CODE OF CONDUCT

2021-2022

SUPERINTENDENT

DR. JOHN C. MORGANO

BOARD OF EDUCATION

A MESSAGE FROM THE SUPERINTENDENT

Dear Parents/Guardians and Students,

Welcome to the 2021-2022 school year. The Code of Conduct for the 2021-2022 school year remains similar to last year. For each infraction, there is a list of possible consequences. The administration, usually the principal, can begin with the first step or anywhere on the continuum depending on the specific behavior and the needs of the student.

Just a note on cell phone use. While we generally permit use of cell phones in most settings, it is always at teacher discretion whether to permit the use of cell phones or any other electronic device. The Code provides information regarding such infractions as plagiarism. This Code also provides support for victims of bullying by identifying support staff and reporting information. The rights of students are provided, as are the roles of students, teachers, parents and other school personnel. Information regarding the reporting of violent and disruptive students and incidents reporting (VADIR) and information about DASA, the Dignity for All Students Act are provided in this Code.

We have great students at Eldred and sometimes students make choices that are not the best of all possible choices. These times are an opportunity for the student to learn and grow. Whenever possible we will treat a poor choice as a learning opportunity. As part of this learning, at times, consequences may need to occur.

Sincerely,

John C. Morgano Ed.D.
Superintendent of Schools
DISTRICT CODE OF CONDUCT

INTRODUCTION

The Eldred Central School District is committed to maintaining high standards of education for our students. Because the District believes that order and discipline are essential to being educated effectively, the District is also committed to creating and maintaining high behavioral standards and expectations. An orderly educational environment requires that everyone in the school community play a role in contributing to an effective environment. It also requires the development and implementation of a Code of Conduct that clearly defines individual responsibilities, describes unacceptable behavior, and provides for appropriate disciplinary options and responses.

The District believes that order and discipline must be a shared responsibility between school, home and community. This Code of Conduct was developed in collaboration with student, teacher, administrator and parent organizations, school safety personnel and other Board-approved school personnel. The Code of Conduct applies to students and adults in or on school property and at school functions, as defined on page 6 of the Code. Finally, it is our belief that, to be effective, such a code must:

- identify, recognize and emphasize acceptable behavior;
- identify, recognize and prevent unacceptable behavior;
- promote self-discipline;
- consider the welfare of the individual as well as that of the school community as a whole;
- promote a close working relationship between parents/guardians and the school staff,
- distinguish between minor and serious offenses, as well as between first time and repeated offenses;
- provide disciplinary responses that are appropriate to the misbehavior;
- outline procedures to ensure that it is administered in a way that is fair, firm, reasonable, and consistent;
- encourage a high regard for every person's right to reasonable hearing procedures and due process when accused of misconduct;
- comply with the provisions of federal, state and local laws, as well as the guidelines and directives of the New York State Department of Education and the Board of Regents.

A school's primary concern in establishing a Code of Conduct is to enable our young people to become responsible, respectful and caring citizens within the school and community settings. The Board of Education is responsible for ensuring that essential regulations are established and adequate discipline is maintained in the operation of the schools to effectively promote safety, as well as the social and educational growth of the students. Administrative regulations are developed and enforced by the school administration and staff.

The parent/guardian is expected to assume primary responsibility for control of his or her child. The parent/guardian may be called upon to actively cooperate with the school in providing the necessary structure to promote his or her child's social and educational growth. To this end, a high degree of parent-school communication will be fostered by the school.
Disciplinary measures available to the administration of each school building include conferences, detention, restricted study/alternative learning center (in-school suspension), out-of-school suspension and administrative hearings with the designated hearing officer. Administrative hearings can result in out-of-school suspensions of more than five days and, in particularly serious cases, a student may be permanently suspended from school.

