FOREWORDS

It is with great pleasure and pride that this book is introduced to the public. In editing a book of this kind, there is required work which, in most cases, is blind work. It is the intention of the staff of the 1906 Senior Annual to place in the hands of our readers and patrons a book that will appeal not only to their happy nature but also one that might be kept for reference and be a monument worthy of the greatest and largest class of the St. Joseph High School, the illustrious class of 1906. In every class book, there are always a number of errors. This year we have labored to minimize the number of errors as far as possible. To the omission of a few features, we would call attention, especially, to the omission of the faculty picture which was done by mutual agreement between the staff and faculty. Kindly peruse these pages optimistically and none of its defects will appear. In so perusing, do not forget that it is the perpetual monument to the largest and most intellectual class that has ever graduated from the Saint Joseph High School.

Respectfully submitted,

THE STAFF.

N. E. windy morning in September we set out for the High School. How proud we were to be High School students! But we soon found ourselves much greater in our own eyes than those of the dignified Seniors. Among the girls, short dresses and long braids were the characteristic features, while among the boys, knee-pants and book-satchels predominated. Some of us had been unable to leave our toys at home, and were seen with dolls and tops of all descriptions sticking out of our book-satchels. Of course, we were very much bewildered on reaching the great building, which had been our goal for eight years. On entering we felt lost in the immense halls, which seemed to us to occupy half of the building. A great many of us had forgotten our programs and in despair sought to remember our rooms. During the first week, Senior and Junior recitations were often interrupted by some Freshman, searching for his recitation room. Many mistook the Forum office for that of the Principal, and upon going in were surprised to find it empty.

On the first Friday anxious mamas waited in vain for John or Mary, but who could expect a "Freshie" to come home when he had found an entirely new and absorbing occupation.

However, as time passed, we were seen less often in wrong rooms, and we settled down to work or play, according to our natures. We soon began to realize that what we do in our first year is the foundation on which we are to build our future; and we hope to make that future brighter and more splendid than that of any other class. Although we have done nothing wonderful in athletics this year, in the future we hope to become the most excellent class in the school. Our commencement, too, which to us seems so far off, we hope to make a most brilliant affair.

SOPHOMORE HISTORY
CLASS OF 1908

In attempting to write our history, our class is at a great disadvantage. First, when we were Freshmen we had no written history, so that we are compelled to rely on tradition. Secondly, we have never been green enough to be noticeable nor noticeable enough to be green. Thirdly, we are just at the stage of development when we are not important enough to be prominent; we have had neither class meetings nor parties. This is not because we are too uncivilized to be trusted in such things, but these honors have been reserved for Juniors and Seniors because the ruling powers were either warned by what had been or fearful of what might be experienced from Sophomores. So always do well behaved subjects have to suffer for the vices of the unruly, and the fears of their rulers. We shall some day rise to the dignity of meetings and parties, and then will these functions be performed with a grace and grandeur never—but this is a history, not a prophecy.

We are just between here and there; we do not seem to count much, and still we do count, for without Sophs where could we look for the mighty Juniors and the superlative Seniors? In spite of the fact that we were more talked of when we were “Freshies,” rather than be “Freshies” again, we would be unremarkable Sophs.

We do not boast of great achievements in athletics, but of great possibilities. Mr. Jordan tells us confidentially (and if he doesn’t, he might well do so), and we tell it in the same way, that no class has ever surpassed us in orchestral possibilities. And we state on our own authority, that no class has ever surpassed us in loyalty. We would not be Juniors for anything—not just yet. Nor are we lacking in school spirit; on the contrary, this is our most prominent characteristic, excepting of course our progressiveness; we love our school, and stand by it “through thick and thin.” This trait our faculty—faculty not faculties—consider phenomenal in us. And when it comes to having a good time, we always come out on top. Finally it may be said, in the spirit of the true historian who tries to record the hidden spirit and temper of things as well as the obtrusive facts, that we can tell from the way the teachers look at us, and at others in our presence, that they consider us easily the greatest of Sophomore classes, and we are willing to leave it to them.

It has always been against our principles to blow our own horn, but certainly—and we have tried to use this as our guide—truthfulness weighs more than modesty.

