

Calaveras Unified School District does not condone any form of bullying or harassment. Policies and practices are in place to help the district to effectively address any conduct that would be identified as bullying and/or harassment and staff is attentive, and responsive, to these issues and concerns. Any student, guardian or staff member who has concerns in this area, and/or who is aware of or victim of this type of conduct needs to report this to a staff member (or supervisor in the case of CUSD Staff). Steps are taken proactively, and reactively, to support the district's mission to ensure a healthy and safe learning and working environment for all.
