definition of a core course can be used to calculate your NCAA GPA (3) have a core-course GPA and a combined score on the SAT Verbal & Math sections or a sum score on the ACT based on the qualifier index scale. The qualifier index can be found at www.eligibilitycenter.org (4) receive certification of amateur status. When registering for the Eligibility Center, you must complete the Amateurism Survey found at www.eligibilitycenter.org (5) traditional school credits are the only credits accepted by NCAA. Correspondence, credit by exam, credit recovery and night school are not accepted.

Dropping a Class with a Failing Grade – UIL Eligibility
As stated in the TEA & UIL Side-by-Side, dropping a class with a grade lower than 70 at the end of a grading period causes a student to lose eligibility until 7 calendar days after the end of the 3-school week evaluation period. Dropping an advanced class which is exempted from “no pass, no play” does not cause loss of eligibility at any time unless full time status is affected.

Board of Trustees Academic Letter Scholars Program
The Academic Letter Scholars Program recognizes students who have distinguished themselves by hard work and study as academic scholars in the College Station Independent School District. Academic Letter Jackets are given to students who meeting the following criteria:

- Senior in standing
- Take English, mathematics, science, and social studies courses during the regular school year for two consecutive years in CSISD and earn an overall grade point average of 3.75 in those courses. A foreign language or “double option” (e.g., a second science, math, social studies, or English) may be substituted in a year when one of the four required areas is not in the student’s schedule.
- Minimum of two Advanced courses must be taken from the four identified academic areas each year during the two-year period.
- "Repeated" courses, courses for remediation, or correspondence courses may not be used in determining eligibility
- All courses considered must be classified as on level, Advanced or AP courses. All awards will be earned according to the rules applicable to the University Interscholastic League Awards Rule. The award jacket will be the same award earned in varsity athletic programs and will have the same letter except that a "lamp of knowledge" will be included at the bottom of the letter, signifying the student as an academic scholar.

Honor Graduates
To be able to graduate with honors, students must complete their final two semesters consecutively at the same CSISD high school. There will be no valedictorian or salutatorian. The highest-ranking students (the Summa Cum Laude graduates) will determine who or if a student speaks at graduation. GPA/Class rank that determines honor graduates (for graduation ceremony only) shall be calculated at the end of the 5th six weeks grading period of the senior year. Any “Valedictorian” scholarships will still be given to the top student. Classification of Honor graduates (Cum Laude - 3.5000, Magna Cum Laude - 3.8000, and Summa Cum Laude - 4.000) will be determined by CSISD school board policy.

All classes below a 69 receive 0 credit
English Courses

English I  
(03220100 ENG 1)  
# 1110 10th 1 credit 4.0  
Prerequisite(s): None  
Course Description: This course prepares all students to grow as thoughtful readers, thinkers, communicators, and writers. Students will learn to ask meaningful questions, seek answers, and critically reflect on the results. English I prepares students for expository and argumentative writing, but students will also continue to work on narrative and informational writing. In their reading, students will be encouraged to learn about themselves and the world around them by critically engaging with a variety of texts. This course will challenge and grow students on grade level standards. (English credit)

English I Advanced  
(03220100 ENG 1)  
# 1133 10th 1 credit 5.0  
Prerequisite(s): teacher recommendation  
Course Description: In addition to the English I course content, this course is designed to prepare students for success in Advanced English II by developing the skills students need to read more challenging texts, discussing in greater depth, and refining skills in writing to a greater degree. Students will build foundational reading and writing skills for literary and rhetorical analysis. In addition, there is an increased opportunity for independent reading and writing practice, including outside of class. (English credit)

English Language Development and Acquisition (ELDA I/II)  
(03200800 ELDA I) (03200810 ELDA II)  
#1180, 1186 9th-12th 1 credit 4.0  
Prerequisite: English Proficiency Test  
Course Description: The ELDA course is for high school EL students with a negligible amount of English proficiency. This course is designed to serve as an elective credit and has a language arts corequisite. Because this course is for newly arrived and preliterate students, it is structured to develop students’ use of social language, emphasizing survival vocabulary and the basic building blocks of literacy (Elective Credit)

English Speakers of Other Languages I, 2  
(03200600 ENG1 SOL) (03200700 ENG2 SOL)  
# 1080, 1090 9th-12th 1 credit 4.0  
Prerequisite(s): English Proficiency Test  
Course Description: Designed to help the non-English speaking student acquire listening, speaking, reading, and writing skills to succeed in school. ESOL students will be considered co-enrolled in English courses. (Elective Credit)

English II  
(03220200 ENG 2)  
# 1210 10th 1 credit 4.0  
Prerequisite(s): English I  
Course Description: This course prepares all students to grow as thoughtful readers, thinkers, communicators, and writers. Students will learn to ask meaningful questions, seek answers, and critically reflect on the results. English II prepares students for persuasive writing, but students will also continue to work on narrative and informational writing. In their reading, students will be encouraged to learn about themselves and the world around them by critically engaging with a variety of texts. This course will challenge and grow students on grade level standards. (English credit)

English II Advanced  
(03220200 ENG 2)  
# 1233 10th 1 credit 5.0  
Prerequisite: English I credit and teacher recommendation  
Course Description: In addition to the English II course content, this course builds on skills developed in Advanced English I. Advanced English II focuses on advancing students’ independent reading and writing skills in literary analysis and rhetoric (argumentative writing) with continuing opportunities for reading and writing both inside and outside of class. (English credit)

English III  
(03220300 ENG 3)  
# 1310 11th 1 credit 4.0  
Prerequisite(s): English I, II  
Course Description: This course has been designed to help students develop into more engaged, confident, and effective communicators. Students will work in a variety of American fiction, nonfiction, drama, poetry, short stories, and essays. Class time will
often focus on reading, writing, and conferring with the teacher and other students. Instruction will focus on developing students’ analytical reading and writing skills. Assessments will focus on analysis, relevance, process, and progress. (English credit)

**English III Advanced**  
(03220300 ENG 3)  
#1320  11th  1 credit  5.0  
**Prerequisite(s):** English I, II, and teacher recommendation  
**Course Description:** English III Advanced includes a survey of religious, philosophical, and literary movements in American literature. Students will read literature (including poetry, fiction, nonfiction, and plays) outside of class for in class analysis and complete the majority of all writing assignments outside of class. This course follows a rigorous pace and often requires homework. Summer work may be required. (English credit)

**English III Advanced Placement**  
(A3220100 APENGLAN)  
# 1330  11th  1 credit  5.0  
**Prerequisite(s):** English I, English II and teacher recommendation  
**Course Description:** Builds on skills developed in Advanced English I and II. Designed to prepare students for success on the AP Language and Composition Exam, English III AP focuses on moving students from guided to independent analysis and composition of rhetoric (persuasive speaking and writing). This course requires daily homework and independent reading. A student earning a qualifying score on the AP English Language exam may place out of three to six college credit hours.

Per the College Board, the AP English Language and Composition course focuses on the development and revision of evidence-based analytic and argumentative writing, the rhetorical analysis of nonfiction texts, and the decisions writers make as they compose and revise. Students evaluate, synthesize, and cite research to support their arguments. Additionally, they read and analyze rhetorical elements and their effects in nonfiction texts—including images as forms of text—from a range of disciplines and historical periods. (English credit)

*** several courses can be used as substitutes for English V: (1) Debate 3, Oral Interp 3, Public Speaking 3 (2) Newspaper and Yearbook 3 (3) Creative Writing – full year or half combined with Communication Applications (4) Communication Applications ½ credit

**English IV**  
(03220400 ENG 4)  
# 1410  12th  1 credit  4.0  
**Prerequisite(s):** English I, II, III  
**Course Description:** Survey of political, religious, philosophical, and literary movements in literature from the Anglo-Saxons to the 20th century. Exposure to major authors, works, and themes, focusing on literary analysis and poetry. Emphasis on reading, writing, language usage, literary devices, and research skills. Preparation for the world beyond high school is a constant motif. (English credit)

**English IV Advanced**  
(03220400 ENG 4)  
#1420  12th  1 credit  5.0  
**Prerequisite(s):** English I, II, III, and teacher recommendation  
**Course Description:** English IV Advanced offers a concentrated analytical and interpretive study of British literature that includes literature-related analytical writing. Development of the writing process includes emphasis on expository, argumentative, analytical writing, and on logical and critical thinking. This course follows a rigorous pace and often requires homework. Summer work may be required. (English credit)

**English IV Advanced Placement**  
(A3220200 APENGLIT)  
# 1430  12th  1 credit  5.0  
**Prerequisite(s):** English I, II, III and teacher recommendation  
**Course Description:** Builds on skills developed in Advanced English I and II and English III AP. Designed to prepare students for success on the AP Literature Exam, English IV AP focuses on moving students from guided to independent analysis of fictional literature (poetry and prose). This course requires daily homework and independent reading. A student earning a qualifying score on the AP English Literature exam may place out of three to six college credit hours.

Per the College Board, the AP English Literature and Composition course focuses on reading, analyzing, and writing about imaginative literature (fiction, poetry, drama) from various periods. Students engage in close reading and critical analysis of imaginative literature to deepen their understanding of the ways writers use language to provide both meaning and pleasure. As they read, students consider a work’s structure, style, and themes, as well as its use of figurative language, imagery, and symbolism. Writing assignments include expository, analytical, and argumentative essays that require students to analyze and interpret literary works. (English credit)
English IV Dual Enrollment/Blinn Freshman English
(03220400 ENG 4) (ENG 1301, ENG 1302)
# 1440 12th 1 credit 4.0
Prerequisite(s): English III credit, acceptance to Blinn College (includes application, qualifying TSIA or ACT or SAT scores, and dual credit course application before May 1; students who register for the course will have a meeting to discuss and complete these requirements)
Course Description: This course follows the required curriculum for Blinn College English 1301 and 1302 courses, in addition to TEKS required for English IV credit. During the first semester, this composition course focuses on the writing of researched argumentative, expository, and persuasive papers. Analytical reading, critical thinking, and library-based research skills are emphasized. The second semester further develops the analytical, thinking, and research skills underlying academic success through the study of literature. The student's writing of genre-based essays, including researched papers, reinforces the thinking skills associated with interpretation, explanation, evaluation, analysis, and synthesis. Upon successful completion of both semesters of this year-long course, the student can earn six (6) hours of college English credit (3 hours each semester), as well as a numerical grade for high school senior English credit based on both the Blinn work and the supporting English IV assignments. (English credit) Fee: Students pay Blinn tuition (approx. $325) and textbook fees each semester.

Creative Writing (AMCHS only)
(03221200 CREAT WR)
# 1480 9th, 12th .5 credit 4.0
Prerequisites(s): none
Description: Two semester courses that can be taken for a whole year or as stand-alone semester courses. Students will engage in a rigorous composition course, demonstrating their skill in such forms of writing as fictional writing, short stories, poetry, and drama. All students are expected to demonstrate an understanding of the recursive nature of the writing process, effectively applying the conventions of usage and the mechanics of written English. The students' evaluation of their own writing as well as the writing of others ensures that students completing this course can analyze and discuss published and unpublished pieces of writing, develop peer and self-assessments for effective writing, and set their own goals as writers. Fall semester will focus on poetry, fiction (short story) and essay. Students will have the opportunity to attend the Texas Grand Slam to see poetry in action. Student work will be submitted to various competitions throughout the year. Creative Spring semester will focus on plays, screen plays, and graphic novels. Students will have the opportunity to contract for Advanced credit if they choose. If using this course as a substitute for English 4, both semesters must be completed. (Elective Credit)

Reading 1
(03270700 READ1)
# 1100 9th, 12th 1 credit 4.0
Prerequisite(s): Teacher placement
Course Description: This high school reading course strives to help students reach a reading level consistent with their grade level by supporting growth of fluency, phonics, decoding, word recognition, spelling, and general comprehension. The goal of this course is to ensure that high school students have opportunities to read with competence, confidence, and understanding and can be successful in other courses and on all subjects of state assessments. (Elective credit)

Journalism
(03230100 JRNLSM)
# 1503 9th, 12th .5 credit 4.0
Prerequisite(s): Good writing skills
Course Description: Review history and the contemporary role of mass print media in the United States and the law and ethics of the press; in-depth and intensive study of journalistic interviewing and forms of writing and the basic principles of newspaper layout, including photography and design. Interested students who successfully complete this course can apply for newspaper staff. (Elective credit)

Advanced Journalism: Newspaper Production I, II, III, IV
(03230140 NP1, 03230150 NP2, 03230160 NP3, 03231000 INDIJOUR)
# 1510 First year 1 credit 4.0
# 1520 Second year 1 credit 4.0
# 1530 Third year 1 credit 4.0
# 1540 Fourth year 1 credit 4.0
Prerequisite(s): Journalism 1, application required
Course Description: Focuses on production of the school newspaper. Requires ability to assume responsibility, meet deadlines, and work independently on projects that require time outside of school. Students produce all elements of the newspaper, including photos, stories, and design, using InDesign, Photoshop, and digital photography. After their first year, juniors and seniors in editor positions are eligible for advanced contracts. (Elective credit)
Advanced Journalism: Yearbook Production I, II, III, IV  
(03230110 YBK1, 03230120 YBK2, 03230130 YBK3, 03231000 IND JOUR)  
# 1610  First year  1 credit  4.0  
# 1620  Second year  1 credit  4.0  
# 1630  Third year  1 credit  4.0  
# 1640  Fourth year  1 credit  4.0  
**Prerequisite(s):** application required  
**Course Description:** Focuses on production and marketing of the school yearbook. Requires ability to assume responsibility, meet deadlines, and work independently on projects that require time outside of school. Students produce all elements of yearbook pages, including photos, stories, captions, and layout, using InDesign, Photoshop, and digital photography. After their first year, juniors and seniors in editor positions are eligible for advanced contracts. (Elective credit)  

### Debate 1 / Communication Applications  
(03240600 DEBATE 1, 03241400 COMMAPP)  
# 1820  9th-12th  1-1.5 credits  4.0  
**Prerequisite(s):** None  
**Course Description:** Full-year course will enable student to earn 1 credit for Debate I with the option to earn ½ credit in Communication Applications at the end of the year through credit by exam. Students will learn the foundations for Public Forum Debate, Lincoln-Douglas Debate, Cross-Examination Debate, Student Congress, and Extemporaneous Speaking. Students will be expected to work independently on many projects. Students are encouraged but not required to attend speech/debate tournaments. (Elective Credit) Fee: cost for travel with speech/debate team, optional  

### Debate II Advanced, Debate III Advanced, Debate IV Advanced  
(03240700 DEBATE 2, 03240800 DEBATE 3, 03241200 IND SPCH)  
# 1840H  Debate 2  1 credit  5.0  
# 1850H  Debate 3  1 credit  5.0  
# 1930H  Debate 4  1 credit  5.0  
**Prerequisite(s):** Debate 1  
**Course Description:** Advanced courses continue preparation in the various formats for debate. All students will be required to prepare and participate in out-of-town/overnight tournaments regularly as active members of the debate team. (Elective credit) Fee: cost for travel with speech/debate team  

### Oral Interpretation/Communication Applications  
(03240200 ORALINT1, 03241400 COMMAPP)  
# 1900  9th-12th  1-1.5 credits  4.0  
**Prerequisite(s):** None  
**Course Description:** Full year course will enable the student to earn ½ credit for Communication Applications and 1 Credit for Oral Interpretation. Designed for students who want advanced training in a variety of public speaking and performance activities. Students will be trained in a variety of events offered from the Texas Forensic Association (TFA), National Forensic League (NFL) and the University Interscholastic League (UIL). Students will compose original oratories, follow and speak on current issues, and as select, analyze, and perform a variety of literary works. Students will be expected to work autonomously and complete individualized assignments by specified deadlines. Participation in Speech and Debate Team is encouraged but not required. (Elective credit) Fee: cost for travel with speech/debate team, optional  

### Oral Interpretation II Advanced, III Advanced, IV Advanced  
(03240300 ORALINT2, 03240400 ORALINT3, 03241200 IND SPCH)  
# 1910 Oral Int 2  10th-12th  1 credit  5.0  
# 1920 Oral Int 3  10th-12th  1 credit  5.0  
# 1930 Oral Int 4  10th-12th  1 credit  5.0  
**Prerequisite(s):** Oral Interpretation I, Debate I or Debate II Advanced  
**Course Description:** Advanced courses continue preparation in the various formats for Oral Interpretation. All students will be required to prepare and participate in out-of-town / overnight tournaments regularly as active members of the Debate team. (Elective credit) Fee: cost for travel with speech/debate team, optional
Mathematics Courses

Algebra 1  
(03133500 ALG 1)  
# 2210 9th 1 credit 4.0  
Prerequisite(s): Grade 8 math or its equivalent  
Course Description: Covers the topics of equations, inequalities, exponents, functions, linear functions, systems of linear functions, polynomials, factoring, quadratic equations, and quadratic and exponential functions. The use of graphing calculators is incorporated throughout to support the curriculum. Passing the Algebra 1 End of Course exam is required for graduation. (Math credit)

Algebra 1 Advanced  
(03133500 ALG 1)  
# 2230 9th 1 credit 5.0  
Prerequisite(s): Teacher recommendation, 95 or higher in 8th grade math  
Course Description: This fast-paced, rigorous math course sets the foundation for more advanced math courses. Students will deal with more challenging problems than on-level Algebra 1 students and will be expected to apply content taught to various situations. This course covers the Texas Essential Knowledge and Skills for Algebra 1 with extensions that require higher order thinking skills. Passing the Algebra 1 End of Course exam is required for graduation. (Math credit)

Geometry  
(03100700 GEOM)  
# 2410 9th-11th 1 credit 4.0  
Prerequisite(s): 75 or higher in Alg 1, passed Alg 1 EOC  
Course Description: Introduction and basics of plane, solid, and coordinate geometry. Emphasizes geometric knowledge of physical space, deductive and inductive reasoning, and the integration of geometry and algebra. (Math credit)

Geometry Flipped  
(03100700 GEOM)  
# 2410F 9th,10th 1 credit 4.0  
Prerequisite(s): 75 or higher in Alg 1, teacher recommendation, internet access outside of school  
Course Description: In this geometry course, technology will be used as a learning tool. Many lessons will use the flipped classroom model of teaching in which a student’s homework is to learn material before class by viewing an online video. Class time is spent on inquiry-based learning which includes the traditional student homework assignment. The same TEKS will be covered as in the regular geometry course. The ability to have internet access outside of school is essential to enroll in this course. (Math credit)

Geometry Advanced  
(03100700 GEOM)  
# 2420 9th-10th 1 credit 5.0  
Prerequisite(s): 85 or higher in Algebra 1 Advanced, teacher recommendation  
Course Description: Introduction and basics of plane, solid, spherical, and coordinate geometry. Emphasizes geometric knowledge of physical space, and deductive and inductive reasoning. Higher level and critical thinking skills addressed by providing opportunities for discovery and more detailed proof writing. (Math credit)

Algebraic Reasoning  
(03102540 ALGREA)  
# 2250 10th-12th 1 credit 4.0  
Prerequisite(s): Algebra 1  
Course Description: Students will build on the knowledge and skills for mathematics previously presented in Algebra I. Students will broaden their knowledge of multiple representations of linear, quadratic, square root, rational, cubic, cube root, exponential, and absolute value functions. Students will study these functions through explorations of patterns and structure, composition of functions, number and algebraic methods, and modeling from data. The use of a graphing calculator is incorporated throughout to support the curriculum. (Math credit)

Algebra II  
(03100600 ALG 2)  
# 2510 10th-12th 1 credit 4.0  
Prerequisite(s): Alg 1, 80 or above in Geometry  
Course Description: Designed to prepare students for higher level math through study of equations, inequalities, and functions. Both algebraic and graphic methods are used in problem solving. Some key topics include linear equations and inequalities, matrices, quadratic functions, exponential and logarithmic functions, rational expressions, and rational functions. The use of a graphing calculator is incorporated throughout to support the curriculum. (Math credit)
Algebra II Advanced  
(03100600 ALG 2)  
# 2520  
10th-11th  
1 credit  
5.0  
Prerequisite(s): 85 or above in Algebra 1 Advanced, 85 or above in Geometry Advanced and teacher recommendation  
Course Description: Extends Algebra II curriculum by providing opportunities to solve algebraic problems on a higher level. Emphasis on functional relationships and problem solving in real situations, which should help prepare students to take Pre-Calculus Advanced the following year. The use of a graphing calculator is incorporated throughout to support the curriculum. (Math credit)

Data Analysis  
(03102530 STATS)  
# 2540  
11th-12th  
1 credit  
4.0  
Prerequisite(s): Algebra 2  
Course Description: Students will broaden their knowledge of variability and statistical processes. Students will study sampling and experimentation, categorical and quantitative data, probability and random variables, inference, and bivariate data. Students will connect data and statistical processes to real-world situations. The use of a calculators with statistical capabilities will be incorporated throughout the course. (Math credit)

Pre-Calculus  
(03101100 PRE CALC)  
# 2600  
11th-12th  
1 credit  
4.0  
Prerequisite(s): 80 or above in Algebra 2  
Course Description: Topics in this course include the study of functions, including trigonometric functions and their applications. Juniors enrolled in this course should opt for Statistics their senior year instead of Calculus. The use of a graphing calculator is incorporated throughout to support the curriculum. (Math credit)

Pre-Calculus Advanced  
(03101100 PRE CALC)  
# 2610  
11th-12th  
1 credit  
5.0  
Prerequisite(s): Alg 1, Geometry, 95 or above in Alg 2 or 85 or above in Alg 2 Advanced and teacher recommendation  
Course Description: Academically rigorous course requiring daily preparation. Students enrolled in Pre-Calculus Advanced should have good algebra skills and be willing to utilize those skills to explore new topics which will prepare them for Calculus. The primary focus of this course is the study of functions, including trigonometric functions and their applications. Upon completing this course, students should be well prepared for taking AP Calculus or any Freshman level college mathematics course. The use of a graphing calculator is incorporated throughout to support the curriculum. (Math credit)

Advanced Placement Statistics  
(A3100200 APSTATS)  
# 2630  
11th-12th  
1 credit  
5.0  
Prerequisite(s): 95 or above in Algebra 2 or completion of Algebra 2 Advanced  
Course Description: College-level rigorous math course requiring daily preparation outside of class time. Major concepts and tools for collecting, analyzing, and drawing conclusions from data. The use of graphing calculators with statistical capabilities is incorporated throughout the course. Students who successfully complete the AP exam may receive credit for a one semester college statistics course. (Math credit) Fee: AP National Exam, optional