**STUDENT BILL OF RIGHTS AND RESPONSIBILITIES**

The Eldred Central School District believes in the right of each child, between the ages of five and 21 years or until the child receives a high school diploma, whichever comes first, to receive a free and appropriate education. All students in this state between the ages of six and the school year through which he or she becomes 16 are required by law to regularly attend school, either in the public schools, non-public schools that are approved for equivalency of instruction by the appropriate school authorities, or in the home in accordance with the Regulations of the Commissioner of Education.
The right to a free public school education extends to all students, including those with disabilities. However, this right is not unconditional. As long as due process of law requirements are met, a student may be removed from the classroom, suspended temporarily or suspended permanently from school. Only students within the compulsory education ages (age six through the school year in which the student turns 16) are entitled to alternative, equivalent instruction following suspension.

**RIGHTS OF STUDENTS**

Education in a free society demands that students be aware of their rights and learn to exercise them responsibly. To this end, students have a right

- to be provided with an education that is intellectually challenging and relevant to demands of the 21st century;
- to learn in an environment free from interruption, harassment, discrimination, intimidation and fear;
- to participate in district activities on an equal basis regardless of race, color, creed, national origin, religion, gender, disability or sexual orientation.
- to be informed of all school rules;
- be guided by a discipline policy which is fairly and consistently implemented.

In addition, students in this District are afforded the following rights

1. **Student Expression** - Students shall be allowed the opportunity for the free expression of ideas consistent with rights established by the federal and state constitutions. However, a student's freedom is subject to limitation in that the constitutional protections will not extend to libelous, slanderous, vulgar, lewd, indecent or obscene words or images or to words or images which by their very use incite others to damage property or physically injure persons. Furthermore, speech which materially and substantially disrupts the work and discipline of the school may be subject to limitation.

2. **Symbolic Expression** - Students, in light of constitutionally protected free speech rights, may wear political buttons, arm bands or badges of symbolic expression so long as the same conform to the limits set forth herein the dress code.

3. **Student Activities** - All pupils shall enjoy equal access to the extent of their capabilities for participation in the various extra-curricular and co-curricular activities sponsored by the School District. The privilege of participating in such activities shall be conditioned upon appropriate conduct as established by the student Code of Conduct and any rules promulgated specifically for participation in extra and/or co-curricular activities.

4. **Student Government** - Students are encouraged to participate in the various student governmental bodies, which have been or may be established in our schools. It shall be the duty of the student governmental body to establish reasonable standards for qualification of candidates to serve in offices of the government. Elections for student government shall be conducted in accordance with the principles of our democracy and selected student representatives shall work with the faculty, administration and student body in identifying cooperatively those areas of appropriate student responsibility. All student governmental
bodies shall have a faculty advisor and shall be organized pursuant to a specific written constitution, which the students shall participate in formulating.

5. **Student Clubs and Other Student Organizations** - The District encourages students to participate in curriculum related extra-curricular activity clubs and/or organizations. To the extent that the District authorizes meetings of non-curriculum related clubs or organizations, the same shall be subject to the constitution of the student government and shall be conducted in accordance with any applicable federal or state law, as well as Board of Education policy or regulations.

6. **Privacy Rights [Search and Seizure]** - Students in attendance in our public schools are protected against illegal or unreasonable personal searches or seizures of their property by both the federal and state constitutions. In light of these protections, no student's person or property shall be searched for illegal substances or materials unless the school authorities conducting the search have reasonable suspicion to do so. Lockers, desks, and school owned technology devices, assigned to students may be subject to inspection at any time by school officials since such places are not the property of the student, but rather are owned by the School District and shared with the student. Policy #5330

1. **Pregnant Students** - During pregnancy and the period of pregnancy related disability which follows childbirth, a student shall be entitled to home instruction, upon request. Pregnant students who desire to attend their regularly scheduled classes prior to the time of childbirth may do so to the extent that their physician approves of such attendance.

8. **Student Grievances and Complaints** - If a student has a grievance or a complaint about a school-related matter, a school employee or other school official, s/he may submit it, in writing, to the Principal of the school who shall respond within ten (10) school days with a written answer or proposed resolution. Grievances or complaints may be appealed in writing to the Superintendent of Schools if the Principal's answer or proposed resolution is not deemed satisfactory by the student. The Superintendent of Schools shall respond to all grievances and complaints within a reasonable period of time following receipt of the written appeal document.