WHAT THE SENIORS LEAVE US
THEY'RE TOO SMALL FOR THEM

CHUCKER
S is it the history of the '07 Juniors that you seek? The deeds of the Juniors are many and the space given them small, but you know our most distinguishing characteristic is modesty, so we will sing only of those events which cannot be omitted. It is hard to remember the time when we were Freshmen, but probably the maturer Seniors can recall how progressive we were; how we did not hesitate to risk life and limb for the glory of our class and how that year a Freshman won laurels at the meet. Our class is not a large one but what is lacking in quantity is made up for in quality. It was as Sophomores that we began to do the things that count. What class before us has won the Basketball championship in their Sophomore year, repeated it as Juniors, and then confidently said "to be continued" in the next year? Although we are proud of our Basketball record, athletics is not the only thing that interests us. In many ways this Junior year has been exceptionally pleasant and profitable. We have worked together to create that class spirit that considers the good of every member and yet that does not neglect the welfare of the whole school. This feeling of good comradeship has been shown by our parties. Modesty prevents further discussion on that point. Bear in mind, however, that there were more representatives from the Juniors on the Football team than from either of the other two classes; that last year and again this year a Junior has held the title of Captain; that one of the best quarterbacks in Missouri is a Junior; and that all our men are star players. One might go on telling what we have done as athletes and students, but we prefer not to.

Here's to the Juniors,  
To their Past and their Present,  
And here's to their Future,  
May it be as pleasant.

EDITING PERIODS.
N the year 1902, a small lad known as Willie Freshman, and a lassie known as Suesye Sub, entered the St. Joseph High School. Willie was a freckled faced, sandy haired youngster clad in knee trousers and a blouse waist. Suesye had tow hair which was parted in the middle and combed down smoothly over her ears. Two long white braids hung down her back, ending in two large red bows. She wore a sailor suit which came just to her knees. On the morning of their arrival, Willie carried his books under one arm and in his hand a shining new top. Suesye had all her books in a satchel thrown over her shoulder, and had a pencil box under her arm.

The first day, after being duly introduced to the rules and traditions of the school by the principal, they spent in taking in the sights. On that day, too, came their first meeting, when the principal kept them for a private interview. It was not until much later, however, that they held their first class meeting, and were an organized body. Theirs was the last Freshman class to be organized.

On Friday, that day of days, Willie and Suesye found a new occupation, sledding when there was no snow on the ground; and thereafter on Fridays nothing could have induced them to go home early.

These two were in the same classes, but they were very bashful and seldom spoke (how times have changed). A close observer might have seen Willie glancing now and then at Suesye out of the corner of his eye; and sometimes Suesye found chocolates and marshmallows on her desk before school, and wondered where they came from (about this time Willie would have his nose buried in a book). Whenever by chance Suesye asked him a question, he involuntarily started and his tongue stuck to the roof of his mouth. (Poor little boy!) After hearing the coming football game and such events praised in auditorium meetings, Willie and Suesye were invariably in attendance (not together however). But no one ever seemed to notice them, and they could never get up the courage to yell for anyone, because someone might hear them. But on the whole, by the end of the year, these two young people had begun to think High School life quite pleasant and themselves very important, for had they not been called Miss Sub and Mr. Freshman for nine whole months?
SOPHOMORE HISTORY

CLASS OF 1906

When we entered our Sophomore year we had an entirely different spirit from our previous year. We were no longer a crowd of strangers, but newly-made students entering upon a year of useful work. Of course we had our feelings of joy and perhaps of conceit (?) to think that we were to be called, no longer "Freshies," or "Subs," but Sophomores. As such we organized at the beginning of the term, re-electing our former officers, as we afterwards found out, a wise thing to do. Perhaps it would be doing a great injustice to all of us to say that nothing of great importance happened, but in the eyes of others we were still insignificant. During this time however, we were laying the foundation for our future greatness and more than fulfilling our Freshmen promises.

We were no longer seen loitering in the halls, neither was the buzz of lips heard when passing from our recitations. We like to attribute this change to our growth in self-government, but I am afraid some will attribute it to a few new rules which were passed at that time—at any rate we were slowly gaining dignity.

Perhaps some of the small number of Sophomores at the football games and track-meets raised their feeble voices to the support of some Junior or Senior, but a very few, yet there were enough to let the world know that '06 existed and would later set the world afire with its powers.

With these few seemingly insignificant events our year closed, but all the while we were storing energy and so later developed into the greatest class ever graduated.
OW we were Juniors, and with the new name came new dignities and honors for the members of '06. But being Juniors did not mean all play and no work as we soon found out. We had Physics and Geometry to account for, and doing this took up many hours and consumed much gray matter. This year came the Junior's first dissipation—a Halloween party. And how everyone did enjoy themselves! However, some things about that party are still standing jokes with members of the class, as for instance—but we are not telling tales out of school. This party was quite an affair for the Juniors, since they outwitted the Seniors (the Seniors were invited notwithstanding).