Advanced Placement Calculus AB  
(A3100101 APCALCAB)  
# 2810  
12th  
1 credit  
5.0  
Prerequisite(s): 80 or above in Pre-Cal Advanced and teacher recommendation  
Course Description: College-level rigorous math course requiring daily preparation outside of class time. Covers functions, limits, derivatives, and integrals. Topics viewed geometrically, numerically, and algebraically. Student may earn credit for one semester of college Calculus with a qualifying AP exam score. Graphing calculator is required for this course. (Math credit) Fee: AP National Exam, optional

Advanced Placement Calculus BC  
(A3100102 APCALCBC)  
# 2820  
12th  
1 credit  
5.0  
Prerequisite(s): 95 or above in Pre-Cal Advanced and teacher recommendation  
Course Description: College-level rigorous math course requiring daily preparation outside of class time. Course covers AB Calculus material by the end of the 1st semester. Additional BC Topics including parametric functions, polar functions, vector functions, applications of integrals, and polynomial approximations and series are also covered. This is a very fast paced and intense course for
students intending to pursue careers in the engineering sciences or computer sciences at the university level. Students may earn up to two semesters of college credit with qualifying AP exam scores. Graphing calculator is required for this course. (Math credit) Fee: AP National Exam, optional

Mathematical Applications in Ag, Food and Natural Resources (CSHS only)
(13001000 MATHAFNR)
# 2584 11th-12th 1 credit 4.0
Prerequisite(s): Intro to AFNR, Algebra 1
Course Description: Invaluable in any area of agriculture, from livestock and dairy production to horticulture and agronomy. The course introduces fundamental mathematics concepts such as arithmetic, algebra, log and exponentials, measurements and units, probability, linear equations, and non-linear functions. Students will apply methods for solving problems in the real-world using math and logic skills. Math skills needed for Agriculture industry standards in crop production, livestock production, horticulture, agricultural mechanics, and agribusiness will be the focus of this course. (Math credit)

Science Courses

Biology I
(03010200 BIO)
#3210 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: Study of cell function, systematic approach to organisms, principles of heredity, taxonomy, ecological principles, and an introduction to botany. Biological principles are reinforced by strong lab experience. **Students who do not pass the Biology EOC will be required to meet with science teacher or counselor to discuss future science course selection** (Science credit)

Biology I Advanced
(03010200 BIO)
# 3220 9th,11th 1 credit 5.0
Pre-Requisites: Advanced 8th grade English and/or Algebra I Advanced preferred
Course Description: In addition to the topics covered in Biology 1, this advanced course will include more in-depth study of photosynthesis, cellular respiration, animal phyla, and biotechnology applications. Additional skills include use of Greek and Latin roots to decode unfamiliar vocabulary. Designed to prepare students for advanced study in high school sciences. **Students who do not pass the Biology EOC will be required to meet with teacher or counselor to discuss future science course selection** (Science credit)

Biology II Advanced Placement
(A3010200 APBIO)
# 3320 11th,12th 1 credit 5.0
Prerequisite(s): Biology, Chemistry
Course Description: AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry-based investigations as they explore the following topics: evolution, cellular processes, energy and communication, genetics, information transfer, ecology, and interactions. This course requires that 25 percent of the instructional time will be spent in hands-on laboratory work. May earn two semesters of credit for college biology with qualifying AP exam score. (Science credit) Fee: AP National Exam, optional

Chemistry I
(03040000 CHEM)
# 3410 10th-12th 1 credit 4.0
Pre-Requisites: one unit of high school science, Algebra I. Recommended completion or concurrent enrollment in second year of mathematics.
Course Description: Laboratory-oriented course which emphasizes theoretical foundations of chemistry and development of skills in manipulation, acquisition, classification, and communication of data. Students study a variety of topics that include characteristics of matter, use of the Periodic Table, development of atomic theory and chemical bonding, chemical stoichiometry, gas laws, solution chemistry, thermochemistry, and nuclear chemistry. Students will investigate how chemistry is an integral part of our daily lives. (Science credit)
Chemistry I Advanced  
(03040000 CHEM)  
# 3420  
10th-12th  
1 credit  
5.0  
**Pre-Requisites:** Algebra 2 or concurrent enrollment  
**Course Description:** In addition to the topics and skills covered in Chemistry I, the following topics will be included: periodic trend relationships, additional rules for reactions and solubility, more complex geometric arrangements of molecular structures, redox balancing and electrochemical cells, and topics in organic chemistry. Additional skills include titration and more complex mathematical computations/relationships throughout all units. (Science credit)  

Chemistry II Advanced Placement  
(A3040000 APCHEM)  
# 3430  
11th-12th  
1 credit  
5.0  
**Prerequisite(s):** Chemistry and Algebra II, concurrent enrollment in pre-Calculus preferred  
**Course Description:** The AP Chemistry course provides students with a college-level foundation to support future advanced coursework in chemistry. Students cultivate their understanding of chemistry through inquiry-based investigations, as they explore content such as: atomic structure, intermolecular forces and bonding, chemical reactions, kinetics, thermodynamics, and equilibrium. This course requires that 25 percent of instructional time engages students in lab investigations. May earn credit for two semesters of college chemistry with qualifying AP exam score. (Science credit) Fee: AP National Exam, optional  

Chemistry in the Community  
(03040000 CHEM)  
#3400  
10th-12th  
1 credit  
4.0  
**Prerequisite(s):** one high school science credit, Algebra I  
**Course Description:** Lab oriented course that emphasizes how chemistry applies to daily life. The topics include scientific measurement and calculations, characteristics of matter, use of the Periodic Table, development of atomic theory and chemical bonding, chemical stoichiometry, gas laws, solution chemistry, thermochemistry, and nuclear chemistry. Whereas Chemistry I approaches these foundational topics from a theoretical and mathematical lens, Chemistry in the Community instructs these same topics with an emphasis on the application of those topics in our everyday life and local community. (Science Credit)  

Physics I  
(03050000 PHYSICS)  
# 3610  
11th-12th  
1 credit  
4.0  
**Prerequisite(s):** Algebra 2 or concurrent enrollment  
**Course Description:** Laboratory-oriented course emphasizes theoretical concepts of physics and development of skills in manipulation, acquisition, classification, and communication of data, pertaining to motion, heat, electricity, magnetism, sound, light, and nuclear energy. (Science credit)  

Physics I Advanced Placement  
(A3050003 APPHYS1)  
# 3650  
10th-12th  
1 credit  
5.0  
**Prerequisite(s):** recommended Pre-Cal completed or concurrent  
**Course Description:** AP Physics I is an algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: kinematics, dynamics, circular motion and gravitation, energy, momentum, simple harmonic motion, torque and rotational motion, electric charge and electric force, DC circuits, and mechanical waves and sound. This course requires that 25 percent of instructional time engages students in lab investigations. Students may earn a semester of college credit with qualifying AP scores. (Science credit) Fee: AP National Exam, optional  

Physics II Advanced Placement  
(A3050004 APPHYS2)  
# 3644  
11th-12th  
1 credit  
5.0  
**Prerequisite(s):** AP Physics I or comparable physics introductory course, Pre-Cal completed or concurrent  
**Course Description:** AP Physics II is an algebra-based, introductory college-level physics course. Students cultivate their understanding of physics through inquiry-based investigations as they explore these topics: fluids; thermodynamics; electrical force, field, and potential; electric circuits; magnetism and electromagnetic induction; geometric and physical optics; and quantum, atomic, and nuclear physics. This course requires that 25 percent of instructional time engages students in lab investigations. Designed to provide a foundation in Physics for students in life science, pre-medicine, and some applied sciences as well as other fields not directly related to science. Students may earn a semester of college credit with qualifying AP scores. (Science credit) Fee: AP National Exam, optional
Physics C Advanced Placement
(A3050005 APPHYSCE)
# 3630 11th-12th 1 credit 5.0
Prerequisite(s): AP Physics I, concurrent enrollment in Calculus
Course Description: AP Physics C is a calculus-based, college-level physics course designed for students planning to specialize in a physical science, engineering, or meteorology. In this class, roughly one semester is devoted to mechanics (kinematics; Newton’s laws of motion; work, energy, and power; systems of particles and linear momentum; circular motion and rotation; oscillations; and gravitation). The second semester is devoted to electricity and magnetism (electrostatics; conductors, capacitors, and dielectrics; electric circuits; magnetic fields; and electromagnetism). This course requires that 25 percent of instructional time engages students in lab investigations. Use of calculus in problem solving and in derivations is expected to increase as the course progresses. Students may earn up to two semesters of college credit with qualifying AP scores. (Science credit) Fee: AP National Exam, Optional

Human Anatomy & Physiology
(13020600 ANATPHYS)
# 3810 10th-12th 1 credit 4.0
Prerequisites: Biology and a second science credit
Course Description: Comprehensive study of anatomy and physiology of the human body. An overview of histology, general anatomical terminology, and detailed investigation of all body systems. Major mammalian dissection included. (Science / CTE / Elective credit)

Anatomy and Physiology of Human Systems Advanced
(13020600 ANATPHYS)
# 3820 10th-12th 1 credit 5.0
Prerequisites: Biology and Chemistry
Course Description: Comprehensive and in-depth study of anatomy and physiology with emphasis on histology, terminology, and investigative applications. Several major mammalian dissections and numerous disorders/diseases reviewed. (Science / CTE / Elective credit)

Advanced Animal Science (AMCHS only)
(13000700 ADVANSCI)
# 6054 12th 1 credit 5.0
Prerequisite(s): Introduction to Ag, Food & Natural Resources recommended, Equine Science, Small Animal Management
Course Description: Students will learn about careers in the field of animal science, classes and grades of livestock, animal genetics and heredity, animal anatomy and physiology, animal nutrition for ruminants and non-ruminants, and animal diseases and parasites. The students will also be required to participate in labs where they will demonstrate safe practices and knowledge of scientific principles and methods as it pertains to the Animal Science Industry. This course is designed for students in the Animal Science pathway to earn their fourth science in an agriculture class. (Science Credit)

Advanced Plant & Soil Science (CSHS only)
(13002100 ADVPSSCI)
# 6004 11th-12th 1 credit 5.0
Prerequisite(s): Horticulture Science or Floral Design
Course Description: Plant and Soil Science provides a way of learning about the natural world. Students should know how plant and soil science has influenced a vast body of knowledge, that there are still applications to be discovered, and that plant and soil science is the basis for many other fields of science. Investigations, laboratory practices, and field exercises will be used to develop an understanding of current plant and soil science. This course is designed to prepare students for careers in the food and fiber industry. Students will learn, reinforce, apply, and transfer their knowledge in a scientific setting. This course is designed for students in the Plant Science or Natural Resource Pathways to earn their fourth science credit in an agriculture science class. (Science Credit)

Astronomy
(03060100 ASTRMY)
# 3850 11th-12th 1 credit 4.0
Prerequisite(s): One unit of high school science recommended. Algebra 2 completed or concurrent also recommended.
Course Description: Comprehensive study of astronomical topics including, but not limited to the history of astronomy, scientific thinking and scientific practices, the sky, the Earth-Moon-Sun system, light and telescopes, our solar system, the Sun, basic properties of stars, star formation and stellar evolution, neutron stars and black holes, and galaxies. (Science / Elective credit)
Biotechnology I
(13036400 BIOTECH1)
# 3830 12th 1 credit 5.0
Prerequisite(s): Biology, Chemistry, Physics
Course Description: An introduction to biotechnology including career exploration, history and applications of DNA/RNA technology, molecular biology, bioethics, laboratory operations, management, equipment, instrumentation, quality control techniques, and laboratory safety practices. Laboratory practice includes using pH meters, mixing buffers, DNA isolation and extraction, performing measurements, preparing solutions, and performing separatory techniques to specifications. Students must meet the 40 percent laboratory and fieldwork requirement. *Technical Dual Credit at CSHS (see page 7). (Science / CTE / Elective credit)

Environmental Systems
(03020000 ENVIRSYS)
# 3720 11th,12th 1 credit 4.0
Prerequisite(s): One unit of high school life science and one unit of high school physical science
Course Description: Students conduct laboratory and field investigations, use scientific methods during investigations, and make informed decisions using critical thinking and scientific problem solving. Students study a variety of topics that include biotic and abiotic factors in habitats, ecosystems and biomes, interrelationships among resources and an environmental system, sources and flow of energy through an environmental system, relationships between carrying capacity and changes in populations and ecosystems, and changes in environments. This is a project-based course. (Science credit)

Forensic Science
(13029500 FORENSCI)
# 6173 11–12 1 credit 4.0
Prerequisite(s): Biology and Chemistry required; any Law, Public Safety, Corrections and Security course recommended
Course Description: Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. Students must meet the 40 percent laboratory and fieldwork requirement. (Science / CTE / Elective credit)

Integrated Physics and Chemistry (IPC)
(03060201 IPC)
# 3110 9th,10th 1 credit 4.0
Prerequisite(s): none
Course Description: Laboratory-oriented study of metric system, measurement, nature of matter, physical and chemical changes, nuclear changes, motion and machines, electricity and magnetism, wave motion, light, and sound. (Science credit)

Principles of Technology
(13037100 PRINTECH)
# 3510 10th,12th 1 credit 4.0
Prerequisite(s): One credit of high school science and Algebra I
Course Description: This class uses a unique approach to the concepts of Physics. Students study various systems in terms of space, time, energy, and matter. Students will study a variety of topics that include laws of motion, conservation of energy, momentum, electricity, magnetism, thermodynamics, and characteristics and behavior of waves. Students will apply physics concepts and perform laboratory experimentation, meeting the 40 percent laboratory and fieldwork requirement. (Science / CTE / Elective credit)
Social Studies Courses

World History
(03340400 W HIST)
# 4100 9th-12th 1 credit  4.0
Prerequisite(s): None
Course Description: The world history course covers the history and development of a variety of world civilizations past and present. Students will develop a basis for comparing various ways of life and cultural patterns and an understanding of the way these patterns occurred over time. Major topics examined include the Rise of Civilizations, Classical Civilizations, Medieval Era, Emergence of the Modern World, Age of Revolution, Industry and Nationalism, World in Conflict, World Wars, and the Contemporary World. (Social Studies credit)

World History Advanced
(03340400 W HIST)
#4100 9th, 12th 1 credit  5.0
Prerequisite(s): Teacher recommendation
Course Description: This course gives students an opportunity to discover connections and patterns in the development of a variety of world civilizations past and present. By comparing cultures and events and analyzing documents and data, students will evaluate the impact of historical action on our present way of life. Major topics examined are The Rise of Civilizations, Flowering of Civilizations, Regional Civilizations, Emergence of the Modern World, Age of Revolution, Industry and Nationalism, World in Conflict, World Wars, and the Contemporary World. (Social Studies credit)

AP World History
(A3370100 APWHIST)
# 4150 9th, 12th 1 credit  5.0
Prerequisite(s): Teacher recommendation and strong writing skills
Course Description: In AP World History: Modern, students investigate significant events, individuals, developments, and processes from 1200 to the present. Students develop and use the same skills, practices, and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change over time. The course provides six themes that students explore throughout the course in order to make connections among historical developments in different times and places: humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation. A special emphasis will be given to preparation for the national AP exam. Students who score well on the national exam may place out of three college credit hours. (Social Studies credit)
Fee: AP National Exam, optional

World Geography
(03320100 W GEO)
# 4120 9th, 12th 1 credit  4.0
Prerequisite(s): None
Course Description: This course provides an opportunity for students to explore our world through investigation of physical and human geography. Students use geographic concepts to study specific nations and regions all around the world with an emphasis on understanding interactions between humans and their environment. (Social Studies credit)

World Geography Advanced
(033020100 W GEO)
# 4130 9th, 12th 1 credit  5.0
Prerequisite(s): Teacher recommendation
Course Description: This course allows students to develop an understanding of our world and the relationship between humans and their environment. Students will use higher order thinking skills to ask geographic questions, research and present geographic data, and make generalizations based on this data. As they become culturally aware of the world's inhabitants, students formulate opinions and make judgments and recommendations. (Social Studies credit)

AP Human Geography
(A3360100 APHUMGEOW)
# 4140 9th, 12th 1 credit  5.0
Prerequisite(s): Teacher recommendation and strong writing skills
Course Description: This college level course provides students with analytical skills and factual knowledge about Human Geography. Covers the TEKS for World Geography at an accelerated pace and emphasizes the following AP Human Geography topics: Nature and Perspectives of Geography, Population, Cultural Patterns and Processes, Political Organization of Space, Agricultural and Rural Land Use, Industrialization and Economic Development, and Cities and Urban Land Use. Students will also learn about the
methods and tools geographers use in their research and applications. Preparation for the AP test is included. Students who score well on the national exam may place out of three college credit hours. (Social Studies credit)

Fee: AP National Exam, optional

U. S. History
(03340100 US HIST)
#4210 11th 1 credit 4.0
Prerequisite(s): World Geography or World History
Course Description: This course incorporates the study of significant people, issues, and events that have shaped the development of the American economy, government, politics, and society today. Students will briefly review the early history of the U.S. and major founding documents. Course emphasis is on cause and effect and students will explore time periods such as the Progressive Era, American Imperialism, the Roaring 20s, the World Wars, the Great Depression, the Cold War, and the Modern Era. (Social Studies credit)

US History Advanced
(03340100 US HIST)
#4220 11th 1 credit 5.0
Prerequisite(s): World Geography or World History, Teacher recommendation
Course Description: In this course, students will construct an understanding of the lasting impact of the people, issues, and events that have shaped the development of the United States. Students will briefly review the early history of the U.S. and major founding documents. Course emphasis is on critical consideration of primary and secondary sources and on the connections between past and present. This course focuses on time periods from the Gilded Age and Progressive Era (1870s-1910s) to the Modern Era (2000 and beyond). (Social Studies credit)

U. S. History AP
(A3340100 APUSHIST)
#4230 11th 1 credit 5.0
Prerequisite(s): World Geography or World History, teacher recommendation and strong writing skills
Course Description: In AP U.S. History, students investigate significant events, individuals, developments, and processes in nine historical periods from approximately 1491 to the present. Students develop and use the same skills and methods employed by historians: analyzing primary and secondary sources; developing historical arguments; making historical connections; and utilizing reasoning about comparison, causation, and continuity and change. The course also provides eight themes that students explore throughout the course in order to make connections among historical developments in different times and places: American and national identity; work, exchange, and technology; geography and the environment; migration and settlement; politics and power; America in the world; American and regional culture; and social structures. A special emphasis will be given to preparation for the national AP exam. Students who score well on the national exam may place out of three to six college credit hours. (Social Studies credit)

U. S. Government (Fall or Spring)
(03330100 GOVT)
#4313 12th .5 credit 4.0
Prerequisite(s): Senior level course only
Course Description: Students will examine political ideology, comparative political systems, the Constitution, civil liberties and civil rights, the three branches of government, Texas and local government, law and criminal procedures, political parties, campaigns, and the responsibilities of citizenship. Course will emphasize the interaction between citizens and the American political system. (Social Studies credit)

US Government Advanced
(03330100 GOVT)
#4303 12th .5 credit 4.0
Prerequisite(s): Senior level only, teacher recommendation
Course Description: This course will help students develop their perspective on government and politics in the United States from an understanding of the systems and institutions that make up the American political system. It includes both the study of general concepts used to interpret U.S. politics, an understanding of political theory, and the analysis of specific contemporary examples. Major topics to be examined are Foundations of Government, Civil Liberties and Rights, Political Behavior, Government by the People, The Legislative Branch, The Executive Branch, The Judicial Branch, Comparative Political and Economic Systems, Participating in Texas State and Local Government, Foreign Affairs, and Current Issues. (Social Studies credit)
U. S. Government and Politics AP (A3330100 APUSGOVT)
# 4321 12th .5 credit 5.0
Prerequisite(s): Senior level only, teacher recommendation and strong writing skills
Course Description: AP U.S. Government and Politics provides a college-level, nonpartisan introduction to key political concepts, ideas, institutions, policies, interactions, roles, and behaviors that characterize the constitutional system and political culture of the United States. Students will study U.S. foundational documents, Supreme Court decisions, and other texts and visuals to gain an understanding of the relationships and interactions among political institutions, processes, and behaviors. They will also engage in disciplinary practices that require them to read and interpret data, make comparisons and applications, and develop evidence-based arguments. In addition, they will complete a political science research or applied civics project. Preparation for the AP test is included. Additionally, state and local topics are incorporated to meet Texas requirements for graduation. A student scoring well may place out of three college credit hours. (Social Studies credit)
Fee: AP National Exam, optional

U. S. Government Dual Enrollment/ Blinn American Government (0330100 GOVT / BLINN 2305)
# 4323 12th .5 credit 4.0
Prerequisite(s): Acceptable TSI scores or the ability to exempt TSI; student and parent must sign contract for class; Senior standing
Course Description: A study of the organization, functions, and administration of the several branches and agencies of the national government, including a study of the federal constitution. The primary factors considered relate to the three branches of government—judicial, executive, and legislative—historical documents including the Constitution and Declaration of Independence, events that shaped our nation, and current events. Emphasis will be placed on the interaction of these subsystems. Upon successful completion of this semester-long course, the student will earn three (3) hours of college Government credit, as well as his or her high school senior Government credit. (Social Studies credit)
Fee: Blinn tuition/textbooks, students purchase

Economics (03310300 ECO-FE)
# 4333 12th .5 credit 4.0
Prerequisite(s): Senior level only
Course Description: This course provides students with a general overview of U.S. Economic activities, including basic differences between capitalism, socialism, and communism; the influence of American ideals of democratic government, laws, customs, and institutions on free enterprise; and familiarization with basic economic terms. Course also includes an in-depth unit on personal financial literacy, including concepts such as budgeting, taxation, insurance, banking, and investing. (Social Studies credit)

Economics Advanced (03310300 ECO-FE)
# 43343 12th .5 credit 4.0
Prerequisite(s): Senior level only, teacher recommendation
Course Description: This course offers students the opportunity to develop an understanding of basic principles of the U.S. economy and to apply that understanding to contemporary events and individual experiences. Students will work with economic data and economic principles to analyze economic decision making. This course also includes an in-depth unit on personal financial literacy, including concepts such as budgeting, taxation, insurance, banking, and investing. (Social Studies credit)