**RESPONSIBILITIES OF STUDENTS**
Students attend school so that they may develop to their fullest potential. With this in mind, each student is expected:
- to accept responsibility for his/her actions;
- to conduct his/her self with integrity in an ethical, moral, and respectful manner;

THE ROLE OF PARENTS
A cooperative relationship between home and school is essential to each student's successful development and achievements. To achieve this wholesome relationship, parents are urged:
• to show an enthusiastic and supportive attitude toward school and education;
• to build a good working relationship between themselves and their child;
• to teach their child self-respect, respect for the law, respect for others and for public property;
• to insist on prompt and regular attendance;
• to listen to the views and observations of all parties concerned;
• to recognize that teachers merit the same consideration and respect that parents expect from their child;
• to encourage their child to take pride in his/her appearance;

• to provide a place conducive for study and completion of homework assignments;
• to demonstrate desirable standards of behavior through personal example;
• to foster a feeling of pride in their child for their school;
• to provide support and positive reinforcement to their child.

Parents should be aware that they are responsible for any financial obligations incurred by their child in school. This includes lost books, damage to property, etc.

THE ROLE OF SCHOOL PERSONNEL
School personnel play an important role in the education of students. In view of this responsibility, school personnel must:

• immediately report and refer violent students to the Principal or Superintendent of Schools.
THE ROLE OF TEACHERS
Every teacher knows that s/he works every day with this nation's most precious commodity - the future generation. In view of this responsibility, the teacher must:

- promote a climate of mutual respect and dignity which will strengthen each student's positive self-image;
- plan and conduct a product of instruction that will make learning challenging and stimulating;
- recognize that some disciplinary problems are caused by a student’s personal and academic frustrations;
- utilize classroom routines which contribute to the total instructional program and to the student's development of civic responsibility;
- seek to develop close cooperative relationships with parents for the educational benefit of the student;
- distinguish between minor student misconduct best handled by the teacher and major problems requiring the assistance of the administrator;
- teach the common courtesies by precept and example;
- handle individual infractions privately and avoid punishing the group for the misbehavior of one or two;
- help students cope with negative peer pressure;
- identify changing student behavior patterns and notify appropriate personnel;

- send communications home promptly;
- report to the Principal any student who jeopardizes his/her own safety, the safety of others or of the teacher, or who seriously interferes with the instructional program of the classroom;
- treat students in an ethical and responsible manner;
- help students to reach their maximum potential;
- serve as a surrogate parent in matters of behavior and discipline in accordance with New York State School Law;
- explain and interpret the Code of Conduct to students;
- enforce the code in all areas of the school;
- demonstrate desirable standards of behavior through personal example;

- comply with state educational law regarding corporal punishment and mandated reporting of suspected child abuse;
- in the event of removal from class, inform the student and the Principal of the reason for the removal;
- immediately report and refer violent students to the Principal or Superintendent of Schools.

THE ROLE OF BUILDING ADMINISTRATORS
As the educational leaders of the school, the Principal and his/her assistant(s) set the disciplinary climate for the school, not only for students, but for staff as well. Therefore, they must:

- seek to develop a sound and healthful atmosphere of mutual respect;
- evaluate the program of instruction in their school to achieve a meaningful educational program;
help their staff self-evaluate their procedures and attitudes in relation to the interaction within their classrooms;
• develop procedures which reduce the likelihood of student misconduct;
• provide the opportunity for students and staff to approach the Principal directly for redress of grievances;
• work with students and staff to formulate school regulations;
• assist staff members to resolve problems which may occur;
• work closely with parents to establish a wholesome relationship between home and school;
• utilize all appropriate support staff and community agencies to help parents and students identify problems and seek solutions;
• establish necessary building security;
• assume responsibility for the dissemination and enforcement of the Code of Conduct and ensure that all discipline cases referred are resolved promptly;
• insure that students are provided with fair, reasonable, and consistent discipline;
• comply with pertinent state laws governing hearings, suspensions, and student rights;
• develop behavior guidelines and appeals procedures specific to each assigned school in harmony with this Code of Conduct;
• demonstrate desirable standards of behavior through personal example.