The next affair was a Christmas party. This was given for "ourselves." A very distinguished guest was present that evening—Santa Claus. He came to spend the evening, since he had plenty of time, it being the week before Christmas eve, and brought with him presents for everyone. Most of these were very appropriate for the recipients, and gave proof that the class of 1906 and the peculiarities of its members were well known to Saint Nick.

The Seniors returned our compliment to them with a carefully planned Valentine party. You probably know of it yourselves, and judging of the party by the hosts we know it was all right.

You may be led to think from this, that having fun was about the main occupation of the Juniors, but I assure you that it was not. Well do we remember the hours and hours spent in diagraming dynamos for our Physics notebook and in conjuring up all the ways we could think of to twist a geometry original, and how disgusted we were when at last we got it, to find how easy it was.

But even this hardest year of all was not able to lower the standing of '06 and even though we did not get our actual grades, there are more ways than one of knowing when you are achieving fame. In athletics we distinguished ourselves of course, and even though sometimes we did not come out on top we were content to be one of the great portions that go to make up a great whole. Then, too, our support of the Athletic Association counted for a great deal, as the Junior girls and boys were always present at the games and were largely represented on that never-to-be-forgotten trip to Des Moines.

A little more dignified, learned and experienced than Sophomores, a little less so than Seniors, this is the history of all Junior classes and is the history of '06.
E stand now upon the last round of the ladder just ready to step out into the world and as we look back over our High School life it has most assuredly been one of great pleasure—but I am to speak of our Senior year. How readily we recall our first class meeting as "dignified Seniors" and with what difficulty we chose our officers from the many competent members. Who will ever forget the delightful trip we made to Kansas City? Of course some of us got lost, but—well I think all of us were present at the ball park where our team stood face to face with Manual and amid the cheers of loyal students were beaten by a small margin.

I am entering upon a very difficult task when I try to relate the incidents connected with our social affairs which only a Senior appreciates. On the night of October thirty-first, the tricks of Holloween crept into the gymnasium where black cats mewed and Jack-o-lanterns smiled from every corner. Under a bower of leaves and berries each one drank from the fountain of youth perpetual which soon aroused his interests as to his future fate and then some of us were lead into the Land of Spooks—but we all returned safely, and when the evening closed we reluctantly turned our footsteps homeward feeling ourselves doubly repaid for our efforts.

Next in the course of events came our Christmas party where a beautifully decorated tree illumined the surroundings and hung low with toys for all who could assure Old Santa that they had studied hard during the past year. After many other interesting features of the evening had passed and our toys were almost broken into pieces, we departed wishing all a Merry Christmas and a Happy New Year.

The Juniors very cordially invited us to be their guests at a Valentine party which proved to be one of the most pleasant evenings ever spent by the Seniors. In return for their hospitality we for the last time lighted the gymnasium for an April Fool party, where a good representation of both classes was present thinking themselves prepared for the occasion—but ask Messrs. S., S., N. and C. what they did.

Well, before I am deprived of space and ere my vocabulary has been stretched to the uttermost I cannot refrain from speaking of our class in scholarship. Previous classes have left records, it is true, and the on-coming classes desire to leave better ones, but what class is able to surpass the record we shall leave? Know ye not how many presidents, congressmen, statesmen, lawyers, teachers and other business men and women shall go forth from us this June and will they ever shrink from owning their allegiance to the great class of '06?

ATHLETICS
THE football season of 1905 was the best the school ever had. The team was only defeated once and the final score 203-13 shows their quality as compared with the teams they met. The opportunity of securing a first-class coach for the team was taken advantage of and Dr. Senn, of Wisconsin, and later of Chicago University, was persuaded to take charge of the team. He was fortunate in having a splendid line of material to work with and turned out a splendid team.

The first game was with Trenton high school. They were reported as a very fast and aggressive team and they were certainly full of confidence as to the outcome. But our boys, even though at the first of the season, went through them without trouble and ran up large score, 59-0.

Second game, 7-0, was with Manual of Kansas City. The team was defeated after one of the hardest fights seen in that city. Manual was playing on her own field and had a better organized team than we had. If the game had come later in the season we would have beaten her by a good score.