AP Microeconomics (A3310100 APMICECO)
# 4363 12th .5 credit 5.0
Prerequisite(s): Senior level only, teacher recommendation (recommended: co-enrollment in any math class)
Course Description: AP Microeconomics looks at the decision-making power of the individual and their impact on the economy. By understanding the interplay of costs, inputs, and markets students will learn about the factors that drive the choices of economic actors all around us (including ourselves). Students learn to use graphs, charts, and data to analyze, describe, and explain economic concepts. This class will prepare students for the Microeconomics AP Exam. AP Microeconomics meets state economics credit for graduation. (Social Studies credit) Fee: AP National Exam, optional

Economics Dual Enrollment/Blinn Principles of Economics (03310300 ECO-FE / BLINN 2301)
# 4353 12th .5 credit 4.0
Prerequisite(s): Acceptable TSI scores or the ability to exempt TSI; student and parent must sign contract for class; Senior standing
Course Description: A study of the macroeconomic principles with emphasis on national income analysis and theory, monetary and fiscal policy, stabilization policy, economic growth and development, and public finance. Upon successful completion of this semester
long course, the student will earn three (3) hours of college Economics credit, as well as his or her high school senior Economics credit. (Social Studies credit) Fee: Blinn tuition/textbooks, students purchase

**Sociology**
(03370100 SOC)
# 4613 9th-12th .5 credit 4.0
**Prerequisite(s):** none
**Course Description:** Provides an introductory look at the dynamics of individual and group relationships. Examines the history of sociology, cultural and social norms, social institutions, deviance, criminology, and other social problems. (Elective Credit)

**Psychology**
(03350100 PSYCH)
# 4513 11th-12th .5 credit 4.0
**Prerequisite(s):** Junior or Senior in standing
**Course Description:** Provides an explanation of how humans behave and their mental processes. Students will take a look at psychology as a behavioral and cognitive science through such topics as neuroscience; sensation and perception; states of consciousness; learning; memory; language, thought and intelligence; motivation and emotion; developmental psychology; personality theories; psychological disorders and therapy techniques; and social psychology. *Students may not take both Psychology and AP Psychology. (Elective Credit)*

**AP Psychology**
(03380002 SPTSS and A3350100 APPSYCH)
# 4530 11th-12th 1 credit 5.0
**Prerequisite(s):** Junior or Senior in standing, teacher recommendation
**Course Description:** This course will introduce students to the systematic study of behavior and mental processes of human beings and other animals. Students will take an in-depth look at psychology as a behavioral and cognitive science through such topics as neuroscience; sensation and perception; states of consciousness; learning; memory; language, thought and intelligence; motivation and emotion; developmental psychology; personality theories; psychological disorders and therapy techniques; social psychology; and statistics. They also learn about the ethics and methods psychologists use in their science and practice. A student who scores well on the AP test may place out of three college credit hours. (Elective Credit)
Fee: AP National Exam, optional

**American History Through Film (AMCHS only)**
(03380002 SSADV1)
#4233 11th-12th .5 credit 5.0
**Prerequisite(s):** none
**Course Description:** Examines historical periods in American History through film. Motion pictures have been around for well over 100 years and their value as a storytelling medium has had a profound impact on how Americans view history. On many occasions, Hollywood gets a lot right, but occasionally they embellish the story to make it more gripping. No matter how factual the film, there are things that can be learned about the period in which the film was made as well as the period in which the film takes place. This class focuses on the late 19th century to the present. (Elective Credit)

**Personal Financial Literacy**
(03380082 PFL)
# 4623 10th-12th .5 credit 4.0
**Prerequisite(s):** none
**Course Description:** Course will develop citizens who have the knowledge and skills to make sound, informed financial decisions that will allow them to lead financially secure lifestyles and understand personal financial responsibility. It includes instruction in methods of paying for college and other postsecondary education and training along with completing the Free Application for Federal Student Aid (FAFSA). Students will analyze the relationship between education and training and earnings potential; evaluate the quality of potential college, postsecondary education, and training courses; evaluate the total cost of these programs; and analyze the advantages and disadvantages of various sources of funds to pay for their education. (Elective Credit)
Languages Other Than English

French I
(03410100 FREN 1)
# 7010 9th-12th 1 credit 4.0
Prerequisite(s): none
Course Description: Introduction to the French language and French-speaking people with emphasis on speaking and listening skills and the beginning of reading and writing skills. (LOTE credit)

French II
(03410200 FREN 2)
# 7020 9th-12th 1 credit 4.0
Prerequisite(s): French I or approval
Course Description: Review and further development of basic skills acquired in French I, including culture. Continuation of development of day-to-day communicative skills. (LOTE credit)

French II Advanced
(03410200 FREN 2)
# 7030 9th-12th 1 credit 5.0
Prerequisite(s): French I and teacher recommendation
Course Description: Intensive review with emphasis on speaking and listening skills. Further development in reading, writing, and culture. Emphasis on conversational skills and more advanced grammar and reading assignments throughout the year. Students are expected to use the target language as much as possible in the classroom. Daily homework, independent practice, and projects. This course is designed to prepare students for French III Advanced. (LOTE credit)

French III Advanced
(03410300 FREN 3)
# 7040 10th-12th 1 credit 5.0
Prerequisite(s): French II Advanced or approval
Course Description: Thorough review of grammar, longer, more difficult reading selections including novels/plays, and increased awareness of French civilization and culture. Provides continuous opportunities to improve speaking and listening skills. Class will be conducted mainly in French. Preparation for the AP test will begin in this level. (LOTE credit) Fee: Workbook Required

French IV AP Language
(A3410100 APFR LAN)
# 7060 10th-12th 1 credit 5.0
Prerequisite(s): French III or approval
Course Description: Culmination of several years of study which seeks to develop and refine skills that have been acquired over a student's entire school career. Emphasis on the four skills of reading, writing, speaking and listening. Preparation for the AP test will be continued. (LOTE credit) Fee: Workbook Required, AP National Exam, optional

German I
(03420100 GERMAN 1)
#7110 9th-12th 1 credit 4.0
Prerequisite(s): none
Course Description: Introduction to the language and culture with emphasis on listening and speaking skills and the beginning of reading and writing. (LOTE credit)

German II
(03410200 GERMAN 2)
# 7120 9th-12th 1 credit 4.0
Prerequisite(s): German I or approval
Course Description: Intensive review with emphasis on speaking and listening skills with further development in reading, writing, and culture. Students are expected to use the target language as much as possible in the classroom. (LOTE credit)
German II Advanced
(03410200 GERMAN 2)
# 7130  9 th -12th  1 credit  5.0
Prerequisite(s): German I and teacher recommendation
Course Description: Intensive review with emphasis on speaking, listening and skills. Further development in reading, writing and culture. More advanced reading and writing assignments through the year. Students are expected to use the target language as much as possible in the classroom.

German III Advanced
(03410300 GERMAN 3)
# 7140  9 th -12th  1 credit  5.0
Prerequisite(s): German II Advanced or approval
Course Description: Higher-level vocabulary and grammar with emphasis on more advanced reading of different genres as well as speaking and writing development. (LOTE credit)

German IV AP
(A3420100 APGR LAN)
# 7150  9th-12th  1 credit  5.0
Prerequisite(s): German III or approval
Course Description: Prepares students for the Advanced Placement Examination in May. Emphasis will be on enhancing listening, speaking, reading, and writing skills as well as broadening the students’ understanding of German history, culture and literature. (LOTE credit)
Fee: AP National Exam, optional

Latin II
(03430200 LATIN 2)
# 7320  10th-12th  1 credit  4.0
Prerequisite(s): Latin I or approval
Course Description: Latin II is for students who will not progress to Latin III PAP. The vocabulary will be presented in thematic units and English word derivation from Latin will be emphasized. This course will do a thorough review of Latin I grammar before adding more concepts. Mythology will be used to enrich English vocabulary and to expose students to stories from Classical Mythology. (LOTE credit)

Latin II Advanced
(03430200 LATIN 2)
# 7330  10th-12th  1 credit  5.0
Prerequisite(s): Latin I and teacher recommendation
Course Description: Further development of grammar and vocabulary and culturally based readings for students who will take Latin III Advanced. (LOTE credit)

Latin III Advanced
(03430300 LATIN 3)
# 7340  11th-12th  1 credit  5.0
Prerequisite(s): Latin II Advanced or approval
Course Description: Readings from Roman authors. Further development of grammar and vocabulary and culturally based readings. (LOTE credit)

Latin IV AP
(A3430100 APLATVG)
# 7350  12th  1 credit  5.0
Prerequisite(s): Latin III
Course Description: AP Latin will focus on the works of Vergil and Caesar. The students will read and translate poetry and prose, analyze literary texts in written argument, and practice sight reading. Students will relate Latin texts to Roman historical, cultural, and literary contexts. The objectives include reading and comprehension, translation, contextualization, and analysis of texts. (LOTE credit)
Fee: AP National Exam, optional
Spanish I  
(03440100 SPAN 1)  
# 7210 9th-12th  1 credit  4.0  
**Prerequisite(s):** None  
**Course Description:** Introduction to the Spanish language, people, culture, history, and geography with emphasis on the language skills, listening comprehension, speaking, reading, and writing. (LOTE credit)

Spanish for Heritage Speakers  
(03440110 SSSPAN 1)  
# 7240 9th-12th  2 credits  4.0  
**Prerequisite(s):** Heritage/Native speaker and teacher recommendation  
**Course Description:** This course is designed for Spanish speakers who have not had any formal instruction in Spanish. It is an intensive combination of Levels I and II, focusing on listening, reading, and writing skills. Upon successful completion of the course, students receive credit for Level I and Level II. (LOTE credit)

Spanish II  
(03440200 SPAN 2)  
# 7220 9th-12th  1 credit  4.0  
**Prerequisite(s):** Spanish I  
**Course Description:** Review and further development of basic skills. Reading and writing activities increased. Culture, history, and geography of Spanish speaking countries integrated into the curriculum. (LOTE credit)

Spanish II Advanced  
(03440200 SPAN 2)  
# 7230 9th-12th  1 credit  5.0  
**Prerequisite(s):** 90 or above in Spanish 1 and teacher recommendation  
**Course Description:** This course is intended to prepare students for Spanish III Pre-AP. Reading, writing, speaking and listening skills will be highly emphasized. The culture, history, and geography of Spanish speaking countries will be integrated into the curriculum. (LOTE credit)

Spanish III Advanced  
(03440300 SPAN 3)  
# 7250 9th-12th  1 credit  5.0  
**Prerequisite(s):** Spanish II Advanced or teacher recommendation  
**Course Description:** Includes advanced grammar and more difficult reading selections. Provides opportunities to improve speaking and listening skills. Lessons will be taught in Spanish, and students are expected to speak in Spanish. (LOTE credit)

Spanish IV AP Language and Culture  
(A3440100 APSPALAN)  
# 7270 9th-12th  1 credit  5.0  
**Prerequisite(s):** Spanish III  
**Course Description:** Prepares students for the Advanced Placement Language Examination in May. Concentration is placed on enhancing listening, speaking, reading, and writing skills as well as broadening the student's understanding of Hispanic culture. Students are also introduced to Spanish literature to prepare for Spanish V Literature and Culture. (LOTE credit)  
Fee: Workbook required, AP National Exam, optional

Spanish V AP Literature and Culture  
(A3440200 APSPALIT)  
# 7280 9th-12th  1 credit  5.0  
**Prerequisite(s):** Spanish IV  
**Course Description:** The AP Spanish Literature course is intended to be the equivalent of a 3rd year college Introduction to Latin American Peninsular Literature course, covering selected works from literatures of Spain & Latin America. The course will represent all major literary periods and major genres, and the majority will be masterpieces. Prose and poetry will be analyzed orally and in writing using appropriate terminology. Listening, speaking, reading, and writing skills will be refined. (LOTE credit)  
Fee: Workbook Required, National AP Exam, optional
Mandarin Chinese II (Online)
(03490200 CHIN 2)
# 7420 10th-12th 1 credit 4.0
Prerequisite(s): Mandarin Chinese I

Course Description: Students continue to develop proficiency on all four language skills: listening, speaking, reading, and writing, with emphasis on the ability to communicate orally. Students will participate in dialogues about familiar situations, using more complex sentences and grammatical patterns. Familiar materials will be read, and short, directed compositions will be written. Students will focus on the study and mastery of extensive vocabulary. This course is an online learning experience with students interacting with a teacher online. This requires the student to be disciplined, with a commitment to additional study time outside the school day. This is the second year of a minimum two-year sequence for college preparatory students. (LOTE credit)

Computer Science I
(13027600 COMPPROG)
# 6350 9th-12th 1 credit 5.0
Prerequisite(s): Algebra I

Course Description: (Computer Science satisfies the foreign language (LOTE) graduation requirement, must complete both levels to count as the LOTE requirement) Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. The six strands include creativity and innovation; communication and collaboration; research and information fluency; critical thinking; problem solving and decision making; digital citizenship; and technology operations and concepts. (Elective/CTE Credit)

Computer Science II
(13027700 COMPPRO2)
# 6353 10th-12th 1 credit 5.0
Prerequisite(s): Computer Science I

Course Description: (Computer Science satisfies the foreign language (LOTE) graduation requirement, must complete both levels to count as the LOTE requirement) Computer Science II will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. (Elective / CTE credit)
Fine Arts Courses

Note: The following courses can be contracted for Advanced credit provided the student has completed the level 1 and level 2 of their chosen fine art field. Students must be a junior or senior. Students who have not taken both level 1 and level 2 of their chosen fine arts field are not eligible for Advanced contracts. Specific contracts must be signed and turned in at the beginning of the school year. Students are not allowed to “drop” from the Advanced contract after the contract is signed and turned in. If a student fails to fulfill the Advanced-level requirement/assignment, they would be subject to a lowered grade due to the missed requirement/assignment. All requirements/assignments must be fulfilled or completed by the end of each semester. Additional requirements of each discipline, which include individual competitions, written assignments, and other performance-oriented evaluations, must be completed. Approval to be enrolled for Advanced must be given by the teacher of that class.

Orchestra III, IV (2 total)
Band 3, 4 and Jazz Band 3, 4 (4 total)
Choir – no more than 4 total advanced credits in the junior and senior year; all choirs are eligible
Theatre – no more than 4 total advanced credits in the junior and senior year; all theatre classes are eligible
Dance – Dance 3, Dance 4 or Advanced Dance 3, Advanced Dance 4 (2 total)
Color guard 3, 4 (2 total)

Art I
(03500100 ART 1)
# 8010 9th-12th 1 credit 4.0
Prerequisite(s): None
Course Description: Students will apply the elements and principles of design to original pieces of art by exploring a variety of media. Students will be challenged to think creatively while being introduced to art history, aesthetics, and critique. (Fine Arts Credit or Elective Credit) Fee: $15 Supplies

Art II – Drawing
(03500500 ART2DRAW)
# 8030 10th-12th 1 credit 4.0
Prerequisite(s): Art 1 and teacher recommendation
Course Description: Students will expand their exploration of the elements and principles of design with regards to creative drawing solutions and valid mark making. This course requires self-direction, self-motivation, and the ability to produce original work. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies

Art III – Drawing
(03501300 ART3DRAW)
# 8040 11th-12th 1 credit 4.0
Prerequisite(s): Drawing I and art teacher recommendation
Course Description: Students will use a more rigorous exploration of the elements and principles of design with regards to creative drawing solutions and valid mark making. This advanced level course requires self-direction, self-motivation, and the ability to produce original work. Drawing classes are production oriented, with a portfolio of work required at end of each semester. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies (some personal expenses to be expected)

Art II – Sculpture
(03501000 ART2SCLP)
# 8024 10th-12th 1 credit 4.0
Prerequisite(s): Art 1 and teacher recommendation
Course Description: Students will apply the elements and principles of design to traditional and non-traditional construction methods while being exposed to various sculptural media. Students will explore Art History and become familiar with the tools and techniques needed to produce 3-D artwork. Students will be exposed to lecture, individual projects, and group projects in order to help develop a full and enriching sculptural experience. This advanced course requires self-direction, self-motivation, and the ability to produce original work. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies (some personal expenses to be expected)

Art III – Sculpture II
(03501900 ART3SCLP)
# 8034 11th-12th 1 credit 4.0
Prerequisite(s): Sculpture I and teacher recommendation
Course Description: Students will apply the elements and principles of design to traditional and non-traditional construction methods while being exposed to various sculptural media. This course is self-paced. Students will be expected to create sculpture that incorporates their interests or work that specializes in use of certain media. This advanced course requires self-direction, self-motivation, and the ability to produce original work. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies (some personal expenses to be expected)
Art II – Painting I
(03500600 ART2PATG)
# 8020  10th-12th  1 credit  4.0
Prerequisite(s): Art 1 and art teacher recommendation
Course Description: Students will expand their exploration of the elements and principles of design with regards to creative painting solutions. This advanced course requires self-direction, self-motivation, and the ability to produce original work. Painting classes are production oriented, with a portfolio of work required at end of each semester. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies

Art III – Painting II
(03501400 ART3PATG)
# 8080  11th-12th  1 credit  4.0
Prerequisite(s): Painting I and art teacher recommendation
Course Description: Students will use a more rigorous exploration of the elements and principles of design with regards to painting solutions and individual style. This advanced level course requires self-direction, self-motivation, and the ability to produce original work. Painting classes are production oriented with a portfolio of work required at end of each semester. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies (some personal expenses to be expected)

Art III Advanced
(03500300 ART3)
# 8054  11th-12th  1 credit  5.0
Prerequisite(s): Art 1, Art 2
Course Description: This course is for the serious art student who wants to pursue an AP portfolio submission their senior year either in Drawing, 2-D Design, or 3-D Design. Students will learn the requirements and submission processes for the Advanced Placement portfolio. They will experiment with an assortment of media and contents, creating works for the Selected Works section of their portfolio. (Fine Arts Credit or Elective Credit) Fee: $25 Supplies (some personal expenses to be expected)

AP Studio Art: Drawing
(A3500300 APSTARTD)
# 8070  11th-12th  1 credit  5.0
Prerequisite(s): at least 2 years of high school art and art teacher recommendation
Course Description: Designed for the more serious art student. Course outline is based on the guidelines stipulated for Advanced Placement portfolio requirements. Students will use the Elements and Principles of Design and inquiry-based learning to find aesthetically meaningful solutions to drawing problems. At the end of the year, the students are strongly encouraged to submit a portfolio to the College Board for possible college AP credit. (Fine Arts Credit or Elective Credit) Fee: $35 Supplies Required, AP National Exam, optional

AP Studio Art: 2D Design
(A3500400 AP2DDP)
# 8074  11th-12th  1 credit  5.0
Prerequisite(s): At least 2 years of high school art and art teacher recommendation.
Course Description: Designed for the more serious art student. Course outline is based on the guidelines stipulated for Advanced Placement portfolio requirements. Emphasis is on the Elements and Principles of Design inquiry-based learning. At the end of the year, the students are strongly encouraged to submit a portfolio to the College Board for possible college AP credit. (Fine Arts Credit or Elective Credit) Fee: $35 Supplies Required, AP National Exam, optional

AP Studio Art: 3D Design
(3500500 AP3DDP)
# 8064  11th-12th  1 credit  5.0
Prerequisite(s): At least 2 years of high school art and an art teacher recommendation
Course Description: Designed for the more serious art student. This is a college-level Advanced Placement course. The student will use inquiry-based learning to create a body of Three-dimensional work. Course outline is based on the guidelines stipulated for Advanced Placement portfolio requirements with emphasis on the Elements and Principles of Design. At the end of the year, the students are strongly encouraged to submit a portfolio to the College Board for possible college AP credit. (Fine Arts Credit or Elective Credit) Fee: $35 Supplies Required, AP National Exam, optional
AP History of Art 
(A3500100 APHISTART) 
# 8050 11th-12th 1 credit 5.0 
Prerequisite(s): Advanced English or Social Studies Course

Course Description: AP Art History is designed as an equivalent to an introductory college art history survey course. This course involves intensive reading, formal visual analysis, and critical thinking. Artistic expression from a variety of human experiences and diverse cultures, past and present, will be examined. Students will consider the social, political, and religious contexts which influenced the works of art. This course requires good writing skills and a great commitment to academic course work. (Fine Arts Credit or Elective Credit) 
Fee: $15 Supplies Required, AP National Exam, Optional

Dance I (can be for fine arts or PE credit) 
(03830100 DANCE 1) 
(PES00055 PEITS; PES00054 PEAA) 
# 5200 (fine arts) 9th-12th 1 credit 4.0 
# 5064 (PE) 9th-12th .5 credit 4.0 
# 5065 (PE) 9th-12th .5 credit 4.0 
Prerequisite(s): None
Course Description: This course will provide students with the fundamental skills and knowledge of dance as an art form and lifetime activity. Students will study various forms of dance such as ballet, modern, jazz, tap, hip hop, and social dance with an emphasis on the movement, history, and choreography of each form. Students are taught creative expression through movement and awareness of space, time, and energy as design factors in dance technique and composition. Focus is on development of self-confidence and an appreciation of dance as an art form. (Fine Arts or PE Credit)

Dance II, III, IV 
(03830200 DANCE 2; 03830300 DANCE 3; 03830400 DANCE 4) 
# 5204 Second Year 1 credit 4.0 
# 5210 Third Year 1 credit 4.0 
# 5214 Fourth Year 1 credit 4.0 
Prerequisite(s): Credit for previous level of Dance is required and teacher recommendation
Course Description: This course requires completion of Dance I or instructor permission to enroll in the upper division. Participants have opportunities to perform, choreograph, compete, and view other dancers of their age group as well as professional dancers. (Fine Arts Credit or Elective Credit)

Drill Team/Advanced Dance I, II, III, IV 
(03830100 DANCE 1; 03830200 DANCE 2; 03830300 DANCE 3; 03830400 DANCE 4) 
# 5230 First Year 1 credit 4.0 
# 5234 Second Year 1 credit 4.0 
# 5240 Third Year 1 credit 4.0 
# 5244 Fourth Year 1 credit 4.0 
Prerequisite(s): Audition, Director Approval
Description: Drill team performs at various athletic competitions, pep rallies, and drill team contests. Participants are responsible for annual costs for camp, costumes, and awards. This course qualifies for a full year credit for Fine Arts and provides ½ PE substitution/waiver credit in the fall for the first two years. (Fine Arts Credit or Elective Credit) 
Fees: specific fees will be discussed upon making the team