THE ROLE OF DISTRICT ADMINISTRATORS
As the educational leaders of the school system, the Superintendent of Schools and central administrators must:
• reinforce and extend the indicated responsibilities of the Principals and make them applicable to the school system for grades K-12;

• adopts the policies governing the District, including this Code of Conduct;
• ensures that the Code of Conduct contains clear behavioral expectations and disciplinary consequences for students, staff and visitors;
• ensures that the Code of Conduct is clearly communicated to students, parents, staff and the school community;
• ensures that the Code of Conduct is implemented and enforced in a consistent, reasonable, fair and equitable manner;
• annually reviews the Code of Conduct and updates it as necessary

CONDUCT OF VISITORS
In an effort to maintain a safe and healthy educational environment, all visitors to the District must sign-in at the Main Office of the building visited. Visitors are expected to comport themselves in a
manner that does not disrupt the academic process and in accordance with the law and this Code of Conduct.

REPORTING CODE VIOLATIONS

1. **To School District Personnel**

Students, teachers and other District personnel must report any serious violation of this Code of Conduct of which they have firsthand knowledge to any building administrator where the violation occurred. A serious violation means any infraction where an asterisk (*) appears beneath the infractions. The reporting individual will be given a written confirmation that the matter is being or has been investigated within two (2) weeks from the time when the report was made.

2. **To Local Law Enforcement Agencies**

The District will report any acts of violence against persons that constitute a felony or misdemeanor and other violations of the Code of Conduct which constitute a felony to the appropriate local law enforcement agency when the actor is over the age of 16. When necessary, the District will file a complaint in criminal court against the actor.

3. **To Human Services Agencies**

The District will report any violations of the Code of Conduct which constitute a crime when the actor is under the age of 16 to the appropriate human services agencies. When necessary, the District will file a juvenile delinquency petition or a person in need of supervision (PINS) petition in Family Court.

REMOVAL OF A STUDENT FROM THE CLASSROOM

The School District has determined that certain acts of misconduct interfere with instruction and/or the safety and welfare of students and staff. Although some incidents of misconduct may require removal from the classroom or suspension from school, effort will be made to deal with misconduct without removal from the classroom or suspension from school. This is in keeping with the District goal of avoiding consequences that interrupt or interfere with learning. However, no child will be allowed to continue disrupting the instruction of the class or interfering with the safety of the school, its staff, students and visitors.

Teachers shall have the authority to remove a student from their classrooms whenever the student substantially disrupts the educational process or substantially interferes with the teacher's authority over the classroom. Substantially disruptive shall mean that the course of instruction has to be discontinued more than momentarily such that it breaks the continuity of the lesson, to address the disruptive conduct of the student. Substantially interferes with the teacher's authority over the classroom shall mean that the student has been insubordinate to the teacher in the presence of the class and has failed to obey the teacher's directives to cease and desist (e.g., at least two directives).
A teacher may remove a student for the remainder of the class upon the first event and for two days of class upon the second or third event. Upon the occurrence of a fourth event, a Principal's suspension shall occur.

Notwithstanding the above, in light of circumstances that warrant suspension, a Principal's suspension for substantially disruptive behavior may be implemented in addition to or in lieu of removal of the student from the classroom by the teacher.

Once the teacher determines that the student has been substantially disruptive or substantially interferes with the teacher's authority over the classroom:

- the teacher must confront the student in class (or within 24 hours of removal where the student is unmanageable at the time of initial removal) to inform the student of the reason(s) for the removal;
- prior to removal from the classroom (or within 24 hours of removal where the student presents an ongoing threat of disruption or a continuing danger at the time of removal), the teacher shall inform the student of the basis for the removal and allow the student to informally present his/her version of the relevant events;
- the Building Principal or designee must inform the student's parent of the removal and the reasons therefor within 24 hours of the student's removal;
- upon request, the student and his/her parent must be given an opportunity for an informal conference with the Principal or designee to discuss the reasons for removal. If the student denies the charge(s), the Principal or designee must provide an explanation of the basis for the removal and allow the student and/or his/her parent an opportunity to present the student's version of the relevant events within 48 hours of the student's removal.
- the Principal or designee may not set aside the removal unless s/he finds that the charges against the student are not supported by substantial evidence or the student's removal otherwise violates law or the conduct warrants suspension from school and a suspension will be imposed.
- the Principal/designee determination on whether or not to support the teacher's removal of the student shall be made by the close of business on the day succeeding the 48-hour period for the informal Principal's removal conference. The teacher who causes the removal may be required to attend the Principal's conference at the Principal's discretion.

The District shall provide continued educational programming and activities for students who are removed from their classrooms.

An appeal brought by the parent or student over the age of 18 of a Principal's removal decision must presented to the Superintendent of Schools prior to any further appeal.

**STUDENT SUSPENSION PROCESS**

The Board of Education, District Superintendent, Superintendent of Schools, a Building Principal or in his/her absence, an acting Building Principal, may suspend a student from school where it is determined that the student:
• is insubordinate or disorderly, or exhibits conduct which endangers the safety, morals, health or welfare of others; or
• exhibits a physical or mental condition(s) which endangers the health, safety or morals of himself/herself or of other students; or
• is removed from a classroom for substantially disrupting the educational process or substantially interfering with the teacher's authority in the classroom four or more times in one semester.

In addition to the statutory grounds for suspension from school for conduct or health condition, students shall also be subject to suspension based upon a violation of the specific disciplinary infractions listed below.

A. Pre-suspension Process

Prior to being suspended from school, the student shall be confronted by a school official empowered to suspend, as referenced above, at which time the evidence upon which the decision to suspend is based shall be stated to the student and the student shall be given the opportunity to explain his/her version of the facts. The student shall also be afforded the right to present other persons to the suspending authority in support of his/her version of the facts. If the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, such confrontation shall occur following suspension, as soon thereafter as is reasonably practicable. In all cases, except in cases of in-school suspension there shall be no suspension until after the informal Principal's conference, unless waived, as described in paragraph "B" below.

B. Short Term Suspension Process

Prior to a proposed suspension from school for between one and five days by a Building Principal or an acting Principal in the absence of the Building Principal, the student and his/her parent shall be notified, in writing, by personal delivery, express mail or overnight service, and by telephone, if possible, within 24 hours of the decision to propose suspension.

Such written notice shall include a description of the incident(s) resulting in the suspension and shall inform the parent of their right to request an immediate informal conference with the Principal at which the student and/or his/her parent may present the student's version of the event and ask questions of complaining witnesses. Upon such request, an informal conference with the Principal and other parties involved shall be convened as soon as possible, [at which time the evidence, including the witness(es) relied upon by the Principal in making the suspension determination, may be questioned by the parent or guardian.] The right to an informal conference with the Principal shall also extend to a student if 18 years of age or older. The notice and informal conference shall be in the dominant language or mode of communication used by the parent. If the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practicable.
Any appeal brought by the parent or student over the age of 18 of a Principal's suspension must be presented in writing within 30 days to the Board of Education prior to filing any further appeal.

C. The Long-term Suspension Process: Suspension for More than Five Days

Any suspension from school in excess of five school days shall be considered a long-term suspension. Unless there is an agreement between the person requesting the suspension and the parent, a long-term suspension may be done only after the Superintendent of Schools or the Board of Education has conducted a hearing.

When a student is subject to a long-term suspension, a hearing shall be conducted by the Superintendent if the Building Principal, acting Building Principal or the Superintendent has made the original suspension, or before the Board where that body has made the original suspension. The Superintendent of Schools or Board of Education may designate a Hearing Officer to make findings of fact with respect to the charges of infractions under this Code of Conduct, as well as penalty recommendation pursuant to the penalty parameters described herein.