The team then went to Oregon and took vengeance for the 0-0 game that was played with that team the season before on our own grounds. Barring a little wrangling on the part of the spectators there was nothing to mar the victory. Score 26-0.

The Leavenworth game was in some respects the best of the season. Leavenworth had played us 0-0 at Leavenworth the year before and rather expected an easy victory. They were completely outclassed. The score they were permitted to make was accidental and was not earned at all, 45-6.

The next week at Lathrop the team was treated to quite a little excitement. The game was played, as much playing as was done, in a driving rain. The game had not progressed far till the Lathrop citizens on the side lines took a hand in the proceedings and mixed things up a little. After this had happened twice the St. Joseph team left the field, neither side having scored but St. Joseph clearly leading in team play both offensive and defensive.

On November 11 arrangements had been made to play Cameron High School, but they were suddenly seized with a very common ailment in small towns, known as "cold feet," which was so severe as to prevent them coming to play us. So we telephoned Oregon and though we had beaten them before they are a very "game" set up there and they said they would be glad to come down and meet us again. We had a very nice game with them as the score shows, 44-0.
A double header had been planned for November 18 at Cameron, when the second team was to play the Cameron high school and the first team was to play the Missouri Wesleyan College team. We were doomed to disappointment however as the Cameron high school was in a row with its superintendent and he cancelled their dates. A large crowd was taken to Cameron to play the college team then. It was another such day as we had at Lathrop. It began to rain as we got to Cameron and continued all day. The game was played and our team was victorious in a clean, hard fought game 11-0.

The next week was our greatest disappointment, however. Early in the week we had a telegram from Central saying that their team had disbanded and that our annual game with them was impossible this year. A game was secured with Tarkio college second team. They were large and strong but no match in team play or knowledge of the game for our boys and were badly beaten, 17-0. That ended the season. It was a very disappointing season for all concerned. This was the year that we were ready to pay Central back for all the defeats of former years, and we were not allowed to meet her. Best team of the high school and not allowed to defeat our dearest rival.

This account must not close without mention of the second team. They were just as much responsible for the victory of the first team as was the coach. He could have done nothing in comparison with what he did, had it not been for the faithful efforts of the second team men. They were to have played three games. Two with Savannah and one with Cameron high school. The Cameron high school cancelled their game and they beat Savannah, 21-0, one game here in St. Joseph. The return game at Savannah was not played because of the unfair tactics of the Savannah boys, in attempting to substitute outsiders in the game.

They were a real team with a well developed team play and not an aggregation of scrubs. As was said above the splendid showing made by the first team was largely owing to the stiff game put up every day in practice by the boys of the second team.

HOROUGHLY consistent with the general progress of our school was the increased interest taken in basketball during the season just past. The athletic triumvirate was increased by the addition of an all school basketball team. Heretofore all that has been done in basketball has been between the three upper classes in the struggle for the school championship. Seldom have any games been played with outside teams. Some years ago a game was played with a local team, chosen from the employees of the Burlington, the result of which was a disastrous defeat for the latter. Last year, two games were played with the Alumni, and here it may be said, we were again victorious. But in these games the school was represented by class teams and not by teams chosen from the whole school.

From the first of December the boys trained faithfully, practicing three times a week. As the practice progressed it could plainly be seen that the inter-class games would be more closely contested than any series in the history of the school. In as much as the present junior class held the championship for last year, it was the ambitious hope of the Seniors to relieve them of their laurels.

In regard to the class championship games, we think it can be said that the audience was better pleased than ever before. Although the Sophomores were inexperienced players they put up a very firm game against such strong competitors as the Juniors and Seniors. Their first game played with the Seniors resulted in a victory for the latter by a score of 49 to 15. In their second game they were defeated by the Juniors, the score being 32 to 20. The climax of the series came in the game between the Juniors and Seniors. The two teams were about as evenly matched as any teams could be. From the start to the finish, no one knew who would win. It was "anybody's" game until the final whistle blew. The result was a victory for the Juniors by a score of 22 to 15. The game, we think we can conscientiously say, was the best exhibition of basketball ever seen in the high school "gym," being characterized by true sportsmanlike conduct both on the part of the players and the spectators. Very few fouls were committed, there being no attempt at making it an exhibition of football. There was splendid team work by both fives, accurate passing and catching the ball, good headwork and clear judgment. In such a contest there is honor for both sides, and while the Juniors enjoyed the honor of victory, the Seniors, though disappointed, optimistically made the most of the honor of defeat.