Dance Wellness for Athletes 
(03834100 DAN1WEL) 
# 5217M Male Athletes 9th-12th 1 credit 4.0 
# 5217G Female Athletes 9th-12th 1 credit 4.0 
Prerequisite(s): None
Course Description: This course will provide athletes with fundamental skills and knowledge of dance as an artform and lifetime activity, with a specific emphasis on areas that will improve their athletic ability. Students will study various forms of dance such as ballet, jazz, hip hop, and social dance, as well as broader aspects of dance such as injury prevention, stretching, and building muscle tone. This course will help to increase flexibility, balance, explosiveness, and agility in athletes. (Fine Arts or Elective Credit)
Color Guard I, II, III, IV
(03830100 DANCE 1; 03830200 DANCE 2; 03830300 DANCE 3; 03830400 DANCE 4)
# 8560  First Year  1 credit  4.0
# 8564  Second Year  1 credit  4.0
# 8570  Third Year  1 credit  4.0
# 8574  Fourth Year  1 credit  4.0
Prerequisite(s): Audition; director approval
Course Description: This class is associated with the band. Students learn dance concepts, exercises, and skills while developing an awareness of teamwork, choreography, and performance. This course will focus on movement and manipulation of equipment, as well as Dance TEKS. Students are members of the marching band ensemble unit and may be subject to the requirements that apply to band members, including after school and weekend activities. This course qualifies for a full year credit for Fine Arts and provides ½ PE substitution/waiver credit in the fall for the first two years. Advanced credit is available to juniors and seniors in Levels III and IV who have completed levels I and II. Advanced credit requires completion of the Advanced program as contracted with the director. (Fine Arts Credit or Elective Credit)
Fees: specific fees will be discussed upon making the team

Theatre Arts I
(03250100 TH1)
# 8110  9th-12th  1 credit  4.0
Prerequisites: None
Course Description: By studying theatre, students will develop a perception of self, human relationships, and the world using elements of drama and conventions of theatre. Theatre allows students to develop and explore characters various types of characters through scripted and improvised scene work.”. Students will study the historical and cultural aspects of theatre, ranging from traditional Greek Theatre to Modern Day Musicals. There will be an expectation for students to be critical of all types of performances, including their own. Students will leave the course with a thorough knowledge of theatre arts, acting techniques, and the impact of theatre on modern society. (Fine Arts Credit or Elective Credit)
Fee: $10 Supplies

Theatre Arts II, III, IV
(03250200 TH2; 03250300 TH3; 03250400 TH4)
# 8120  Second Year  1 credit  4.0
# 8130  Third Year  1 credit  4.0
# 8140  Fourth Year  1 credit  4.0
Prerequisite(s): credit for previous level of Theatre Arts
Course Description: Through advanced study of acting techniques, students will develop their ability to perceive themselves and other characters, understand the historical and cultural perspectives of theatre, and be able to effectively criticize theatre. Students will be expected to act and perform at an advanced level, and students will often be expected to memorize and examine scripts from many different eras of theatre. Students will leave the course with a better understanding of advanced acting techniques, improvisation, and many areas of theatre history and culture. Advanced credit is available in Levels III and IV for juniors and seniors who have completed levels I and II. Completion of extra work and hours as contracted with the director will be required for advanced credit. (Fine Arts Credit or Elective Credit)

Improvisational Theatre
(N1170126 ACTMET4)
# 8104  9th-12th  1 credit  4.0
Prerequisite(s): none
Course Description: This course focuses on the art of improvisational theatre and the skills necessary to create three-dimensional characters, coherent stories, and compelling performances through strong listening skills, emotional connection, and exploration of the key elements of theatrical storytelling. This course provides an in-depth exploration of improvisation as a vehicle for drama development, theatrical presentation, and actor training. Students apply their skills in the development of comic and dramatic improvised scenes. They analyze scene structures and the historical use of improvisation in the development of theatre for socio-political and entertainment purposes. Students experiment with long forms of improvisation to develop a final presentation. (Elective Credit)

Theatre Production I
(03250700 TH1PROD)
# 8090  9th  1 credit  4.0
Prerequisite(s): Prerequisite: middle school theatre experience and teacher recommendation
Course Description: This course will provide advanced instruction in acting, and Theatre production students will be given opportunities to perform Improvisational Acting, One Act Plays, and student-directed plays. Students are expected to perform/assist in all school theatre productions. The focus of this course is to prepare students to audition for Theatre Production II & III. (Fine Arts Credit or Elective Credit)
**Theater Production II, III, IV**  
(03250800 TH2PROD; 03250900 TH3PROD. 03251000 TH3PROD)

**Course Description:** Technical Theater II is the study of communication and documentation materials relative to theatrical design. There is an exploration of basic nomenclature and organizational structures used in the physical articulation of theatrical productions. You will study the use of the theatrical paperwork for proper technical and design communication required throughout the theatrical design process. Proper drafting and lettering skills will be introduced and practiced. Also covered in this course are observations of collaborative communication and listening skills necessary throughout the design process, organizational techniques, and layout modification processes for the theatrical designer. Exercises might include lettering, line work and the drawing of the human form, the creation of a production cue sheet, elevations, ground plans, costume plots, magic sheet, and the creation of a visual research morgue and/or a visual storyboard. Course includes an introduction to and the proper drawing and drafting of theatrical documents, and relative plot communication drawings. (Fine Arts Credit or Elective Credit) Fee: $10 Supplies

**Musical Theatre I, II (CSHS Only)**

**Course Description:** Musical Theatre will expose students to a wide range of on-stage performance disciplines, including acting performance, vocal performance, and dance performance. The course will enhance and cultivate the creative gifts of each student while encouraging a sense of self-confidence. The course will enable students to study and perform the varied styles of musical theatre with special attention to the principles of stage movement, stage vocal technique, stage choreography, acting, characterization and all other aspects of a musical theatre production. (Fine Arts Credit, Elective Credit) Fee: $10
Choir
(Note: participation in all choirs is subject to instructor placement determined by audition. Attendance is required at all rehearsals and performances, including UIL events, concerts, and community performances. Individual participation in All Region auditions, solo/ensemble events, etc. is encouraged. Supply fees are required. Not all choir courses are offered at all campuses. Course availability is determined by the number of students auditioning for each voice part, or by decisions made by campus leadership.)

Chorale I, II, III, IV (Mixed)
(03150900 MUS1CHOR; 03151000 MUS2CHOR; 03151100 MUS3CHOR; 03151200 MUS4CHOR)

</tbody>
</table>
Prerequisite(s): Must have at least one full year of band or exhibit proficiency on a band instrument with director’s approval to enroll. Must complete the previous level before advancing to the next level.

Course Description: Band provides opportunities to gain knowledge in instrumental technique, music theory, music history, critical listening, creative listening, self-discipline, and citizenship through a variety of performance settings (i.e. marching band, concert band, small ensembles, and solo performance). During fall semester, students will participate in the Marching Band. The Marching Band performs at varsity football games, pep rallies, marching contests, and parades. During marching season, the band will practice outside of regular school hours. Practices are limited by U.I.L. to no more than eight hours per week. After marching season, the marching band will be divided into various concert bands by audition (i.e. Concert Band, Symphonic Band, Wind Symphony, etc.). After school rehearsals and/or sectional may continue throughout the concert season (still limited by U.I.L. to no more than eight hours of practice per week). Student attendance is required for all performances and rehearsals. Summer marching band practice is also required. Advanced credit is available in Levels III and IV for juniors and seniors who have completed levels I and II. Completion of extra work and hours as contracted with the director will be required. This course qualifies for a full year credit for Fine Arts and provides ½ PE substitution/waiver credit in the fall for the first two years. (Fine Arts Credit or Elective Credit)

Fee: If using a school-owned instrument, a $100 Instrument fee will be assessed for the year. Other fees may apply.

### Jazz Ensemble I, II, III, IV

(03151300 MUS1JZBN; 03151400 MUS2JZBN; 03151500 MUS2JZBN; 03151600 MUS4JZBN)

</tr>
</tbody>
</table>

Prerequisite(s): Audition

Course Description: Emphasis on the theory of music, improvisation, styles and techniques of jazz, and small ensemble sound. Performances in jazz festivals, school musicals, and other events by invitation. Students are required to attend all competitions, performances, and outside rehearsals. Membership is by audition and depends upon specific instrumentation needs. Wind players must be enrolled in band; rhythm section players (guitar, bass, piano, and drum set) must be enrolled in band, choir, or orchestra. (If there are no qualified rhythm section candidates in the parent organizations, the director may elect to open auditions to other students). Advanced credit is available in Levels III and IV for juniors and seniors who have completed levels I and II. Completion of extra work and hours as contracted with the director will be required. (Fine Arts Credit or Elective Credit)

Fee: some fees will apply, students should maintain their instruments

### AP Music Theory

(A3150200 APMUSTHY)

<table>
<thead>
<tr>
<th>#</th>

<th>Credit</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>#8700</td>
<td></td>
<td>1</td>
<td>5.0</td>
</tr>
</tbody>
</table>

Prerequisite(s): at least one year of high school band, orchestra or choir

Course Description: Music Theory is the rigorous study of the fundamental components of music. It explores the language and notation of music through deep understanding of melody and harmony. This study will be accomplished through musical notation, ear training, composition, and analytical writing. Students may elect to take the AP Music Theory exam at the end of the year, which may garner college credit. Fee: National AP exam, optional (Fine Arts, Elective credit)

### Orchestra I, II, III, IV

(03150500 MUS1ORCH; 03150600 MUS2ORCH; 03150700 MUS3ORCH; 03150800 MUS4ORCH)

<table>
<thead>

<td>4.0</td>
</tr>
<tr>
<td># 8740</td>
<td>Fourth Year</td>
<td>1</td>
<td>4.0</td>
</tr>
</tbody>
</table>

Prerequisite(s): Participation in all orchestras is subject to instructor placement and determined by audition and past performance.

Course Description: Students will study music history and literature through performance. Rehearsals and performances outside of school are considered co-curricular, are required, and affect the students' grades. The school will provide cellos and string basses for school use, but every student is required to own or rent their own instrument and accessories. Advanced credit is available in Levels III and IV for juniors and seniors who have completed levels I and II. Completion of extra work and hours by audition for Region, participation in Solo/Ensemble, and possible Programmed Theory Course as contracted with the director will be required. (Fine Arts Credit or Elective Credit)

### Concert Orchestra

Students focus on refining string instrument techniques, music reading, and listening skills.

### JV Orchestra

Experienced students further refine their technique, music reading and listening skills.

### Varsity Orchestra

Students with superior musical abilities further refine their technique, listening skills, creativity, and discrimination.

Fee: $100 Instrument, Supply and Travel Fee
Health and PE Courses

Prerequisite(s): none

Course Description: Students are expected to develop competency in outdoor activities that promote a physically active lifestyle and respect for the environment that can be enjoyed for a lifetime. Activities will include angling, archery, camping and orienteering/gps. (PE Credit or Elective Credit)

Fee: $6 Uniform Fee
Cheerleading
(5151-PES00013 SUBCHLDG; 5255 - PES00013 SUBCHLDG; 5261 – 03830100 DANCE 1; 5265 – PES00054 PEAA)
Fall  Spring
# 5251  # 5252  1st year  1 credit  4.0
# 5261  # 5262  2nd year  1 credit  4.0
# 5255  # 5256  3rd year  1 credit  4.0
# 5265  # 5266  4th year  .5 credit  4.0
Prerequisite(s): Tryout
Course Description: Cheerleaders are selected 100% by outside judges. They perform at various sports events and are a spirit squad. PE credit is earned for the first year of cheer. A fine art credit may be selected for the second year of cheer. Second, third, and fourth year cheer may be taken as a non-credit class assuming PE credit has been earned. Fees: will be discussed after student makes the team; an estimated list of fees will be provided at the mandatory parent meeting before tryouts in the spring.

Fitness Training
(PES00054 PEAA)
# 5111 Fall  9th-12th  .5 credit  4.0
# 5112 Spring  9th-12th  .5 credit  4.0
Prerequisite(s): none
Course Description: This class provides a serious workout for those who would like to get in better shape. Benefits include toning for the muscles, increased cardiovascular fitness, and increased flexibility. Class activities include HIIT training, circuit training, and weight training. This class promotes total body fitness and fun while you are getting there! (PE Credit or Elective Credit) Fee: $6 Uniform Fee

Aerobic Walking
(5151 - PES00055 PEITS; 5152-PES00054 PEAA)
# 5151 Fall  9th-12th  .5 credit  4.0
# 5152 Spring  9th-12th  .5 credit  4.0
Prerequisite(s): none
Course Description: This class promotes the #1 lifetime activity of people in the United States. Students will learn how to improve their walking style for fitness and how to race walk. Students begin walking a mile and gradually progress up to 3 miles throughout the semester. Expect to walk every day with a variety of walking routes around the school. Track work will also be utilized to increase performance. (PE Credit or Elective Credit) Fee: $6 Uniform Fee

Dance I (can be for fine arts or PE credit)
(03830100 DANCE 1)
(PES00055 PEITS; PES00054 PEAA)
# 5200 (fine arts)  9th-12th  1 credit  4.0
# 5064 (PE)  9th-12th  .5 credit  4.0
# 5065 (PE)  9th-12th  .5 credit  4.0
Prerequisite(s): None
Course Description: This course will provide students with the fundamental skills and knowledge of dance as an art form and lifetime activity. Students will study various forms of dance such as ballet, modern, jazz, tap, hip hop, and social dance with an emphasis on the movement, history, and choreography of each form. Students are taught creative expression through movement and awareness of space, time, and energy as design factors in dance technique and composition. Focus is on development of self-confidence and an appreciation of dance as an art form. (Fine Arts or PE Credit)

Health
(03810100 HLTH ED)
# 5013  9th-12th  .5 credit  4.0
Prerequisite(s): None
Course Description: This class emphasizes the decision-making process in dealing with the changes, choices and challenges involved in becoming a totally healthy, mature young adult. Topics include growth and development, nutrition, fitness, mental health, emotional health, drug misuse, environmental health, communicable diseases, non-communicable diseases, the life cycle, family life, emergency first aid, and cardiopulmonary resuscitation. (Elective Credit)

Sports Medicine I
(N1150040 SPORTMD1)
# 5270  9th-12th  1 credit  4.0
Prerequisite(s): None
Course Description: Provides an opportunity for the study and application of the components of sports medicine including, but not limited to, sports medicine related careers; organizational and administrative considerations; prevention of athletic injuries;
recognition, evaluation, and immediate care of athletic injuries; rehabilitation and management skills; taping and wrapping techniques; first aid, CPR, and AED emergency procedures; nutrition; sports psychology; human anatomy and physiology; therapeutic modalities; and therapeutic exercise. (Elective Credit)

**Sports Medicine II**
(N1150041 SPORTMD2)
# 5290 10th-12th 1 credit 4.0
**Prerequisite(s):** Sports Med I, Application, interview admission only
**Course Description:** This course is for athletic training students only. It provides an in-depth study and application of the components of sports medicine including, but not limited to, basic rehabilitative techniques; therapeutic modalities; wound care; taping and bandaging techniques; prevention, recognition and care of musculoskeletal injuries; injuries to young athletes; drugs in sports; and modern issues in sports medicine. Individualized and independent assignments will be included in this course. Outside of class homework and time working with athletes and athletic teams after school will be required. (Elective Credit)

**Sports Medicine III**
(N1150044 SPORTMD3)
# 5293 11th-12th 1 credit 4.0
**Prerequisite(s):** Sports Med II, Application, interview admission only
**Course Description:** This course is for athletic training students only. It continues Sports Med II. It provides an in-depth study and application of the components of sports medicine including, but not limited to, basic rehabilitative techniques; therapeutic modalities; wound care; taping and bandaging techniques; prevention, recognition, and care of musculoskeletal injuries; injuries to young athletes; drugs in sports; and modern issues in sports medicine. Individualized and independent assignments will be included in this course. Outside of class homework and time working with athletes and athletic teams after school will be required. (Elective Credit)
Competitive Athletics

Four credits of Physical Education can be earned in competitive athletics. Second, third, and fourth-year athletes may take athletics as a non-credit class. Competitive Athletic programs are a privilege. Students may be released at coaches’ discretion. If a student is cut from a sport, the parent will be contacted by the coach.

Career and Technical Education
Programs of Study
The Animal Science program of study focuses on the science, research, and business of animals and other living organisms. It teaches students how to apply biology and life science to real-world life processes of animals and wildlife, either in laboratories or in the field, which could include a veterinary office, a farm or ranch, or any outdoor area harboring animal life. Students may also research and analyze the growth and destruction of species and research or diagnose diseases and injuries of animals.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Animal Science program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020
Animal Science Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Ag, Food & Natural Resources
(13000200 PRINAFNR)
# 6000 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: This class will help students expand their leadership and communication skills while furthering knowledge of the effects of agriculture on our world. The class will focus on the elements of the FFA, and a basic study of soils, plants, and various livestock species. (Elective/CTE Credit)

Equine Science (AMCHS only)
(13000500 EQUINSCI)
# 6043 10th-12th .5 credit 4.0
Prerequisite(s): Principles of Ag, Food & Nat Resources recommended
Course Description: Students will study selection, nutrition, reproduction, handling, and management to prepare for a career in the horse industry. Horseplay allowed! (Elective/CTE Credit)

Small Animal Management (AMCHS only)
(13000400 SMANIMGT)
# 6053 10th-12th .5 credit 4.0
Prerequisite(s): Principles of Ag, Food & Nat Resources recommended
Course Description: Small animals are special creatures; whether you are a cat person, a reptile lover, or you prefer pocket pets, you will experience it all. Students will attain knowledge and skills related to animal identification, animal behavior, anatomy, and the care and management of animals ranging from small mammals such as dogs and cats to amphibians and reptiles. (Elective/CTE Credit)

Veterinary Medical Applications w/Lab (AMCHS only)
(13000610 VETMEDAP)
# 6050 11th-12th 2 credits 5.0
Prerequisite(s): Equine Sci./Small Animal Management OR Livestock Production
Course Description: This upper-level course includes, but is not limited to, animal handling and restraint, health and safety, sanitation, surgical preparation, anatomy, physiology, medical terminology, infectious diseases, instrument and equipment identification, vaccine preparation and injection techniques, laws and ethics, and veterinary office procedures. The curriculum provides instruction to assist students in practicing communication skills, utilizing listening skills to follow directions, practicing basic mathematics skills as applied to a veterinary medical setting, reading to gain information, and performing assignments and tasks as directed. This course will include a clinical rotation designed to allow students to gain hands-on experience working in various veterinary assistant positions. The teacher and rotation site sponsor should jointly develop worksite competencies. Students will have the option to certify through the Texas Veterinary Medical Association pending the completion of certification requirements. Students must provide their own transportation to field sites. Transportation may be available on request. (Elective/CTE Credit)

Advanced Animal Science (AMCHS only)
(13000700 ADVANSCI)
# 6054 12th 1 credit 5.0
Prerequisite(s): Biology and Chemistry or IPC; Algebra 1 and Geometry and either Equine Science, Small Animal Management or Livestock Production
Course Description: Students will learn about careers in the field of animal science, classes and grades of livestock, animal genetics and heredity, animal anatomy and physiology, animal nutrition for ruminants and non-ruminants, and animal diseases and parasites. The students will also be required to participate in labs where they will demonstrate safe practices and knowledge of scientific principles and methods as it pertains to the Animal Science Industry. This course is designed for students in the Animal Science pathway to earn their fourth science in an agriculture class. (Elective/CTE/Science Credit)
The Applied Agricultural Engineering program of study explores the occupations and educational opportunities associated with applying knowledge of engineering technology and biological science to agricultural problems concerning with power and machinery, electrification, structures, soil and water conservation, and processing agricultural products. This program of study may also include exploration into diagnosing, repairing, or overhauling farm machinery and vehicles, such as tractors, harvesters, dairy equipment, and irrigation systems.

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

Successful completion of the Applied Agricultural Engineering program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020
**Applied Agricultural Engineering Program of Study Course Descriptions**

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

**Principles of Ag, Food & Natural Resources**
(13000200 PRINAFNR)

# 6000  
9th-11th 1 credit  4.0

**Prerequisite(s):** None

**Course Description:** This class will help students expand their leadership and communication skills while furthering knowledge of the effects of agriculture on our world. The class will focus on the elements of the FFA, and a basic study of soils, plants, and various livestock species. (Elective/CTE Credit)

**Agricultural Mechanics & Metal Technologies (AMCHS only)**
(13002200 AGMECHMT)

# 6070  
10th-12th 1 credit  4.0

**Prerequisite(s):** Principles of Ag, Food & Nat Resources recommended

**Course Description:** Do you like working in a hands-on environment? This class may be the right choice for you. Students will actively learn how to properly use tools to work with a variety of materials including concrete, electricity, plumbing, and basic carpentry. Proper safety is also an integral part in learning how to weld using Oxy-Fuel, Arc, and MIG techniques. You can be sure the Agriculture Mechanics & Metal Fabrication class will strike an interest in you and lay a foundation of useful skills for the future. (Elective/CTE Credit)

**Agricultural Structures Design and Fabrication w/lab (AMCHS only)**
(13002310 AGSDFLAB)

# 6080  
11th-12th 2 credits  5.0

**Prerequisite(s):** Agricultural Mechanics & Metal Technologies and any local requirements

**Course Description:** Students who successfully complete Advanced Ag Mechanics will develop the skills necessary to design agricultural structures, utilize and diagnose power systems, use welding technology effectively, and construct metal projects. Instruction will also emphasize job opportunities in these areas. (Elective/CTE Credit)

**Practicum in Ag, Food & Natural Resources – Ag Mechanics (AMCHS only)**
(13002500 PRACAFNR1)

# 6084  
12th 2 credits  5.0

**Prerequisite(s):** Agricultural Structures Design and Fabrication w/lab and any local requirements

**Course Description:** Students with a genuine career interest in ag mechanics will enjoy this advanced course. Instruction will focus on managing large projects and working with others in a laboratory setting. (Elective/CTE Credit)
The Plant Science program of study focuses on the science, research, and business of plants and other living organisms. It teaches students how to apply biology and life science to real-world life processes of plants and vegetation, either in laboratories or in the field.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Plant Science program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020

Principles of Ag, Food & Natural Resources
(13000200 PRINAFNR)
# 6000 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: This class will help students expand their leadership and communication skills while furthering knowledge of the effects of agriculture on our world. The class will focus on the elements of the FFA, and a basic study of soils, plants, and various livestock species. (Elective/CTE Credit)

Floral Design
(13001800 FLORAL)
# 6020 10th-12th 1 credit 4.0
Prerequisite(s): Principles of Ag, Food & Nat Resources recommended
Course Description: Stop and smell the roses! Impress your significant other or mom! Students who successfully complete this class will construct cost effective geometric designs, corsages, and homecoming mums. Special occasion designs and business management practices are an integral part of the course which will prepare students for a career in the floral industry. Students will be able to keep their designs at the end of the unit as well as obtain certification through the Texas State Floral Association. (Elective/CTE/Fine Arts Credit)

Advanced Floral Design
(N1300270 ADVFLDES)
# 6024 11th-12th 1 credit 5.0
Prerequisite(s): Floral Design
Course Description: Want to build upon the knowledge and skills you learned in Floral Design? In this course, you will be introduced to more advanced floral design concepts, with an emphasis in specialty designs and specific occasion designs. (Elective/CTE Credit)

Practicum in Ag, Food and Natural Resources – Floral Design
(13002500 PRACAFNR1)
# 6027 12th 2 credits 5.0
Prerequisite(s): Advanced Floral Design
Course Description: Students will create designs for customers, teach classes and help run the floral shop. (Elective/CTE Credit)

Advanced Plant & Soil Science (CSHS)
(13002100 ADVPSSCI)
# 6004 11th-12th 1 credit 5.0
Prerequisite(s): Horticulture Science or Floral Design
Course Description: Plant and Soil Science provides a way of learning about the natural world. Students should know how plant and soil science has influenced a vast body of knowledge, that there are still applications to be discovered, and that plant and soil science is the basis for many other fields of science. Investigations, laboratory practices, and field exercises will be used to develop an understanding of current plant and soil science. This course is designed to prepare students for careers in the food and fiber industry. Students will learn, reinforce, apply, and transfer their knowledge in a scientific setting. This course is designed for students in the Plant Science or Natural Resource Pathways to earn their fourth science credit in an agriculture science class. (Elective/CTE/Science Credit)
The Food Science and Technology program of study explores the occupations and educational opportunities associated with working with agricultural and food scientists in food, fiber, and animal research, production, and processing. This program of study may also include assisting with animal breeding, nutrition, and conducting tests and experiments to improve yield and quality of crops or to increase the resistance of plants and animals to disease or insects.

