**Part IV: Diagnostic Assessments**

Diagnostic assessment is a particular type of formative assessment intended to help educators identify students’ specific knowledge, skills, and understanding in order to build on each student’s strengths and specific needs. Because of their domain specificity and design, diagnostic assessments can guide curriculum planning in more specific ways than most summative assessments.

5. Please select the **academic** diagnostic assessments predominantly used in each grade level in your LEA to monitor, assess, and target supports for student learning. The list below is not exhaustive and contains places to include diagnostics not listed.

**Part VII: Monitoring Student Progress**

13. Describe how your LEA will consistently apply the selected equity analysis and diagnostic assessments to evaluate and monitor student progress and effectiveness of the strategies/interventions implemented to address gaps in student learning and well-being.

Our district uses an equity analysis process at least annually to monitor progress, adjust strategies and identify student learning gaps within demographic categories. We monitor students individually as well. We are in the midst of using a consultant (last two years via a grant) to improve our inclusionary practices and move to Universally Designed Instruction as a means to improve student learning. We engage in Multidisciplinary Team meetings weekly for students with special needs. At the 9-12 level the student support team reviews every student over the course of the school year, and some more often than annually, to determine strengths and needs and assist students to meet with success. At the K-8 level grade level team meetings occur once or twice per month with meetings for tier two and three students happening weekly. At the 5-8 level progress monitoring occurs daily in Homeroom. Students engaged in athletics are monitored on a regular basis as well.

**Part VIII: Supports for Strategies/Interventions**

14. Of the strategies/interventions your LEA has implemented or is planning to implement, identify **up to three** in which your LEA has the knowledge, skills, and capacity to mentor another LEA. We don't have the staffing capacity to contribute to this.

15. Of the strategies/interventions your LEA has implemented or is planning to implement, please identify **up to three** strategies for which your LEA needs more support. We are not sure we need support at this time.