Hence we see there was abundance of material for a school team. Those finally chosen to represent the school were: J.W. Beaumont, captain, W. Floyd, R. Moore, N. J. Lomax.
H. Tedrow, M. Binswanger, W. Hill, H. Schmidt and C. Innis. The first game was played in the Turner "gym" on the night of February 2, with Manual high school. Manual has the strongest high school five in the Missouri Valley, not having been defeated during the last season. Hence our defeat by them was not at all discouraging. In fact our boys played an excellent game, even outplaying them in the last half. The final score was 34 to 18.

On Feb. 9, we played Central high school. Our five completely outplayed them during the first half, and it looked for a while as if we would be avenged for the football victory we were deprived of last fall. But the second half was different. Central played better ball. Our men, being over anxious, lost the game on fouls by the score of 28 to 24.

At Kansas City, Feb. 23, our team played a return game with Central. While our men put up a good game, Central, having the advantage of the home court, outplayed them and won by a score of 38 to 17. Feb. 24, we played another game with Manual. During the first half of this game our boys completely walked away with them. Every man on the team made every pass count, and it looked as though we would surely be the victors. But then, at the end of the second half we were, as usual, the victims, the result being 52 to 31 in favor of Manual. This was the last game of the season.

Remembering that this was the first year that we have had a school team, we may say that we have had a very successful season, and that the outlook for basket ball as one of the school sports is very encouraging.

TRACK ATHLETICS IN ST. JOSEPH HIGH SCHOOL

Track athletics in St. Joseph were launched in the spring of 1898, and Tom Van Natta, Harry Tootle and W. C. Motter were the prime movers in the first season's work, while C. E. Drummi was the star of the year, contributing more points than any other man toward the winning of our first victory, that over the Y. M. C. A. Encouraged by this good beginning, we sent a team to Columbia the next year and won the State championship, Tom McDonald making his wonderful record in this meet. Barnes and Tootle also won laurels for the school. The class of 1900 was a famous athletic class, and a finer set of manly, highminded boys were never assembled, than those who organized the M. V. I. A. A., won the State meet, and established a sportsmanlike tone to the track team which has characterized every winning team since that time. Fulton Churchill, an expert stenographer, placed his talents at the service of the present writer, and letters were sent out to all the prominent schools of the Missouri Valley, inviting them to a conference in St. Joseph.

The response was so hearty, that the conference, held in the Y. M. C. A. parlors during the Christmas holidays of 1899, assured the permanence of the association.

The officers elected at this meeting were: President, L. F. Tobin, of Lincoln; Vice-President, H. C. Smith, of Nebraska City; Secretary, A. F. Barnard, of St. Joseph; Treasurer, Wm. Redmond, of Hiawatha.

The team which represented us in the first M. V. I. and at Columbia was composed of Barnes, Captain; Barnard, Bentley, Ingram, W. C. Motter, Wheeler and Hoffman of 1900, Marsh and Nelson, '01, and Street, '02. They won second place in the M. V. I., Lincoln taking first, and then won the State championship at Columbia, defeating both Central and Manual of Kansas City in the two meets. The team won 91½ points in the two meets, and Archer Barnard won 37 of these, establishing his right to the place he has ever since held, as the best all around athlete and the finest type of sportsman the school has ever produced. Jno. Marsh in the high jump and hurdles and Jerome Bentley in the half and the mile did the next best work, and Nelson, Motter, Street, Wheeler and Hoffman each contributed a valuable share to the totals.

Marsh and Nelson faced a discouraging task in 1901, for the school felt that with 1900 our athletic glory had departed. But the class of 1901 showed fine spirit in rallying around the two veterans and by the end of the season a team was developed which defeated both Central and Topeka in the first triple meet at Kansas City. Nelson, Marsh, Coffey, Rice, and Cooper of '01, Street, Lewis, Acker and Gard of '02, and Stein and Orr of '04 all won points, Coffey doing the best work. But the second M. V. I. meet, at Kansas City, brought out one of the best aggregations of Athletes ever seen in the west. Taylor and Blair of Ft. Scott, the latter since captain of Chicago University track team, Rollins of Des
Moines, since captain of Amherst College, States, Follmer and Benedict of Lincoln, all famous University of Nebraska athletes since, with Cotton of Central, and Tate of Manual, made a combination which left just 1½ points for St. Joseph. The officers this year were: President, R. H. Jordan; Vice-President, E. M. Yundt (Nebraska City); Secretary, Jas. A. Peters (Manual); Treasurer, C. E. Cox (Maryville).