The Agriculture, Food, and Natural Resources (AFNR) Career Cluster focuses on the essential elements of life—food, water, land, and air. This career cluster includes a diverse spectrum of occupations, ranging from farmer, rancher, and veterinarian to geologist, land conservationist, and florist. It also includes non-traditional agricultural occupations like wind energy, solar energy, and oil and gas production.

Successful completion of the Food Science and Technology program of study will fulfill requirements of a Business and Industry endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020
Food Science and Technology Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Ag, Food & Natural Resources
(13000200 PRINAFNR)
# 6000 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: This class will help students expand their leadership and communication skills while furthering knowledge of the effects of agriculture on our world. The class will focus on the elements of the FFA, and a basic study of soils, plants, and various livestock species. (Elective Credit/CTE Credit)

Food Technology and Safety (Foods of Texas) (CSHS only)
(13001300 FOODTS)
# 6064 10th-12th 1 credit 4.0
Prerequisite(s): Principles of Ag, Food & Nat Resources recommended
Course Description: From the farm gate to your plate, learn how the Foods of Texas start from a raw product and transforms into a product in your grocery basket or at your favorite restaurant. This class focuses on Texas favorites by examining the production of food, food safety and handling practices, and marketing techniques. Students will grill steaks, smoke meats, grind and stuff sausage, can produce, prepare ice cream, make tamales, etc. Additionally, students will earn their Texas Food Handler’s license. (Elective/CTE Credit)

Food Processing (CSHS only)
(13001410 FOODPRO)
# 6060 11th-12th 2 credits 5.0
Prerequisite(s): Food Technology and Safety
Course Description: Students who enroll in Food Processing will have hands-on experience in processing carcasses and wholesale cuts into value-added retail products – sausage, bacon, ham and smoked products. Quality control and marketing practices will be conducted in an entrepreneurial environment. Students will gain ServSafe knowledge and practices. (Elective/CTE Credit)

Practicum in Ag, Food and Natural Resources – Food Processing
(13002500 PRACAFNR1)
# 6067 12th 2 credits 5.0
Prerequisite(s): Food Safety and Technology, Food Processing
Course Description: Students with a genuine career interest in food processing and meat science will enjoy this advanced course. Instruction will focus on managing projects, new product development, food safety and HACCP, and working with others in a laboratory setting. (Elective/CTE Credit)
The Environmental and Natural Resources program of study explores the occupations and educational opportunities associated with the research, design, and planning of engineering or technical duties in the prevention and control of environmental hazards. This program of study may also include exploration into conducting research for the purpose of identifying, abating, or eliminating sources of pollutants or hazards that affect either the environment or the health of the population.

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

Environmental and Natural Resources Program of Study Course Descriptions
We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Ag, Food & Natural Resources
(13000200 PRINAFNR)
# 6000 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: This class will help students expand their leadership and communication skills while furthering knowledge of the effects of agriculture on our world. The class will focus on the elements of the FFA, and a basic study of soils, plants, and various livestock species. (Elective Credit/CTE Credit)

Wildlife, Fisheries & Ecology Management (CSHS only)
(13001500 WFECGT)
# 6030 10th-12th 1 credit 4.0
Prerequisite(s): Principles of Ag, Food & Nat Resources recommended
Course Description: Students will develop knowledge about managing wildlife populations and how species interact with one another. Basic ecological concepts will be studied and applied outside of the classroom. Additionally, a hunter safety certificate and boating safety certificate can be earned through this hands-on course. (Elective/CTE Credit)

Practicum in Ag, Food and Natural Resources - Wildlife
(13002500 PRACAFNR1)
# 6037 12th 2 credits 5.0
Prerequisite(s): Principles of Ag, Food and Natural Resources and Wildlife, Fisheries and Ecology Mgmt
Course Description: Students with an interest in a career related to wildlife/fisheries will enjoy this advanced class about managing wildlife areas. Students will learn about managing game animals, conduct scat analysis, discuss survival techniques, and work in the CSHS aquaculture facility. Students will practice managing an area for wildlife species and will calculate carrying capacity, learn to identify and manage plants, and learn plant preferences of wildlife species. Students will also discuss controversial topics related to wildlife management and hunting. (Elective/CTE Credit)
**Additional Agriculture Program of Study Courses**

**Students are required to be enrolled in an Ag course to participate in FFA. Students may choose one of these courses to satisfy this requirement if there are no other courses in the Program of Study they are interested in taking.**

**Mathematical Applications in Ag, Food and Natural Resources**
(13001000 MATHAFNR)
# 2584   11th-12th  1 credit  4.0

**Prerequisite(s):** Principles of Ag, Food and Natural Resources, Algebra 1 and teacher recommendation

**Course Description:** Invaluable in any area of agriculture, from livestock and dairy production to horticulture and agronomy. The course introduces fundamental mathematics concepts such as arithmetic, algebra, log and exponentials, measurements and units, probability, linear equations, and non-linear functions. Students will apply methods for solving problems in the real-world using math and logic skills. Math skills needed for Agriculture industry standards in crop production, livestock production, horticulture, agricultural mechanics, and agribusiness will be the focus of this course. ((Elective/CTE/Math credit)

**Livestock Production**
(13000300 LIVEPROD)
# 6040  10th-12th  1 credit  4.0

**Prerequisite(s):** Principles of Ag, Food & Nat Resources recommended

**Course Description:** Enroll in Livestock Production and learn about the impact livestock production has on the U.S. Students will have the opportunity to learn about careers in the livestock industry, livestock management, nutrition, genetics, reproduction, and common diseases and pests of cattle, swine, lambs, goats, and poultry. (Elective/CTE Credit)

**Horticulture Science**
(13002000 HORTISCI)
# 6010  10th-12th  1 credit  4.0

**Prerequisite(s):** Principles of Ag, Food & Nat Resources recommended

**Course Description:** Turn over a new leaf in high school. Plant a seed and watch it grow in plant science. You will learn about soil management and proper planting techniques. Knowledge will also be gained in plant reproduction and maintenance of a greenhouse as well as exploring the floral and landscaping industry. (Elective/CTE Credit)
CONSTRUCTION MANAGEMENT AND INSPECTION
CSHS

The Building Codes and Inspection program of study explores the occupations and educational opportunities associated with cost estimates for construction projects or services to aid management in bidding on or determining the price of products or services. This program of study may also include exploration into inspecting structures using engineering skills to determine structural soundness and compliance with specifications, building codes, and other regulations.

Successful completion of the Construction Management and Inspection program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
Construction Management and Inspection Program of Study Course Descriptions
We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Construction (13004220 PRINCON)
# 6764 9th-12th 1 credit 4.0
Prerequisite(s): None
Course Description: This course is designed to introduce students to the skills and technologies used in Architecture, Interior Design, and Construction. It includes training in the safe use of both hand and power tools. Career and job opportunities are also explored. NCCER Core Certification Available. (Elective/CTE Credit)

Building Maintenance Technology I (CSHS only)
(13005400 BUILDMAN1)
# 6750 10th-12th 2 credits 4.0
Prerequisite(s): Principles of Construction and any local requirements
Course Description: Want to prepare yourself for a career in construction management? Students in Building Technology will gain hands-on knowledge in plumbing, electrical, and heating, ventilation, and air conditioning (HVAC) systems as well as methods for repairing and installing drywall, roofing, and insulation systems. Safety will be the primary focus as students learn to work together in these diverse conditions. Students will be able to become certified in OSHA and begin NCCER certification. (Elective/CTE Credit)

Building Maintenance Technology II (CSHS only)
(13005500 BUILDMA2)
# 6754 11th-12th 2 credits 5.0
Prerequisite(s): Building Maintenance Technology and any local requirements
Course Description: Students interested in supervisory roles and postsecondary degrees in construction management will want to pursue this course to learn skills in Occupational Safety and Health Administration (OSHA) standards, safety devices in electrical circuits, maintenance of electrical and heating, ventilation, and air conditioning (HVAC) systems, and concepts of historic preservation. Students will complete NCCER Basic Construction certification. (Elective/CTE Credit)
The Digital Communications program of study explores the occupations and educational opportunities associated with the production of audio and visual media formats for various purposes, such as TV broadcasts, advertising, video production, or motion pictures. This program of study may also include exploration into operating machines and equipment to record sound and images, such as microphones, sound speakers, video screens, projectors, video monitors, sound and mixing boards, and related electronic equipment.

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC career cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

Successful completion of the Digital Communications program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
Digital Communications Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Arts, Audio/Video Technology & Communications
(13008200 PRINAAVTC)
# 6310 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: Interested in video, advertising, or design? This course is designed to introduce technology used in the workplace. This course will offer a hands-on approach to real world problems by creating multimedia projects for real-life situations. Students will gain experience using audio and video equipment as well as animation and graphic design software. (Elective/CTE Credit)

Audio/Video Production
(13008500 AVPROD1)
# 6440 10th-12th 1 credit 4.0
Prerequisite(s): Principles of AAVC or Commercial Photography and any local requirements
Course Description: Lights, camera, action! Audio/Video Production focuses on the world of media, television, and video production. Students will produce an entire series of news casts featuring videos, TV anchors, and news stories. Students have access to professional video equipment, digital editing software, and special effects programs which are the tools to bring your ideas to life. Are you a director or a reporter? From film festivals to video competitions, discover your hidden talents. *Dual Credit (p.9) (Elective/CTE Credit)

Audio/Video Production II w/lab
(13008610 AVPLAB2)
# 6450 11th-12th 2 credits 5.0
Prerequisite(s): Audio/Video Production and any local requirements
Course Description: Advanced Audio/Video Production emphasizes scriptwriting, short film making, and further practice with video equipment and software. Students will have the opportunity to direct and produce their own short films. Students will also learn about set design, lighting, and career opportunities in the media/journalism field. This class is only limited by your imagination. (Elective/CTE Credit)

Practicum in Audio/Video Production
(13008700 PRACAVP1)
# 6460 12th 2 credits 5.0
Prerequisite(s): Audio/Video Production II w/lab, Students in worked based job or internships will be required to provide their own transportation.  
Course Description: Innovation is the driving force behind this course, which is designed for students who want to pursue advanced Audio/Video Production topics. This course will give students the opportunity to hold a position or internship in the media/journalism field. Students will produce professional level projects that can be used in a college/career portfolio. The focus of the class is real-world application of the skills learned in Audio/Video Production and Advanced Audio/Video Production. Opportunities for Adobe certifications are available. Students will have project-based assessments and hands-on application of real-world media productions in school or work/internship-based placement. (Elective/CTE Credit)
The Design and Multimedia Arts program of study explores the occupations and educational opportunities associated with designing or creating graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. This program of study may also include exploration into designing clothing and accessories, and creating special effects, animation, or other visual images using film, video, computers, or other electronic tools and media, for use in computer games, movies, music videos, and commercials.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC career cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

Successful completion of the Design & Multimedia Arts program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
Design Multimedia Graphics Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Arts, Audio/Video Technology & Communications
(13008200 PRINAAVTC)
# 6310 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: Interested in video, advertising, or design? This course is designed to introduce technology used in the workplace. This course will offer a hands-on approach to real world problems by creating multimedia projects for real-life situations. Students will gain experience using audio and video equipment as well as animation and graphic design software. (Elective/CTE Credit)

Graphic Design and Illustration
(13008800 GRAPHDI1)
# 6410 10th-12th 1 credit 4.0
Prerequisite(s): Principles of AAVC
Course Description: Magazines, digital photography, advertising, the internet – Graphic Design is the foundation for media outlets worldwide. Graphic Design and Illustration will teach students the fundamental software tools and design elements used in this industry. From digital enhancements to vector graphics, prepare yourself to create a wide variety of design projects that will lead to a solid foundation in the world of graphics and advertising design.
*Dual Credit (p. 7) (Elective/CTE Credit)

Graphic Design and Illustration II
(13008900 GRAPHDI2)
# 6414 11th-12th 1 credit 5.0
Prerequisite(s): Graphic Design I
Course Description: Magazines, digital photography, advertising, the internet – Graphic Design is the foundation for media outlets worldwide. Are you ready to take your design skills to the next level? In Graphic Design II, you will take your knowledge of typography and design principles to a new level, pushing through the boundary of print work into graphic arts and web-based advertising. Students will be prepared to take the Adobe Certified Associates test (ACA) in Photoshop and Illustrator. *Dual Credit (p. 7) (Elective/CTE Credit)

Practicum in Graphic Design and Illustration
(13009000 PRACGRD1)
# 6424 12th 2 credits 5.0
Prerequisite(s): Graphic Design II
Course Description: Innovation is the driving force behind this course, which is designed for students who want to pursue advanced graphic design topics. This course will give students the opportunity to hold a position or internship in the media/journalism field. Students will produce professional level projects that can be used in a college/career portfolio. The focus of the class is real-world application of the skills learned in Advanced Graphic Design. Opportunities for Adobe / Autodesk certifications are available. Students will have project-based assessments and hands-on application. (Elective/CTE Credit)
The Design and Multimedia Arts program of study explores the occupations and educational opportunities associated with designing or creating graphics to meet specific commercial or promotional needs, such as packaging, displays, or logos. This program of study may also include exploration into designing clothing and accessories, and creating special effects, animation, or other visual images using film, video, computers, or other electronic tools and media, for use in computer games, movies, music videos, and commercials.

The Arts, A/V Technology and Communications (AAVTC) Career Cluster focuses on careers in designing, producing, exhibiting, performing, writing, and publishing multimedia content including visual and performing arts and design, journalism, and entertainment services. Careers in the AAVTC career cluster require a creative aptitude, a strong background in computer and technology applications, a strong academic foundation, and a proficiency in oral and written communication.

Successful completion of the Design & Multimedia Arts program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
Design and Multimedia Arts Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a prerequisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

**Principles of Arts, Audio/Video Technology & Communications**  
(13008200 PRINAAVTC)  
# 6310  
9th-11th  
1 credit  
4.0  
**Prerequisite(s):** None  
**Course Description:** Interested in video, advertising, or design? This course is designed to introduce technology used in the workplace. This course will offer a hands-on approach to real world problems by creating multimedia projects for real-life situations. Students will gain experience using audio and video equipment as well as animation and graphic design software. (Elective/CTE Credit)

**Video Game Design (CSHS only)**  
(13009970 VIDGD)  
#6364  
10th-12th  
1 credit  
4.0  
**Prerequisite(s):** Principles of Arts, A/V, Communications  
**Course Description:** In this class, students move from player to creator. Artists use their tools to create wild worlds and daring heroes. Developers use programming languages to power the action, and the designers craft the stories and structure that brings it all together. This class challenges students to create several computer and mobile based applications as they learn concepts such as storyboarding, programming, event scripting, visual and audio design, level design, and troubleshooting. Upon completion of this course, the student will have cooperatively created a complete computer game that is presented to an evaluation panel of their peers. (Elective/CTE credit)

**Video Game Programming (CSHS only)**  
(N1300994 VIDEOPR)  
# 6373  
10th-12th  
1 credit  
5.0  
**Prerequisite:** Video Game Design  
**Course Description:** Video Game Programming expands on the design foundation created in Video Game Design through exposure to programming languages such as: C#, C++ and Unreal Blueprints. In this course, students will investigate the inner workings of several different types of fully functional games beginning with 2D games in the Fall and finishing with 3D games in the Spring. Students will create several entry level games designed to teach the student how to build on the mechanics learned in Game Design so that they can expand their knowledge of game design engines and begin creating their own projects. Students will finish the year with a capstone game in which they design a game from scratch and be responsible for all the coding and scripting to bring the game to life. (Elective/CTE Credit)

**Advanced Video Game Programming (CSHS only)**  
(N1300995 ADVVIDEOGP)  
# 6376  
11th-12th  
1 credit  
5.0  
**Prerequisite(s):** Video Game Design, Video Game Programming  
**Course Description:** Advanced Video Game Programming students will be introduced to advanced game programming techniques required of more complex video games. Time will be spent learning basic functions required to create larger projects including how to collaborate on projects with cloud-based resources. Using Unity or Unreal Engine as an introduction to 3D game development, students will have exposure to and an understanding of: object-oriented programming concepts; game development skill with programs such as Unity; 3D modeling with programs such as Maya; image manipulation with programs such as Photoshop, Illustrator and aftereffects; concepts related to the design process; and the ability to communicate and collaborate on group-based projects. By the end of this course students will have a holistic understanding of the work required to create a complete game from start to finish through the completion of a semester-long game project which will be delivered at the end of the spring semester. (Elective/CTE Credit)
Introduction to Culinary Arts

The Culinary Arts program of study introduces CTE learners to occupations and educational opportunities related to the planning, directing, or coordinating activities of a food and beverage organization or department. This program of study also explores opportunities involved in directing and participating in the preparation and cooking of food.

The Hospitality and Tourism Career Cluster focuses on the management, marketing, and operations of restaurants and other food/beverage services, lodging, attractions, recreation events, and travel-related services. Students acquire knowledge and skills focusing on communication, time management, and customer service that meet industry standards. Students will explore the history of the hospitality and tourism industry and examine characteristics needed for success.

Successful completion of the Culinary Arts program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
Culinary Arts Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Introduction to Culinary Arts
(13022550 INCULART)
# 6900  9th-10th  1 credit  4.0
Prerequisite(s): None
Course Description: Introduction to Culinary Arts is a combination classroom and lab-based class that will emphasize the principles of planning, organizing, staffing, directing and controlling the management of a food service operation. Introduction to Culinary Arts will provide insight into food preparation, various levels of industry management, and hospitality skills. Focus will be on planning, teamwork and employability skills. This entry level course is great for students interested in pursuing a career in the food service industry. Students will be able to pursue their ServSafe Food Handlers Certification. (Elective/CTE Credit)

Culinary Arts (CSHS only)
(13022600 CULARTS)
# 6910  10th-12th  2 credits  4.0
Prerequisite(s): Introduction to Culinary and any local requirements
Course Description: Throughout this in-depth course, students will be immersed in the world of culinary arts. With an emphasis on teamwork and food safety, students will prepare a full range of menu items. In addition to advanced culinary skills, instruction includes budgeting and marketing, restaurant management, food safety and sanitation, presentation, and serving. Students will pursue their Food Managers Certification. Upon leaving this course, students will be prepared for an exciting career in food service and the hospitality industry or for culinary school. Uniforms will be provided; however, students can choose to purchase their own. (Elective/CTE Credit)

Advanced Culinary Arts (CSHS only)
(13022650 ADCULART)
# 6920  11th-12th  2 credits  5.0
Prerequisite(s): Culinary Arts and any local requirements
Course Description: This 2-credit block course is designed for second year Culinary Arts students who will be continuing their education in safety, sanitation, professionalism, food preparation techniques and procedures. This upper level course will also cover career opportunities, employability skills, customer service, food costs, and inventory controls. Students in this level will engage in a hands-on food preparation and service opportunities and will experience a variety of jobs. Emphasis will be on quality food preparation, teamwork, developing a critical palate, and researching current culinary trends. Students will be expected to participate in catering and food service events as well as local competitions. Uniforms will be provided; however, students can choose to purchase their own. (Elective/CTE Credit)

Practicum in Culinary Arts
(13022700 PRACCUL1)
# 6930  9th – 12th  2 credits  5.0
Prerequisite(s): Advanced Culinary Arts and any local requirements
Course Description: Practicum in Culinary Arts is a unique practicum that provides occupationally specific opportunities for students to participate in a learning experience that combines classroom instruction with actual business and industry career experiences. Practicum in Culinary Arts integrates academic and career and technical education; provides more interdisciplinary instruction; and supports strong partnerships among schools, businesses, and community institutions with the goal of preparing students with a variety of skills in a fast-changing culinary art based workplace. Uniforms will be provided; however, students can choose to purchase their own. (Elective/CTE Credit)
The Cybersecurity program of study includes the occupations and educational opportunities related to planning, implementing, upgrading, or monitoring security measure for the protection of computer networks and information. This program of study may also include exploration into responding to computer security breaches and virus and administering network security measures.