In 1902, Street and Lewis encountered the task of recruiting a team to overcome that 1½ point defeat. And they did it. For 1902 is the best year of our track history—Central and Topeka decisively defeated in the triple meet, and all the schools of the West beaten in the M. V. I. When will we forget those wonderful finishes of Street’s hurdle races? Lewis’ fine work in the weights? And Rogers, Acker, Boder, Gard and Gleaves contributing to make the season a grand success. The M. V. I. officers for the year were: President, R. H. Jordan; Vice-President, Condre, (Lincoln); Secretary, R. W. Street; Treasurer, C. D. Slinker (Des Moines). The star athletes competing from other schools were: Manning, of Lincoln; Otto of Topeka; Davis, of Wentworth; Pugsley, of Central and Warner, of Blee.

In 1903, came the journey to Lincoln, the only meet of the year being the M. V. I. A. A. Weary, Custer and Morris of 1903, Broadhus, Powell, Porzelius, Prieb, Gleaves and Roberts of '04, Boder, Carpenter and Thomas of '05, made up the team and in taking fourth place for St. Joseph made a very respectable showing. Broadhus and Weary did the best work, the strongest competitors from other schools being Cotton and Hill, of Central, Storer and Russell, of Des Moines, Rathbone, Burruss and Barwick, of Lincoln. The meet was won by Central of Kansas City, and the officers were: President, A. J. Mercer, Lincoln; Vice-President, E. H. Heacock, Topeka; Secretary, Floyd Matson, Lincoln; Treasurer, W. J. Gutrie, Des Moines.

Nineteen and Four marks the beginning of our disappointments on the track. With splendid prospects, a hoodoo seemed to settle over the team, and in the M. V. I. at Kansas City we fizzle out completely, Boder and Broadhus being the only members of a team of invalids to shed glory on the school. Blee had no trouble in winning, Warner doing fine work for her. We stood in sixth place. A week later, in St. Louis, we assisted in opening the Stadium at the World’s Fair grounds, and Orr won the first race ever formally contested there—a trial in the 100-yards dash. Every member of the team won some points in this meet, Boder proving the star athlete, and the success of the boys did much to atone for the M. V. I. result.

The officers of the M. V. I. in 1904 were: President, E. M. Bainter (K. C.); Vice-President, J. B. Stokesberry (Ft. Scott); Secretary, W. H. Scarritt (K. C.); Treasurer, W. J. Guthrie (Des Moines).

With 1905 fresh in our minds, we are hoping that the present year will show as good a reversal in form as was noted between 1901 and 1902. As we think of the victories of the past, of the remarkable performances of Barnard, McDonald, Boller, Street, Bentley, Lewis, Coffey, Marsh, Nelson, and the rest, it certainly should inspire us with the earnest purpose to equal, if not surpass, the deeds of old. May our future history show brighter records than our past!

ALBERT BEN ADAM

(With apologies to Leigh Hunt)

Albert Ben Adam, may his class increase,
Was dreaming one night, a deep dream of peace
And saw within the moonlight in his room,
Making it rich like a lily in bloom,
A teacher, writing in her book of grades.
Exceeding neglect had made him afraid,
And to the Presence in his room, he said:
“What writest thou.” The Vision raised its head;
And after she had awhile perused,
Answered: “The names of those who are excused.”
And, “Is mine one?” said Albert. “Nay, not so,”
Replied the Vision. Albert spoke more low;
But cheerily still; and said, “I pray thee, now,
Write me as one who once knew how.”
The teacher wrote and vanished. The next day,
Ben Adam to the school made his way,
And saw the names whom the list had blessed;
And lo! Ben Adam’s name led all the rest.

SHORTHAND AS A STEPPING STONE

There is no quicker or surer road to success than by acquiring a thorough working knowledge of Shorthand, Typewriting and Book-keeping.

A great many of our business men of today, holding the highest positions started as stenographers. A course at Platt's Commercial College will double the salary at which you would start otherwise.

Summer Term begins June 4, Fall Term Sept. 3

We Have Done the “High School” Work Two Years. What do They Say?

To Those Interested:
We have received better engravings and better work in general from the work done by Mr. Shrader this year. He has tried hard to give us the best, and we can say that he has succeeded.

Respectfully,
John Beaumont, Editor.