Successful completion of the Cybersecurity program of study will fulfill requirements of the Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020
Cybersecurity Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Information Technology
(13027200 PRINIT)
# 6300 9th-11th 1 credit 4.0
Prerequisite(s): None
Course Description: Are you interested in the fast-paced, changing industry of Information Technology? This course will offer an introductory level of knowledge on a variety of subjects including blogs, forums, and messaging. Areas covered include computer hardware and software, networking, programming, web page design, Microsoft Office applications, file management, and operating systems. (Elective/CTE Credit)

Computer Maintenance (AMCHS only)
(13027300 COMPMNT)
# 6320 10th-12th 1 credit 5.0
Prerequisite(s): Principles of Information Technology and any local requirements
Course Description: This course is designed for students who have an interest in the field of Computer Technology. Students will learn information about the fast-paced world of computer gaming and the real-world issues that face today’s computer technicians. Computer safety, security, hardware components, assembly, and architecture will be studied in depth. Students will assemble and dismantle a working computer and will install and study several different operating systems, including Windows XP, Windows 7, Windows 10, Linux, and Mac OS. DC electronics will be covered, as well as principles and techniques of electronic soldering. Students will be prepared to take the internationally recognized CompTIA A+ Certification Exam. *Dual Credit (p. 7) (Elective/CTE Credit)

Networking w/lab (AMCHS only)
(13027410 NETWRLAB)
# 6330 11th-12th 2 credits 5.0
Prerequisite(s): Computer Maintenance and any local requirements
Course Description: Ever wonder what keeps us connected to the internet and to our cell phones? In this course, students will study the fundamentals of computer networks and internet connectivity. Hands-on applications will be used to learn network server administration, security, imaging, cloning and castling, disaster recovery, windows domain environments, and webserver hosting administration. Students will maintain classroom networks as well as dedicated file servers. Students will be prepared to take the internationally recognized CompTIA Network+ Certification Exam. *Dual Credit (p. 7) (Elective/CTE Credit)

Practicum in Information Technology
(13028000 PRACIT1)
# 6304 9th – 12th 2 credits 5.0
Prerequisite(s): Computer Science II or Networking and any local requirements
Course Description: In the Practicum in Information Technology, students will gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical skills and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid or paid internship, as part of a capstone project, or as career preparation. (Elective/CTE Credit)
The Accounting and Financial Services program of study teaches CTE learners how to examine, analyze, and interpret financial records. Through this program of study, students will learn the skills necessary to perform financial services, prepare financial statements, interpret accounting records, give advice, or audit and evaluate statements prepared by others. This program of study will also introduce students to mathematical modeling tools.

The Business, Marketing, and Finance Career Cluster focuses on careers in planning, organizing, directing, and evaluating business functions essential to efficient and productive business operations.

Successful completion of the Accounting & Financial Services program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
**Business Program of Study Course Descriptions**

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a prerequisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

**Principles of Business, Marketing & Finance**
(13011200 PRINBMF)
# 6510 9th-11th 1 credit 4.0

**Prerequisite(s):** None

**Course Description:** Students actively engage in the marketing, advertising, and financial processes through projects and case studies. It is the perfect introduction to Accounting, Marketing specialties and Business Information Management I. (Elective/CTE Credit)

**Business Information Management I**
(13011400 BUSIM1)
# 6520 9th-12th 1 credit 4.0

**Prerequisite(s):** Principles of Business, Marketing and Finance recommended

**Course Description:** Learn how to create appealing spreadsheets & charts, professional looking documents, engaging multi-media presentations, and more. Microsoft Office Specialist certifications will be offered in Word, Excel and PowerPoint. (Elective/CTE Credit)

**Accounting I**
(13016600 ACCOUNT1)
# 6640 10th-12th 1 credit 5.0

**Prerequisite(s):** Principles of Business, Marketing and Finance recommended

**Course Description:** Formulate and interpret financial information for use in management decision-making. Financial statements will be prepared manually. Business simulations will be assigned in both semesters. *Dual Credit (p.7) (Elective/CTE Credit)

**Accounting II**
(13016700 ACCOUNT2)
# 6650 11th-12th 1 credit 5.0

**Prerequisite(s):** Accounting I

**Course Description:** This class will further your accounting knowledge and take a deeper dive into the field of accounting. Spreadsheets and computerized accounting software will be utilized throughout the course. Students will have an opportunity to get certified in QuickBooks Account Software. (Elective/CTE/Math Credit)

**Practicum in Business Management**
(13012200 PRACBM)
#6597 11th -12th 2 credits 5.0

**Prerequisite(s):** Principles of Business, Marketing and Finance, BIM 1 or Accounting I

**Course Description:** Practicum in Business Management is designed to give students supervised practical application of previously studied knowledge and skills. Students implement personal and interpersonal skills to strengthen individual performance in the workplace and in society and to make a successful transition to the workforce or postsecondary education. Students develop a foundation in the economic, financial, technological, international, social, and ethical aspects of business to become competent consumers, employees, and entrepreneurs and to make appropriate business decisions. (Elective / CTE Credit)

**Career Preparation I**
(12701300 CAREERP1)
# 6800 11th -12th 3 credits 4.0

**Prerequisite:** students must have a paid / unpaid job

**Course Description:** Career Preparation provides opportunities for students to participate in a learning experience that combines classroom instruction with business and industry employment experiences and supports strong partnerships among school, business, and community stakeholders. Students must have approved employment within the first 10 days of school. Students will be required to work 15 clocked hours per week. (Elective/CTE Credit)
The Healthcare Therapeutic program of study introduces students to occupations and educational opportunities related to diagnosing and treating acute, episodic, or chronic illness independently or as part of a healthcare team. This program of study also includes an introduction to the opportunities associated with providing treatment and counsel to patients as well as rehabilitative programs that help build or restore daily living skills to persons with disabilities or developmental delays.

The Health Science Career Cluster focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

Successful completion of the Healthcare Therapeutic program of study will fulfill requirements of a Public Service endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020
HealthCare Therapeutic Program of Study Course Descriptions - AMCHS

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Health Science
(13020200 PRINHLSC)
# 6120 9th-11th 1 credit 4.0
Prerequisite(s): None

Course Description: Discover a medical career that interests you by exploring a wide variety of medical occupations. Meet new people with similar interests in the medical field. Learn about the challenges and rewards of working in the health care field under an experienced health care professional. Explore the history of health care, basic medical vocabulary, introductory anatomy and physiology, human developmental stages, medical ethics, multiculturalism, as well as communication and leadership skills needed to be successful in health care. (Elective/CTE Credit)

Medical Terminology
(13020300 MEDTERM)
# 6137 10th-12th 1 credit 5.0
Prerequisite(s): Principles of Health Science recommended

Course Description: Designed to develop a working knowledge of the language of medicine. Students acquire word-building skills by learning prefixes, suffixes, roots, and abbreviations. By relating terms to body systems, students identify proper use of words in a medical environment. Knowledge of medical terminology enhances the student’s ability to successfully secure employment or pursue advanced education in health care. (Elective/CTE credit)

Health Science Theory (AMCHS only)
(13020400 HLTHSCI)
# 6163 11th-12th 1 credit 4.0
Prerequisite(s): Principles of Health Science, Biology/Concurrently taking Biology required; Medical Terminology Recommended

Course Description: The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Topics covered include ethics, medical-legal standards, basic anatomy and physiology, and healthcare career pathways. Students will employ hands-on experiences for continued knowledge and skill development related to healthcare. Students will have the opportunity to earn a CPR/First Aid Certification when taking this course. (Elective/CTE Credit)

Health Science Theory Advanced (AMCHS only)
(13020400 HLTHSCI)
# 6163H 11th-12th 1 credit 5.0
Prerequisite(s): Principles of Health Science, Biology/Concurrently taking Biology required; Medical Terminology Recommended

Course Description: The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Topics covered include ethics, medical-legal standards, basic anatomy and physiology, and healthcare career pathways. Students will have the opportunity to earn a CPR/First Aid Certification when taking this course. To fulfill the Advanced requirement, students will be required to perform six volunteer hours each 6-week period in an approved facility. (Elective/CTE Credit)

Health Science Theory w/ Health Science Clinical (AMCHS only)
(13020410 HLTHSCI)
# 6166 11th-12th 2 credits 4.0
Prerequisite(s): Principles of Health Science, Biology/Concurrently taking Biology required; Medical Terminology recommended

Course Description: The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Topics covered include ethics, medical-legal standards, basic anatomy and physiology, and healthcare career pathways. Students will observe medical professionals in the patient care environment. Students will have the opportunity to earn a CPR/First Aid Certification when taking this course. (Elective/CTE Credit)

Health Science Theory w/ Health Science Clinical Advanced (AMCHS only)
(13020410 HLTHSCI)
# 6166H 11th-12th 2 credits 5.0
Prerequisite(s): Principles of Health Science, Biology Advanced/Concurrently taking Biology Advanced required; Medical Terminology recommended

Course Description: The Health Science Theory course is designed to provide for the development of advanced knowledge and skills related to a wide variety of health careers. Topics covered include ethics, medical-legal standards, basic anatomy and physiology, and healthcare career pathways. Students will observe medical professionals in the patient care environment. Students will have the opportunity to earn a CPR/First Aid Certification when taking this course. (Elective/CTE Credit)
related to a wide variety of health careers. Topics covered include ethics, medical-legal standards, basic anatomy and physiology, and healthcare career pathways. Students will employ hands-on experiences for continued knowledge and skill development related to healthcare. As a part of the clinical portion, students will observe medical professionals in the patient care environment. Students will have the opportunity to earn a CPR/First Aid Certification when taking this course. To fulfill the advanced requirement, students will be required to perform six volunteer hours each 6-week period in an approved facility. (Elective/CTE Credit)

Practicum in Health Science: Certified Medical Assistant (AMCHS only)
(13020500 PRACHLS1)
#6153 12th 2 credits 5.0
Prerequisite(s): Health Science Theory, Anatomy and Physiology/currently taking Anatomy and Physiology and any local requirements
Course Description: This course is designed to provide knowledge and skills for certification as a Certified Clinical Medical Assistant. Students will learn the essentials of patient care to be able to administer medications, assist with minor procedures, obtain laboratory specimens, perform electrocardiograms, and provide patient education. CCMA's perform a variety of tasks to assist physicians in providing patient care, while ensuring that clinics, hospital, or a doctor's office runs smoothly and efficiently. Additional costs may include, but are not limited to, scrubs, immunizations, TB testing and required certification fees. Students may be subjected to mandatory medical facility requirements including, but not limited to, a criminal background check and drug screening. Membership in HOSA (Health Occupations Students of America) is encouraged. (Elective/CTE Credit)

Practicum in Health Science: Pharmacy Tech (AMCHS only)
(13020500 PRACHLS1)
#6147 12th 2 credits 5.0
Prerequisite(s): Health Science Theory, Chemistry and any local requirements
Course Description: This course is designed to provide students with the knowledge and skills necessary to obtain employment in most pharmacy settings, as well as prepare them for national certification through the Pharmacy Technician Certification Board. Students will complete an intense study which includes, but is not limited to, pharmaceutical calculations, sterile and nonsterile compounding, and pharmacology. Upon completion students will understand the legal responsibilities of a pharmacy technician. Students will have the opportunity to participate in internships throughout the semester. Additional costs may include, but are not limited to, scrubs, immunizations, TB testing and required certification fees. Students may be subjected to mandatory medical facility requirements including, but not limited to, a criminal background check, fingerprinting, and drug screening. Membership in HOSA (Health Occupations Students of America) is encouraged. (Elective/CTE Credit)

Practicum in Health Science – Emergency Medical Technician (AMCHS only)
(13020500 PRACHLS1)
#6144 12th 2 credits 5.0
Prerequisite(s): Health Science Theory, Biology, Human Anatomy and Physiology/currently enrolled in Anatomy and Physiology, completion of required paperwork and immunizations and any local requirements
Course Description: The Practicum in Health Science - Emergency Medical Technician (EMT) course is designed to give students practical application of previously studied knowledge and skills. Preparation for certification as an EMT includes ethics, medical-legal concepts, anatomy and physiology, pathophysiology, and assessment. Students are taught the process of assessing patients with illness/injury, forming a differential diagnosis and initiating a treatment plan in the prehospital environment. This practicum course is held in conjunction with TEEX (Texas A&M Extension Service) Emergency Medical Services Academy. One hundred twelve (112) clinical/field hours will be performed during the spring semester; these clinical/field hours are completed outside the school day. Students will have the opportunity to become certified for: Emergency Medical Technician, ECG Technician, and Phlebotomy Technician through this course. Uniforms will be provided; however, students can choose to purchase their own. (Elective/CTE Credit)

Healthcare Therapeutic Program of Study Course Descriptions
We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Health Science
(13020200 PRINHLSC)
# 6120  9th-11th  1 credit  4.0
Prerequisite(s): None
Course Description: Discover a medical career that interests you by exploring a wide variety of medical occupations. Meet new people with similar interests in the medical field. Learn about the challenges and rewards of working in the health care field under an experienced health care professional. Explore the history of health care, basic medical vocabulary, introductory anatomy and physiology, human developmental stages, medical ethics, multiculturalism, as well as communication and leadership skills needed to be successful in health care. (Elective/CTE Credit)

Medical Terminology
(13020300 MEDTERM)
#6137  10th-12th  1 credit  5.0
Prerequisite(s): Principles of Health Science recommended
Course Description: Designed to develop a working knowledge of the language of medicine. Students acquire word-building skills by learning prefixes, suffixes, roots, and abbreviations. By relating terms to body systems, students identify proper use of words in a medical environment. Knowledge of medical terminology enhances the student’s ability to successfully secure employment or pursue advanced education in health care. (Elective/CTE credit)

Human Anatomy & Physiology
(13020600 ANATPHYS)
# 3810  11th-12th  1 credit  4.0
Prerequisite(s): Biology and a second science credit
Course Description: Comprehensive study of anatomy and physiology of the human body. An overview of histology, general anatomical terminology, and detailed investigation of all body systems. Major mammalian dissection included. (Elective/CTE/Science credit)

Human Anatomy & Physiology Advanced
(13020600 ANATPHYS)
# 3820  11th-12th  1 credit  5.0
Prerequisite(s): Biology Advanced and Chemistry Advanced
Course Description: Comprehensive study of Anatomy and Physiology with emphasis on histology, terminology, and investigative applications. Major mammalian dissection and numerous disorders/diseases reviewed. (Elective/CTE/Science credit)

Pharmacology
(13020950 PHARMC)
# 6134  9th – 12th  1 credits  5.0
Prerequisite(s): Biology and Chemistry (Medical Terminology required after 2021-2022)
Course Description: The Pharmacology course is designed to study how natural and synthetic chemical agents such as drugs affect biological systems. Knowledge of the properties of therapeutic agents is vital in providing quality health care. It is an ever-changing, growing body of information that continually demands greater amounts of time and education from health care workers. (Elective/CTE credit)
The Teaching and Training program of study prepares CTE learners for careers related to teaching, instruction, and creation of instructional and enrichment materials. The program of study introduces CTE learners to a wide variety of student groups and their corresponding needs. It familiarizes them with the processes for developing curriculum, coordinating educational content, and coaching groups and individuals.

The Education and Training Career Cluster focuses on planning, managing, and providing education and training services and related learning support services. All parts of courses are designed to introduce learners to the various careers available within the Education and Training career cluster.

Successful completion of the Teaching and Training program of study will fulfill requirements of the Public Service Endorsement. Revised - July 2020
Teaching and Training Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

**Principles of Human Services**  
(13024200 PRINHUSR)  
# 6200 9th-10th 1 credit 4.0  
**Prerequisite(s):** None  
**Course Description:** This year long comprehensive hands-on course will allow you to grow as a teen approaching adulthood. The course introduces topics within the Family and Consumer Sciences cluster including fashion, child development, interior design, money management, hospitality and foods. (Elective/CTE Credit)

**Human Growth & Development**  
(13014300 HUGRDE)  
# 6263 9th – 12th 1 credit 4.0  
**Prerequisite(s):** none  
**Course Description:** Human Growth and Development is an examination of human development across the lifespan with emphasis on research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material that is generally taught in a postsecondary, one-semester introductory course in developmental psychology or human development. (Elective/CTE credit)

**Instructional Practices**  
(13014400 INPRAC)  
# 6270 11th-12th 2 credits 5.0  
**Prerequisite(s):** Human Growth and Development recommended and any local requirements  
**Course Description:** In this two-period blocked course, students will experience field-based internships that provide background knowledge of child and adolescent development as well as principles of effective teaching and training practices, teaching strategies, learning styles, classroom environments, brain development, and behavior management. Various projects will require supplies* (Elective/CTE credit)

**Practicum in Education and Training**  
(13014500 PRACEDT2)  
# 6274 12th 2 credit 5.0  
**Prerequisite(s):** Instructional Practices and any local requirements  
**Course Description:** Students will complete an independent study of an educational research topic that applies to their 12-week internship. This advanced level course requires a research paper with formal presentation as a part of the internship experience Various projects will require supplies* (Elective/CTE Credit)
The Family and Community Services program of study introduces students to knowledge and skills related to social services, including child and human development and consumer sciences. CTE learners may learn about or practice managing social and community services or teaching family and consumer sciences. Students may follow career paths in social work or therapy for children, families, or school communities.

The Human Services Career Cluster focuses on preparing individuals for employment in career pathways that relate to families and human needs such as counseling and mental health services, family and community services, personal care services, and consumer services.

Successful completion of the Family and Community Services program of study will fulfill requirements of the Public Service Endorsement. Revised - July 2020
Family and Community Sciences Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Human Services
(13024200 PRINHUSR)
# 6200 9th-10th 1 credit 4.0
Prerequisite(s): None
Course Description: This year long comprehensive hands-on course will allow you to grow as a teen approaching adulthood. The course introduces topics within the Family and Consumer Sciences cluster including fashion, child development, interior design, money management, hospitality and foods. (Elective/CTE Credit)

Human Growth & Development
(13014300 HUGRDE)
# 6263 9th – 12th 1 credit 4.0
Prerequisite(s): none
Course Description: Human Growth and Development is an examination of human development across the lifespan with emphasis on research, theoretical perspectives, and common physical, cognitive, emotional, and social developmental milestones. The course covers material that is generally taught in a postsecondary, one-semester introductory course in developmental psychology or human development. (Elective/CTE credit)

Dollars and Sense
(13024300 DOLLARSE)
# 6223 11th-12th .5 credit 4.0
Prerequisite(s): None
Course Description: Students will use interactive lessons to seek personal needs and wants that will help maintain independent living. Students will learn about money management, personal banking, budgeting, establishing and maintaining credit, independent housing options, investigate post-secondary education choices, and much more. (Elective/CTE Credit)

Lifetime Nutrition and Wellness
(13024500 LNURTWEL)
# 6213 10th-12th .5 credit 4.0
Prerequisite(s): None
Course Description: Foods 101 is a laboratory course that teaches principles of basic nutrition and how to make good healthy food choices! This class will introduce you to the cooking for your lifetime by demonstrating and teaching a variety of preparation, cooking, and baking skills. (Elective/CTE Credit)

Career Preparation I
(12701305 CAREERP1)
# 6800 11th-12th 3 credits 4.0
Prerequisite: students must have a paid / unpaid job
Course Description: Career Preparation provides opportunities for students to participate in a learning experience that combines classroom instruction with business and industry employment experiences and supports strong partnerships among school, business, and community stakeholders. Students must have approved employment within the first 10 days of school. Students will be required to work 15 clocked hours per week. (Elective/CTE Credit)
The Law Enforcement program of study teaches CTE learners about the development of, adherence to, and protection of various branches of law. Students will learn how to appropriately and legally respond to breaches in the law according to statutory rules and regulations as well as investigate how and why the breaches occurred.

The Law and Public Service Career Cluster focuses on planning, managing, and providing legal services, public safety, and homeland security, including professional and technical support services. Students will examine the roles and responsibilities of police, courts, corrections, private security, and protective agencies of fire and emergency services.

Successful completion of the Law and Public Service program of study will fulfill requirements of the Public Service Endorsement. Revised - July 2020
Law Enforcement Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a perquisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Law, Public Safety, Corrections and Security
(13029200 PRINLPCS)
# 6700 9th-12th 1 credit 4.0
Prerequisite(s): None
Course Description: This course is designed for students who have an interest in the Criminal Justice field. This course introduces students to professions in law enforcement, security, corrections, and fire and emergency management services. The course provides students with an overview of the skills necessary for careers in law enforcement, fire service, security, and corrections. Students will also understand the historical and philosophical development of criminal law as well as analyzing the essential elements/classifications of crime. (Elective/CTE Credit)

Law Enforcement I
(13029300 LAWENF1)
# 6710 10th-12th 1 credit 4.0
Prerequisite(s): Principles of Law, Public Safety, Corrections and Security
Course Description: Students will study an overview of the history, organization, and functions of local, state, and federal law enforcement. This course includes the role of constitutional law, the United States legal system, criminal law, law enforcement terminology, and the classification and elements of crime. (Elective/CTE Credit)

Law Enforcement II
(13029400 LAWENF2)
# 6720 11th-12th 1 credit 5.0
Prerequisite(s): Law Enforcement I
Course Description: Principles of Law, Public Safety, Corrections and Security and Law Enforcement I provide the knowledge and skills necessary to prepare for a career in law enforcement. This course includes ethical and legal responsibilities, the operation of police and emergency telecommunication equipment, and courtroom testimony. The course will also cover the equivalent of the 40-hour Emergency Telecommunicator. This course is designed to introduce students to the exciting and challenging field of Emergency Telecommunications. (Elective/CTE Credit)

Forensic Science
(13029500 FORENSCI)
# 6173 11th-12th 1 credit 4.0
Prerequisite(s): Biology and Chemistry required; any Law, Public Safety, Corrections and Security course recommended
Course Description: Forensic Science is a course that introduces students to the application of science to connect a violation of law to a specific criminal, criminal act, or behavior and victim. Students will learn terminology and procedures related to the search and examination of physical evidence in criminal cases as they are performed in a typical crime laboratory. Using scientific methods, students will collect and analyze evidence such as fingerprints, bodily fluids, hairs, fibers, paint, glass, and cartridge cases. Students will also learn the history and the legal aspects as they relate to each discipline of forensic science. (Elective / CTE / Science Credit)
The Engineering program of study focuses on the design, development, and use of engines, machines, and structures. CTE learners will learn how to apply science, mathematical methods, and empirical evidence to the innovation, design, construction, operation, and maintenance of different manufacturing systems.

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Engineering program of study will fulfill requirements of the Business and Industry or STEM endorsement if the math and science requirements are met. Revised - July 2020
Engineering Program of Study Course Descriptions

Students can choose to finish the Engineering Program of Study at the Bryan CTE complex. CSISD will transport students each day for free. See your counselor if this is something you are interested in pursuing.

Introduction to Engineering Design (PLTW)
(N1303742 IED)
# 6954 9th-11th 1 credit 4.0
Prerequisite(s): co-enrolled in Algebra 1 or higher math
Course Description: Students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects. They work both individually and in teams to design solutions to a variety of problems using 3-D modeling software and use an engineering notebook to document their work. The major focus of this course is to expose students to the design process, research and analysis, teamwork, communication methods, global and human impacts, engineering standards, and technical documentation. (Elective/CTE Credit)

Civil Engineering and Architecture (PLTW)
(N1303747 CEA)
# 6960 11th-12th 1 credit 5.0
Prerequisite(s): Introduction to Engineering Design; recommended Prerequisite(s): Geometry, Algebra
Course Description: Civil Engineering and Architecture (CEA) is a high school level specialization course in the PLTW Engineering Program. In CEA students are introduced to important aspects of building and site design and development. They apply math, science, and standard engineering practices to design both residential and commercial projects and document their work using 3D architectural design software. Through both individual and collaborative team activities, projects, and problems, students will solve problems as they practice common design and development protocols such as project management and peer review. Students will develop skills in engineering calculations, technical representation and documentation of design solutions according to accepted technical standards and use of current 3D architectural design and modeling software to represent and communicate solutions.

Scientific Research & Design
(13037200 SCIRD)
# 6991, 6992 11th-12th 1 credit 4.0
Prerequisite(s)(s): Biology, Chemistry, Physics
Course Description: Scientific Research and Design is a broad-based course designed to allow districts and schools considerable flexibility to develop local curriculum to supplement any program of study or coherent sequence. The course has the components of any rigorous scientific program of study from the problem identification, investigation design, data collection, data analysis, formulation, and presentation of the conclusions. These components are integrated with the career and technical education emphasis of helping students gain entry-level employment in high-skill, high-wage jobs and/or continue their education. Students must meet the 40% laboratory and fieldwork requirement. This course satisfies a high school science graduation requirement. Students may take this course with different course content for a maximum of three credits. (CTE Elective Credit / Science Credit)

Practicum in STEM I (Bryan CTE)
# 6744 11th and 12th 2 credits 5.0
Prerequisite(s): Algebra 1 and Geometry
Course Description: Practicum in STEM I is designed to give students supervised practical application of previously studied knowledge and skills, including experience in designing, creating and/or producing new products, ideas, concepts, or processes using computer-aided, as well as manually operated mills, lathes, drills, cutters, dimensional printers and robotic equipment.

Practicum in STEM II (Bryan CTE)
# 6795 12th 2 credits 5.0
Prerequisite(s): Practicum in STEM I
Course Description: Practicum in STEM II is designed to continue to give students supervised practical application of previously studied knowledge and skills, including experience in designing, creating, and /or producing new products, ideas, concepts, or processes using computer-aided, as well as manual operated, mills, lathes, drills, cutters, dimensional printers, and robotic equipment.
Programming and Software Development

The Science, Technology, Engineering, and Mathematics (STEM) Career Cluster focuses on planning, managing, and providing, scientific research and professional and technical services, including laboratory and testing services, and research and development services.

Successful completion of the Programming and Software Development program of study will fulfill requirements of the Business and Industry and STEM endorsement if the math and science requirements are met. Revised - July 2020

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

The Programming and Software Development program of study explores the occupations and education opportunities associated with researching, designing, developing, and testing operating systems-level software, compilers, and network distribution software for medical, industrial, military, communications, aerospace, business, scientific, and general computer applications. This program of study may also include exploration into creating, modifying, and testing the codes, forms, and script that allow computer applications to run.
Programming and Software Development Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a prerequisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Fundamentals of Computer Science
(03580140 TAFCS)
# 6343  9th-12th  1 credit  4.0
Prerequisite(s): None
Course Description: Fundamentals of Computing is designed to introduce students to the field of computer science through an exploration of engaging and accessible topics. Through creativity and innovation, students will use critical thinking and problem-solving skills to implement projects that are relevant to students’ lives. They will create a variety of computing artifacts while collaborating in teams. Students will gain a fundamental understanding of the history and operation of computers, programming, and web design. Students will also be introduced to computing careers and will examine societal and ethical issues of computing. (Elective/CTE credit)

Computer Science I
(13027600 COMPPROG)
# 6350  9th-12th  1 credit  5.0
Prerequisite(s): Algebra I
Course Description: Students will gain an understanding of the principles of computer science through the study of technology operations, systems, and concepts. The six strands include creativity and innovation; communication and collaboration; research and information fluency; critical thinking; problem solving and decision making; digital citizenship; and technology operations and concepts. Computer Science I satisfies the first year foreign language credit. (Elective/CTE Credit/Foreign Language credit)

Computer Science II
(13027700 COMPPRO2)
# 6353  10th-12th  1 credit  5.0
Prerequisite(s): Computer Science I
Course Description: Computer Science II will foster students' creativity and innovation by presenting opportunities to design, implement, and present meaningful programs through a variety of media. Students will collaborate with one another, their instructor, and various electronic communities to solve the problems presented throughout the course. Through data analysis, students will identify task requirements, plan search strategies, and use computer science concepts to access, analyze, and evaluate information needed to solve problems. Computer Science II satisfies the second-year foreign language credit. (Elective/CTE credit/Foreign Language credit)

Practicum in Information Technology
(PEIMS: 13028000 PRACIT1)
# 6304  9th-12th  2 credits  5.0
Prerequisite(s): Computer Science II or Networking and any local requirements
Course Description: In the Practicum in Information Technology, students will gain advanced knowledge and skills in the application, design, production, implementation, maintenance, evaluation, and assessment of products, services, and systems. Knowledge and skills in the proper use of analytical skills and application of IT concepts and standards are essential to prepare students for success in a technology-driven society. Critical thinking, IT experience, and product development may be conducted in a classroom setting with an industry mentor, as an unpaid or paid internship, as part of a capstone project, or as career preparation. (Elective/CTE credit)
The Exercise Science and Wellness program of study introduces CTE learners to the fields that assist patients with maintaining physical, mental, and emotional health. Students will research diet and exercise needed to maintain a healthy, balanced lifestyle and learn about and practice techniques to help patients recover from injury, illness, or disease.

The Health Science Career Cluster focuses on planning, managing, and providing therapeutic services, diagnostics services, health informatics, support services, and biotechnology research and development. To pursue a career in the health science industry, students should learn to reason, think critically, make decisions, solve problems, communicate effectively, and work well with others.

Successful completion of the Exercise Science and Wellness program of study will fulfill requirements of a Public Service endorsement or STEM endorsement if the math and science requirements are met. Revised - July 2020
Exercise and Wellness Program of Study Course Descriptions

We encourage students to take each of the courses in a Program of Study. While certain courses do not have a prerequisite, please understand we will consider students who have taken or plan to take all of the courses in a Program of Study if a limited enrollment situation arises for the advance courses in this Program of Study.

Principles of Exercise Science and Wellness
(N1302107 / EXSCIWL)
# 6210 9th – 12th 1 credit 4.0
Prerequisite(s): none
Course Description: The Principles of Exercise Science and Wellness course is designed to provide for the development of knowledge and skills in fields that assist patients with maintaining physical, mental, and emotional health. Students in this course will understand diet and exercise, as well as techniques to help patients recover from injury, illness, and disease. They will also learn about introductory health science topics such as employability skills, lifespan development, and ethical and legal standards. (Elective/CTE credit)

Kinesiology I
(N1302104 / KINES1)
# 6214 9th – 12th 1 credit 4.0
Prerequisite(s): none
Course Description: This course is designed to introduce students to the basic concepts of kinesiology. Students will gain an understanding of body mechanics, physiological functions of muscles and movements, the history of kinesiology, and the psychological impact of sports and athletic performance. Students will also explore careers within the kinesiology field and be able to explain the societal demand for kinesiology-related jobs. (Elective/CTE credit)

Human Anatomy & Physiology
(13020600 ANATPHYS)
# 3810 11th-12th 1 credit 4.0
Prerequisite(s): Biology and a second science credit
Course Description: Comprehensive study of anatomy and physiology of the human body. An overview of histology, general anatomical terminology, and detailed investigation of all body systems. Major mammalian dissection included. (Elective/CTE/Science credit)

Anatomy & Physiology Advanced
(13020600 ANATPHYS)
# 3820 11th-12th 1 credit 5.0
Prerequisite(s): Biology Advanced and Chemistry Advanced
Course Description: Comprehensive study of Anatomy and Physiology with emphasis on histology, terminology, and investigative applications. Major mammalian dissection and numerous disorders/diseases reviewed. (Elective/CTE credit)
Additional CTE Courses

Career Preparation I
(12701305 CAREERP1)
# 6800 11th-12th 3 credits 4.0
Prerequisite: approved paid/unpaid employment
Course Description: Career Preparation provides opportunities for students to participate in a learning experience that combines classroom instruction with business and industry employment experiences and supports strong partnerships among school, business, and community stakeholders. Students must have approved employment within the first 10 days of school. Students will be required to work 15 clocked hours per week. (Elective/CTE Credit)

Career Preparation II
(12701405 CAREERP2)
#6890 12th 3 credits 4.0
Prerequisite(s): Career Prep 1, approved employment
Course Description: Students will earn credits while in the classroom and on the job. In class students will continue investigating post-secondary education choices and combine paid employment with instruction to enhance leadership skills, management, communication, employability skills, and much more to prepare them for the world of work. Along with the class instruction, the instructor and the student’s employer/supervisor will work together to help the students learn the process needed to advance in the workplace. Students will be required to work 15 clocked hours per week, totaling 270 hours per semester, 540 per academic school year. Students must obtain approved employment within the first 10 days of school and are responsible for providing their own transportation to and from work. (Elective/CTE credit)

Project Based Research
(12701500 PROBS1)
# 6591, 6592 11th-12th 1 credit 4.0/5.0
# 6593, 6594 12th 1 credit 4.0/5.0
Prerequisite(s): Student must gain instructor, counselor, and mentor approval for projects.
Course Description: Students will develop a comprehensive project and work with an instructor and a mentor from the business/industry/post-secondary community, who will help guide them and assess their progress. At the completion of the project, the student will make a presentation to a panel of experts in the field being addressed. Students must go through the instructor and cannot request this course on their course request form. This course will be placed in the student’s schedule (pending approval) in early August after schedules have been created. Advanced credit may be considered depending on project. Students are responsible for any fees associated with their course. (Elective/CTE Credit)

Scientific Research and Design
(13037200 SCIRD)
# 6991, 6992 11th-12th 1 credit 4.0/5.0
Prerequisite(s): Biology, Chemistry, Physics
Course Description: Scientific Research and Design is a broad-based course designed to allow districts and schools considerable flexibility to develop local curriculum to supplement any program of study or coherent sequence. The course has the components of any rigorous scientific or engineering program of study from the problem identification, investigation design, data collection, data analysis, formulation, and presentation of the conclusions. These components are integrated with the career and technical education emphasis of helping students gain entry-level employment in high-skill, high-wage jobs and/or continue their education. Students must meet the 40% laboratory and fieldwork requirement. This course satisfies a high school science graduation requirement. Students may take this course with different course content for a maximum of three credits. (Elective Credit / Science Credit)

Biotechnology I
(13036400 BIOTECH1)
# 3830 11th-12th 1 credit 5.0
Prerequisite(s): Biology, Chemistry recommended or co-enrolled
Course Description: An introduction to biotechnology including career exploration, history and applications of DNA/RNA technology, molecular biology, bioethics, laboratory operations, management, equipment, instrumentation, quality control techniques, and laboratory safety practices. Laboratory practice includes using pH meters, mixing buffers, DNA isolation and extraction, performing measurements, preparing solutions, and performing separatory techniques to specifications. *Technical Dual Credit at CSHS (p.9) (CTE Elective Credit / Science Credit)
**Touch System Data Entry**  
(1301100 TSDATAE)  
# 6503 9th-12th .5 credit 4.0  
*Prerequisite(s):* None  
**Course Description:** Students will use interactive lessons to improve both speed and accuracy on the keyboard. Students will also learn word processing skills that will help with projects and various skills needed for employment in the world of work. (Elective/CTE Credit)

**Fashion Design**  
(13009000 FASHDSN)  
# 6230 10th-12th 1 credit 4.0  
*Prerequisite(s):* Principles of Human Services recommended  
**Course Description:** Fashion design is a yearlong laboratory class that will allow you to develop knowledge of the industry and apply this knowledge while learning and developing apparel design and strong construction skills. Students must provide drawing supplies as well as pattern/material for construction projects. (Elective/CTE Credit)

**Architectural Design (CSHS only)**  
(13004000 ARCHDSN)  
# 6780 10th-12th 1 credit 4.0  
*Prerequisite(s):* Algebra 1 and English 1  
**Course Description:** This course is designed to provide students with the knowledge and skills needed to enter a career in architecture and construction or prepare a foundation towards a secondary degree in architecture, construction science, drafting, interior design, and landscaping. It includes the basics of design, design history, techniques and tools related to the production of drawings, renderings, and model construction for architectural purposes. (Elective/CTE Credit)

**Commercial Photography**  
(13009100 CPHOTO)  
# 6474 9th-12th 1 credit 4.0  
*Prerequisite(s):* None  
**Course Description:** Say cheese! In the age of smartphones, Snapchat, and Instagram, most of us have a rudimentary understanding of photography. But what if you want to take your skills to the next level? Welcome to Commercial Photography. Here you will learn the principles of photography and how to manually operate DSLR cameras with professional dexterity. From portraits to landscapes, light painting to astrophotography, Commercial Photography will turn your hobby into a career-ready skillset. (Elective/CTE Credit)

**Sports & Entertainment Marketing**  
(13034600 SPORTSEM)  
# 6623 9th-12th .5 credit 4.0  
*Prerequisite(s):* Principles of Business, Marketing and Finance recommended  
**Course Description:** Football games, concerts, Monster Truck events—what does it take to plan for and promote these and other events? What goes into sponsorships, proposals, and contracts? Find the answers to these questions and more in this exciting class and get an idea of what it takes to make it happen! (Elective/CTE Credit)

**Sports & Entertainment Marketing II**  
(N13034000 SPORTEM2)  
# 6624 10th-12th .5 credit 4.0  
*Prerequisite(s):* Sports and Entertainment Marketing recommended  
**Course Description:** Sports and Entertainment Marketing II is an advanced course designed to build upon students’ prior knowledge of sports and entertainment marketing. Students will develop a thorough understanding of advanced marketing concepts and theories as they relate to the sports and entertainment industries. Students will investigate the components of branding, sponsorships and endorsements, as well as promotion plans needed for sports and entertainment events. The course also supports career development skills and explores career options. Academic skills (mathematics, science, English, and history/social science) related to the content are a part of this course. (Elective/CTE Credit)

**Entrepreneurship**  
(13034400 ENTREP)  
# 6600 10th-12th 1 credit 5.0  
*Prerequisite(s):* Principles of Business, Marketing and Finance recommended  
**Course Description:** Have you ever wondered what it would be like to own your own business? This class will help you understand what it takes to analyze a business opportunity, prepare a business plan, research your idea, and develop a plan to organize and promote the business and its products/services. (Elective/CTE Credit)
Project Based Research – Business Management (School Store)
(12701500 PROBS1)
# 6591, 6592 11th -12th 1 credit 4.0/5.0
**Prerequisite(s):** Student must gain instructor, counselor, and mentor approval for projects.
**Course Description:** Students will develop a comprehensive project and work with an instructor and a mentor from the business/industry/post-secondary community, who will help guide them and assess their progress. At the completion of the project, the student will make a presentation to a panel of experts in the field being addressed. Students must go through the instructor and cannot request this course on their course request form. This course will be placed in the student’s schedule (pending approval) in early August after schedules have been created. Advanced credit may be considered depending on project. (Elective/CTE Credit)

Cyber Citizenship
(N1260001 CYBERC)
# 6383 9th – 12th .5 credits 4.0
**Prerequisite(s):** none
**Course Description:** This course will educate students regarding evolving platforms of social media and familiarize them with their use. It will highlight the controversial issues associated with social media, including the laws regarding social media, inappropriate usage, and online harassment. Overall, this course will educate students in maintaining a responsible online digital footprint. Activities in this course include the analysis and application of various forms of social media platforms, a study of laws concerning online aggression and safety, and the use of learned technology that will further engage students in academics. (Elective/CTE credit)

Professional Communications
(13009900 PROFCOMM)
#1815 9th, 12th .5 credits 4.0
Professional Communications blends written, oral, and graphic communication in a career-based environment. Careers in the global economy require individuals to be creative and have a strong background in computer and technology applications, a strong and solid academic foundation, and a proficiency in professional oral and written communication. Within this context, students will be expected to develop and expand the ability to write, read, edit, speak, listen, apply software applications, manipulate computer graphics, and conduct Internet research. (Elective/CTE Credit)
### Automotive Program

#### High School/Industry Certification
- **Automotive Service Excellence (ASE) Entry Level**
  - Master Collision Repair and Refinishing Technician
  - Automotive Body/Collision and Repair/Technology/Technician
- **Automotive Service Excellence (ASE) Professional Level**
  - Automotive Technician: Vehicle Systems and Parts
  - Medium/Heavy Vehicle Technician
  - Mechanical Engineering/Technology/Technician
  - Mechanical Engineering/Repairing/Technician

#### Bachelor's Degree
- **Mechanical Engineering**

#### Master's/Doctoral Professional Degree
- **Mechanical Engineering**

#### Level 1
- Any CTE course – student choice

#### Level 2
- Automotive Technology I (Bryan CTE)

#### Level 3
- Automotive Technology II/Lab (Bryan CTE)

#### Level 4

### Work Based Learning and Expanded Learning Opportunities

**Exploration Activities:**
- SkillsUSA competition
- Automotive Service Association

**Work Based Learning Activities:**
- Work at a local automotive repair or body shop.

---

The Automotive program of study teaches CTE learners how to repair and refinish automobiles and service various types of vehicles. CTE learners may learn to collect payment for services or supplies and perform typical vehicle maintenance procedures such as lubrication, oil changes, installation of antifreeze, or replacement of accessories like wiper blades or tires.

The Transportation, Distribution, and Logistics Career Cluster focuses on careers in planning, management, and movement of people, materials, and goods by road, pipeline, air, rail, and water. It also includes related professional support services such as transportation infrastructure planning and management, logistics services, mobile equipment and facility maintenance.

Successful completion of the Automotive program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
Automotive Program of Study Course Descriptions

Students from CSISD will be able to attend the Bryan CTE campus and participate in Automotive program. Please see your counselor for the application and to discuss making room in your schedule for these courses. Students can take any additional CTE course to complete this program of study.

Automotive Technology I
(13036900)
#6735 11th 2 credits 4.0
Prerequisite(s): any CTE course
Course Description: Maintenance and Light Repair includes knowledge of the major automotive systems and the principles of diagnosing and servicing these systems. This course includes applicable safety and environmental rules and regulations. In Automotive Technology I: Maintenance and Light Repair, students will gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability. (Elective/CTE credit)

Automotive Technology II
(13039700)
# 6747 12th 2 credits 5.0
Prerequisite(s): Automotive Technology I
Course Description: Automotive Service includes applicable safety and environmental rules and regulations. In this course, students will gain knowledge and skills in the repair, maintenance, and diagnosis of vehicle systems. This study will allow students to reinforce, apply, and transfer academic knowledge and skills to a variety of interesting and relevant activities, problems, and settings. The focus of this course is to teach safety, tool identification, proper tool use, and employability. (Elective/CTE credit)

Additional industry-based certification information is available on the TEA CTE website. For more information on postsecondary options for this program of study, visit TXCTE.org.

The Welding program of study focuses on the development and use of automatic and computer-controlled machines, tools, and robots that perform work on metal or plastic. CTE learners will learn how to modify parts to make or repair machine tools or maintain individual machines, and how to use hand-welding or flame-cutting equipment.

The Manufacturing Career Cluster focuses on planning, managing, and performing the processing of materials into intermediate or final products and related professional and technical support activities such as production planning and control, maintenance, and manufacturing/ process engineering.

Successful completion of the Manufacturing Technology program of study will fulfill requirements of the Business and Industry Endorsement. Revised - July 2020
**Welding Program of Study Course Descriptions**
Students from CSISD will be able to attend the Bryan CTE campus and participate in Automotive program. Please see your counselor for the application and to discuss making room in your schedule for these courses. Students can take any CTE course to complete this program of study. Ag Mechanics is recommended for students who attend AMCHS.

**Welding I**  
(13032300)  
# 6973  
11th grade  
2 credits 5.0  
**Prerequisite(s):** any CTE course  
**Course Description:** Students will develop knowledge and skills related to this system and apply them to personal career development. This course supports integration of academic and technical knowledge and skills. Students will reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. Knowledge about career opportunities, requirements, and expectations and the development of workplace skills prepare students for future success. (Elective/CTE credit)

**Welding II**  
(13032400)  
# 6976  
12th grade  
2 credits 5.0  
**Prerequisite(s):** Welding I  
**Course Description:** Welding II builds on the knowledge and skills developed in Welding I. Students will develop advanced welding concepts and skills as related to personal and career development. Students will integrate academic and technical knowledge and skills. Students will have opportunities to reinforce, apply, and transfer knowledge and skills to a variety of settings and problems. (Elective/CTE credit)
Elective Courses

Leadworthy Teen Leadership
(N1290012 TEENLDR)

\[
\begin{align*}
\text{# 1033} & \quad 9^{\text{th}}, 12^{\text{th}} & .5 \text{ credit} & 4.0 \\
\text{Prerequisite(s): None} \\
\text{Course Description:} & \text{ Teen Leadership is a leadership development and character education elective. The course develops critical, life-changing skills for students including taking personal responsibility, expressing themselves well, and making good decisions when problems arise. The practical skills taught in the course will apply both formal and informal leadership opportunities in school and beyond. Students will enhance their public speaking and communication skills through speeches and small and large group activities and will develop interpersonal skills and emotional intelligence through activities with other participants. (Elective or Speech Credit)} 
\end{align*}
\]

Partner PE: Peer Assistance for Students with Disabilities
(N1290203 PASWD1, N1290204 PASWD2)

\[
\begin{align*}
\text{# 0100P} & \quad 10^{\text{th}} - 12^{\text{th}} & .5 \text{ credit} & 4.0 \\
\text{# 0104P} & \quad 12^{\text{th}} & .5 \text{ credit} & 4.0 \\
\text{Prerequisite(s):} & \text{ application and interview process} \\
\text{Course Description:} & \text{ Partner PE is a success oriented physical education program featuring supervised peer tutors and individualized learning and instruction for students with disabilities. The class is designed to meet the unique physical education needs of students with disabilities who cannot meet the requirements of regular physical education because of physical, social emotional, or behavioral limitations. Students who enroll in Partner PE will have the opportunity to partner with students with disabilities, develop leadership skills, and learn more about possible careers involving individuals with disabilities. (Elective Credit)} 
\end{align*}
\]

Partner Art: Peer Assistance for Students with Disabilities (CSHS Only)
(N1290203 PASWD1, N1290204 PASWD2)

\[
\begin{align*}
\text{# 0100A} & \quad 11^{\text{th}} - 12^{\text{th}} & .5 \text{ credit} & 4.0 \\
\text{# 0104A} & \quad 12^{\text{th}} & .5 \text{ credit} & 4.0 \\
\text{Prerequisite(s):} & \text{ application and interview process} \\
\text{Course Description:} & \text{ Partner Art is a success-oriented art education program featuring supervised peer tutors and individualized learning and instruction for students with disabilities. The class is designed to meet the unique education needs of students with disabilities exploring two-dimensional and three-dimensional media through arts and crafts projects with support from their peer. Students who enroll in Partner Art will have the opportunity to partner with students with disabilities, develop leadership skills, and learn more about possible careers involving individuals with disabilities. (Elective Credit)} 
\end{align*}
\]

Developing Strategies for College/Career Prep
(N1290051 PATHCC1)

\[
\begin{align*}
\text{# 9867H} & \quad 9^{\text{th}}, 12^{\text{th}} & 1 \text{ credit} & 5.0 \\
\text{Prerequisite(s):} & \text{ successful completion of advanced coursework, application} \\
\text{Course Description:} & \text{ This course would advance intellectual curiosity, conscientiousness, dependability, emotional stability, and perseverance through tasks that foster deeper levels of thinking and reasoning in the four core content areas. The course focuses on developing the habits and skills that are expected in college study and the work force. The students will develop their personal/interpersonal and cognitive skill that are essential to productivity in both the collegiate and business worlds. Modeling teamwork, communication and organizational skills, and research-based strategies will be expected. (Elective Credit)} 
\end{align*}
\]

Advancement Via Individual Determination (AVID)

AVID is an elective course that prepares students for college readiness and success and is scheduled during the regular school day as a year-long course. Students must apply for entry into the elective. The process includes, but is not limited to, a written application and an oral interview. Grades, STAAR EOC scores, attendance, and behavior records are all reviewed as part of the process. Each week, students receive instruction utilizing a rigorous college preparatory curriculum provided by AVID Center, tutor-facilitated study groups, motivational activities, and academic success skills. Students participate in activities that incorporate strategies focused on writing, inquiry, collaboration, organization, and reading to support their academic growth. AVID has standards and has been approved as an innovative course with TEKS. The standards increase as the year of AVID increases.

AVID 9th Grade
(N1290001 AVID1)

\[
\begin{align*}
\text{# 0110} & \quad 9^{\text{th}} & 1 \text{ credit} & 4.0 \\
\text{Prerequisite(s): Placement in AVID program and an agreement to enroll in rigorous courses} \\
\text{Course Description:} & \text{ The 9th grade AVID course introduces the AVID philosophy and strategies. Students will work on academic and personal goals, communication, and adjusting to the high school setting. Students will increase awareness of their personal contributions to their learning, as well as their involvement in their school and community. There is an emphasis on analytical writing, focusing on personal goals, and thesis writing. Students will work in collaborative settings, learning how to participate in collegial discussions, and use sources to support their ideas and opinions. Students will prepare for college entrance and placement exams, while refining study skills, test-taking, note-taking, and research techniques. They will take an active role in field trip and guest}
\end{align*}
\]
speaker preparations and presentations. Their college research will include financial topics and build their knowledge of colleges and careers of interest. (Elective Credit)

**AVID 10th Grade**  
(N1290002 AVID2)  
# 0120 10th 1 credit 4.0  
**Prerequisite(s):** Placement in AVID program and an agreement to enroll in rigorous courses  
**Course Description:** Students will refine the AVID strategies to meet their independent needs and learning styles. Students will continue to refine and adjust their academic learning plans and goals, increasing their awareness of the impact of their actions and behaviors. As students increase their rigorous course load and school/community involvement, they will refine their time management and study skills accordingly. Students will expand their writing portfolio to include analyzing prompts, supporting arguments and claims, character analysis, and detailed reflections. Students will also analyze various documents in order to participate in collaborative discussions and develop leadership skills in those settings. Students will expand their vocabulary use, continuing to prepare for college entrance exams. Text analysis will focus on specific strategies to understand complex texts. Lastly, students will narrow down their colleges and careers of interest, based on personal interests and goals. (Elective Credit)

**AVID 11th Grade**  
(N1290030 AVID3)  
# 0130 11th 1 credit 4.0  
**Prerequisite(s):** Placement in AVID program and an agreement to enroll in rigorous courses  
**Course Description:** This course is the first part in a junior/senior seminar course that focuses on writing and critical thinking expected of first- and second-year college students. In addition to the academic focus of the AVID seminar, there are college-bound activities, methodologies, and tasks that are undertaken during the junior year to support students as they apply to four-year universities and confirm their postsecondary plans. Advanced credit is available for juniors who have successfully completed AVID 9 (AVID1) and AVID 10 (AVID2) for completion of extra work, including but not exclusive to greater community involvement each semester, increased preparation for College Entrance Exams (SAT/ACT/TSI) and going beyond the AVID class period when planning and implementing the Service-Learning Project, requiring outside class participation, as contracted with the AVID Campus Coordinator and AVID District Director. (Elective Credit)

**AVID 12th Grade**  
(N1290033 AVID4)  
# 0140 12th 1 credit 4.0  
**Prerequisite(s):** AVID III and agreement to enroll in rigorous courses  
**Course Description:** This AVID course is the second part in a junior/senior seminar course that focuses on writing and critical thinking expected of first and second-year college students. In addition to the academic focus of the AVID senior seminar, there are college-bound activities, methodologies, and tasks that should be achieved during the senior year that support students as they apply to four-year universities and confirm their postsecondary plans. All AVID seniors are required to develop and present a portfolio representing their years of work in AVID, as well as complete the requirements for the seminar course. Advanced credit is available for seniors who have successfully completed AVID 10 (AVID2) and AVID 11 (AVID3) for completion of extra work, including but not exclusive to greater community involvement each semester, increased number of 4-year College applications and scholarship applications, increased preparation for College Entrance Exams (SAT/ACT/TSI) and going beyond the AVID class period when planning and implementing the Service Learning Project, requiring outside class participation, as contracted with the AVID Campus Coordinator and AVID District Director. (Elective Credit)

**No Credit Courses**  
Seniors may have up to two no credit classes per semester. All other students may only have one per semester. Only seniors may have “off periods.”

**No Class (Seniors Only – No Credit)**  
**Prerequisite(s):** Seniors Only  
**Course Description:** Only for seniors who wish to be off campus two periods. Periods must be at the beginning or end of each day. A student may not have a 1st period class with 2nd period no class, nor can they have a 6th period no class with an assigned 7th period class.

Study Hall

#9301 Fall 9th-12th no credit
# 9302 Spring 9th-12th no credit

**Prerequisite(s):** Counselor approval

**Course Description:** Study hall gives the student an opportunity to get homework done during the school day. This is a no credit, supervised classroom setting open to anyone.

**Blinn/Texas A&M University**

# 9310 - 9370 11th-12th no high school credit

**Prerequisite(s):** Must have an 80 average - or 3.0 GPA, counselor approval, parental consent, and pass TSI.

**Course Description:** Students may use one or two high school periods for one college course or two or three high school periods for two college courses. Students must see their counselor for letter of recommendation to Blinn or TAMU. Must present Blinn/TAMU confirmation letter to counseling office showing schedule and payment. (College Credit)

Fee: Tuition and fees vary, paid to university.

**Student Aide** – student aides assist in the various offices. This is not a study hall. Students should be trustworthy and must be up to date on their credits.

**Special Education Courses**

The following is a list of the courses with modified Texas Essential Knowledge and Skills which are taught by special education teachers. All special education courses are taken for credit, as are general education courses. **SPECIAL NOTE:** Students determined eligible for specialized instructional services by an Admission, Review and Dismissal/Individual Education Plan Committee (ARD/IEP) may be served through classes identified in the Course Catalog as “Special Education”. Students taking a special education course, or general education course with modified curriculum, will graduate under the Foundation Plan rather than the Foundation Plan with Endorsement, when the credit(s) is/are applied toward a course required for graduation. For further information, please contact the Special Education Department or your student’s counselor.

**Career Investigations**

(N1270153 GEMPLS)

# 0207 9th,10th 1 credit 4.0

**Prerequisite(s):** Qualified Special Education Student; ARD/IEP

**Course Description:** This course introduces the world of work in order to facilitate successful transition planning. Topics focus on combining self-knowledge with career choices through interest inventories and career research. Students are also introduced to job skills, training skills, and social skills needed for employability and independent living. This course could include experience with a school-based enterprise, experience in a work center, and field trips for career exploration. (Elective Credit)

**Career Preparation Block**

(12701300 CAREERP2)

# 0217 11th-12th 2 credits 4.0

**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation

**Course Description:** This course is designed to prepare students for competitive employment and independent living. Topics include productive work habits and attitudes, the process of career planning and employment, the application and interview process, and the effects of change in the workplace. The educational setting for this course is the classroom, the campus community, and/or training sites in the community. (Elective Credit)

**Career Employment Block**

(12701400 CAREERP2)

# 0227 12th 2 credits 4.0

**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation

**Course Description:** This course is designed to assist students in making a smooth transition from academic pursuits to employment. Students will take previously learned skills from the classroom and apply them by maintaining paid employment while under the supervision of school staff. The level of supervision is to be determined by the ARD committee as are the minimum number of hours of employment to be successful in the program. (Elective Credit)
Reading Improvement, I, II, III
(03270700 READ1; 03270800 READ2; 03270900 READ3)

# 1070 I 9th, 10th 1 credit 4.0
# 1074 II 9th, 10th 1 credit 4.0
# 1077 III 9th, 12th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A supportive reading course modified to complement the learning requirements of students whose difficulty in reading significantly impacts their acquisition of knowledge and skills. Students practice using speaking, listening, reading, and writing strategies in an integrated reading classroom. This course includes an emphasis on relevant and meaningful applications for reading in today’s society, along with learning techniques and test-taking strategies. (Elective Credit)

Fundamentals of English 1
(03220100 ENG1)

# 1107 9th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A modified curriculum that emphasizes skill development in reading, writing, literature, research skills, language, grammar, critical thinking, and cooperative learning and intense focus and preparation for the STAAR EOC English I exam, specifically the expository essay. Major writing forms include exposition, persuasion, comparison/contrast, and narrative. In literature, the major genres covered include fiction (short stories and novels), nonfiction, poetry, and drama. (English Credit)

Fundamentals of English II
(03220200 ENG2)

# 1207 10th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A modified curriculum with emphasis on the skills of reading, writing, language usage, grammar, research, and intense focus and preparation for the STAAR EOC English II exam, specifically the persuasive essay. Reading selections will include novels, plays, short stories, poetry, and nonfiction passages from world literature. (English Credit)

Fundamentals of English III
(03220300 ENG3)

# 1307 11th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A modified curriculum including a chronological survey of religious, philosophical and literary movements in American literature from the 17th to the 20th century. A variety of poetry, essays, and short stories will be read. Skills are developed in reading and literary analysis, writing for various purposes, speaking, listening, critical thinking, research techniques, and preparation for standardized tests. (English Credit)

Fundamentals of English IV
(03220400 ENG 4)

# 1407 12th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A modified curriculum including a chronological survey of religions, philosophical, and literary movements in British literature from the Anglo-Saxons to the 20th century. Exposure to major authors, works, and themes, focusing on literary analysis and poetry from all major periods of British literature. Emphasis on reading, writing, language usage, literary devices, and research skills. Preparation for the world beyond high school is a constant motif. (English Credit)

Fundamentals of Algebra I
(03133500 ALG 1)

# 2117 9th, 10th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A modified curriculum that introduces the operations and properties of real numbers, variables, equations, linear functions and systems, inequalities, polynomials, factoring, and irrational and rational numbers. The use of graphing calculators is incorporated throughout to support the curriculum. Students will prepare for the STAAR Algebra 1 EOC Exam. (Math Credit)

Fundamentals of Geometry
(03100700 GEOM)

# 2127 10th, 11th 1 credit 4.0

Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: A modified curriculum that includes the introduction and basics of plane, solid, and coordinate geometry. The class stresses geometric knowledge of physical space, deductive and inductive reason, and the integration of geometry and algebra. (Math Credit)
Fundamentals of Algebraic Reasoning  
(03102540 ALGREA)  
# 2137  11th-12th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified curriculum where students will broaden their knowledge of multiple representations of linear, quadratic, square root, rational, exponential, and absolute value functions. Students will study these functions through explorations of patterns and structure, composition of functions, number and algebraic methods, and modeling from data. (Math Credit)

Fundamentals of IPC  
(03060201 IPC)  
# 3117  9th-10th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified curriculum which includes laboratory study and the metric system, measurement, nature of matter, physical and chemical changes, motion and machines, electricity and magnetism, wave motion, light and sound. (Science Credit)

Fundamentals of Biology  
(03010200 BIO)  
# 3217  9th-10th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified study of cell function, systematic approach to organisms, principles of heredity, taxonomy, ecological principles and an introduction to botany. Biological principles are reinforced by strong lab experience. Student will prepare for the STAAR Biology EOC Exam. (Science Credit)

Fundamentals of Chemistry  
(03040005 CHEM)  
# 3417  11th-12th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified curriculum which includes laboratory study that emphasizes theoretical foundations of chemistry and development of skills in manipulation, acquisition, classification and communication of data. (Science Credit)

Fundamentals of World History  
(03340400 W HIST)  
# 4007  9th-10th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified study of history and the development of a variety of world cultures past and present. Provides a basis for comparison of various ways of life and cultural patterns and an understanding of the way these patterns occurred over time. (Social Studies Credit)

Fundamentals of World Geography  
(03320100 W GEO)  
# 4107  10th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified exploration of our world through investigation of physical and human geography. Students use geographic concepts to study specific nations and regions with an emphasis on understanding interactions between humans and their environment. (Social Studies Credit)

Fundamentals of U. S. History  
(03340100 US HIST)  
# 4217  10th-12th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified study of significant people, issues, and events through an investigation of authentic documents, art, and music. Course will briefly review Revolutionary and Civil War eras but will focus on Reconstruction to the present. Student will prepare for the STAAR US History EOC Exam. (Social Studies Credit)

Fundamentals of U. S. Government  
(03330100 GOVT)  
# 4318  11th-12th  .5 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified look at political heritage, comparative political systems, the Constitution, civil liberties and civil rights, the three branches of government, Texas and local government, law and criminal procedures, political parties, campaigns, and the responsibilities of citizenship. (Social Studies Credit)
Fundamentals of Economics  
(03310300 ECO-FE)  
# 4339  11th-12th  .5 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** A modified program to promote a general understanding of U.S. Economic activities; the basic differences between capitalism, socialism, and communism; the influence of U.S. ideals of democratic government, laws, customs, and institutions on free enterprise and familiarization with basic economic terms. (Social Studies Credit)  

Pathways to Success  
(N1290051 PATHCC1; N1290052 PATHCC2; N1290053 PATHCC3; N1290054 PATHCC4)  
9th-12th  1 credit  4.0  
# 9867  Pathways to Success I  
# 9877  Pathways to Success II  
# 9887  Pathways to Success III  
# 9897  Pathways to Success IV  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation as an elective  
**Course Description:** Designed to assist students with strategies that will, when applied consistently, aid the students’ successes in the classroom. Organizational skills are emphasized as students develop practical approaches to studying, completing assignments, addressing homework, and facilitating increased responsibility for classroom activities. Study habits are monitored, and social skills are taught. (Elective Credit)  

Applied English I, II, III, IV  
(03220107 ENG1; 03220207 ENG2; 03220307 ENG3; 03220407 ENG4)  
# 1107L, 1207L, 1307L, 1407L  9th-12th  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** Applied English will assist students in developing skills in the areas of expressive, receptive, written, and/or symbolic representations of language. Students will integrate language in order to understand oral, written, and/or symbolic communication. Oral, written, and/or symbolic language will be used to express ideas, demands, and needs, and to make inquiries. Communications will explore job-related language use related employment services, interview skills, interpersonal skills, job search, and the application process. (English Credit)  

Applied Math Courses  
(03100507 ALG1; 03100707 GEOM; 03102540 ALGREA)  
# 2117L  Appl Algebra I  1 credit  4.0  
# 2127L  Appl Geometry  1 credit  4.0  
# 2137L  Appl Alg Reas  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** Designed to reinforce math operations using a variety of practical, real life situations that facilitate the understanding of using mathematics in daily living exercises. Emphasis is on basic operations using money, measurement, and time in common home, family, and work-related environments. (Math Credit)  

Applied Science Courses  
(V3060201 IPC; 03010207 BIO; 03040000 CHEM)  
# 3117L  Appl IPC  1 credit  4.0  
# 3217L  Appl Biology  1 credit  4.0  
# 3404L  Appl Chem Comm  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation  
**Course Description:** Science-based concepts related specifically to independent daily living and employment. Attention is given to relating science to home and job practices that foster the understanding of students’ roles and responsibilities in the care and operation of both facilities. Activities are “hands-on” experiences with an emphasis on cooperative learning strategies. (Science Credit)  

Applied Social Studies  
(03340407 WHIST; 03320107 WGEOG; 03340107 USHIST; V3330100 GOVT; V3310300 ECON)  
# 4107L  Appl W. Hist  1 credit  4.0  
# 4127L  Appl W. Geog  1 credit  4.0  
# 4217L  Appl US Hist  1 credit  4.0  
# 4318L  Appl US Govt  1 credit  4.0  
# 4339L  Appl Econ  1 credit  4.0  
**Prerequisite(s):** Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: Defines the rights, privileges, and responsibilities of students within their school, community, and employment settings. Concepts include voting, laws, consequences of unlawful behavior, honesty, integrity, community volunteerism, and rules for specific situations, including employment. Students will become familiar with the basic concepts of personal responsibility as related to employability and/or being a productive, contributing member of a business, community and/or organization. (Social Studies Credit)

Life Skills – Activities of Daily Life
# 9870, 9880, 9890, 9917, 9957, 9987, 9977 (both schools), 9984 (AMCHS only)
Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: Developed to integrate the domestic, recreation, leisure, and school community domains. Students investigate, through activity-based sessions, a variety of activities associated with the daily living experience. Students will study areas of cooking, safety, leisure, responsibilities, budget, time management, first aid, and communication. Personal safety and responsibility will be examined in terms of taking care of one’s self, others, and/or pets. Health care, transportation, telephone skills, and appropriate recreation activities are addressed. Students will experience strategies to respond to potential emergencies that may appear in the process of daily living. (Elective Credit)

Vocational Work
# 0017, 0027, 0037, 0047, 0057, 0067, 0077 (both schools), 0087 (AMCHS Only)
Prerequisite(s): Qualified Special Education Student; ARD/IEP Committee Recommendation
Course Description: Students may only enroll in these courses if they are concurrently enrolled in Career Prep Block and Career Experience Block. (Elective Credit)
Course Selection Helpful Hints

**Summer Assignments:** Advanced and AP courses often require summer reading assignments. Make sure you find out what those are. They are typically located on the high school website front pages.

**GPA:** Advanced and AP courses carry a higher weight for GPA calculations. If you make a 70 or above each semester, your GPA is calculated with an extra 10 points. Example:

<table>
<thead>
<tr>
<th>Course</th>
<th>Grade</th>
<th>On Level (4.0 scale)</th>
<th>Advanced and AP (5.0 scale)</th>
</tr>
</thead>
<tbody>
<tr>
<td>English I</td>
<td>84</td>
<td>2.4</td>
<td>3.4</td>
</tr>
<tr>
<td>Algebra II</td>
<td>92</td>
<td>3.2</td>
<td>4.2</td>
</tr>
<tr>
<td>Biology</td>
<td>74</td>
<td>1.4</td>
<td>1.4</td>
</tr>
<tr>
<td>Geography</td>
<td>63</td>
<td>0.0</td>
<td>0.0</td>
</tr>
</tbody>
</table>

**Endorsements:** Pay attention to courses in a sequence if you are planning to use them for an endorsement. Make sure you have room (especially Career and Technical Education courses that are block classes and require 2 free periods).

**Waivers and Recommendations:** Current teachers will recommend the level of course you take. If you want to take a course that your teacher does not recommend, then the waiver process can be discussed with your counselor. Requests for course waivers must be received in the counseling office by June 11, 2021.

**Dropping Courses:** Be aware of classes that do not have a lower level (i.e. Spanish 3, Pre-Cal, Statistics, AP Biology, etc.). You will not be able to get out of these classes if you are in 9th-11th grades with a no-credit class or in 12th grade with 2 no-credit classes (study hall, no class, aide, etc.).

**Signatures:** For High School athletics, students need current coach’s signatures. After tryouts for athletic teams, coaches will notify HS counseling office if a change needs to occur. Changes will be made only through the coaches. Foreign Language courses, you need your Foreign Language teacher’s signature for 2nd, 3rd, or 4th year.

**Fine Arts/Cheerleading:** Students involved in band, orchestra, and choir will sign up for those courses on the registration form. Directors will place students in specific levels after tryouts in April. Schedules will be changed to reflect these decisions. Students who request Cheerleading or Drill Team will need to indicate which alternate course will replace it if they do not make the team.

**Alternates:** Students must list alternates for each of their electives. If the elective is a single semester course, then there must be an alternate which is also a single semester course. If the elective is a yearlong course, then there must be either a yearlong alternate or two (2) semester courses for alternates. Adjustments could be made to your course requests due to class sizes, master schedule conflicts, and requirement changes. It’s important to choose alternates wisely.