D. Hearing Procedures

Notice of Hearing

In the event of the suspension of a student under the age of 18 years, the notice of suspension will be mailed or delivered to the parent, who shall have a minimum of 48 hours notice of the time and place of the hearing, as well as the nature of the charge(s) and the facts, sufficiently stated so that a proper defense may be placed upon the record on behalf of the student.

In the event of the suspension of a student over the age of 18, the notice, as described above, shall be delivered or mailed to the student, as well as to the student's parent(s), if any. Emancipated minors shall be entitled to the same notice rights as a student beyond the age of 18 years.

All notices of long-term suspension hearings shall contain provisions indicating that the student has the right to be represented by an attorney or lay counsel, that a transcript of the hearing will be prepared (tape recording or stenographic record) and that the student has the right to subpoena witnesses or otherwise present witnesses in his/her defense. The time, date and location of the hearing shall also be prominently set forth in the notice. If the student is 18 years of age or older, the letter described above will be mailed to the student as well as his/her parent.

The Long-Term Suspension Hearing

The hearing shall be conducted by the Superintendent or a designated Hearing Officer in the event of a suspension by a Building Principal, acting Building Principal; or the Superintendent. The hearing shall be conducted by the Board or its designated Hearing Officer in the event that the suspension originated by Board action.
At the beginning of the hearing, the Hearing Officer shall inform the student and the student's representative(s):

- that the District's and the student's representatives shall have the right to examine and cross-examine witnesses;
- that the student has the privilege against self-incrimination, but that if the student does testify, s/he shall be subject to cross-examination;
- that the District has the burden of proving the charges by a preponderance of the credible evidence;
- that a transcript of the proceedings shall be maintained and made available to the student's representative upon request; and
- that the hearing shall be private or open to the public, as determined by the student's representative.

The person conducting the hearing shall not have intimate knowledge of the details of the charges to assure an impartial, unbiased hearing of the case.

The Hearing Officer shall inform the parties:

- that the case will proceed by having the District present its evidence through witnesses and other evidence first;
- that the District's witnesses shall be subject to cross-examination by the student's representative; and
- that the student will then have the opportunity to present witnesses on his/her behalf, subject to cross-examination by the District's representative.

Following the conclusion of the testimony and the introduction of other evidence matters, the parties shall be afforded the opportunity to present oral arguments to the Hearing Officer indicating the reasons why the charges should be sustained or dismissed.

The Hearing Officer shall then reach findings of fact upon the charges.

In the event that one or more of the charges is sustained, the Hearing Officer shall then entertain statements from the parties regarding the appropriate penalty outcome. In the event that the parent and/or the student, in an appropriate case, have been served with a copy of the student's past disciplinary anecdotal record in a timely fashion (at least 48 hours before the hearing), for consideration at the hearing, such record may be considered by the Hearing Officer in determining an appropriate penalty. The incidents contained within the past anecdotal record shall be subject to proof to the extent that they are denied by the student, as expressed by the student's representative.

The Hearing Officer, upon the conclusion of the portion of the proceedings dealing with penalty determinations, shall make findings of fact and penalty recommendations, if any, to the person or body which designated him/her immediately upon the conclusion of the long-term suspension hearing.
The Superintendent or Board, whichever designated the Hearing Officer, shall make its own findings of fact and penalty decision, by adopting those of the designated Hearing Officer, where applicable, in whole or in part, or by reaching independent findings of fact and penalty determinations. This process shall be concluded within the five school day period from the time of the initial suspension if the student is to be continuously suspended. The decision may be communicated to the student's representative and/or student (where over the age of 18) beyond the five school day period in cases where the student has been reinstated to attendance in school pending the final determination on the charges and penalty by the Superintendent or the Board, in cases to be decided by them, respectively.

**Alternative Instruction**

Pursuant to the Education Law, no student who is of compulsory school age shall be suspended from school in his/her regularly scheduled classes without being provided alternative equivalent instruction, either in the form of home instruction or instruction in an alternative setting. Such instruction shall be of an equivalent nature to that provided in the student's regularly scheduled classes. A good faith effort shall be made to provide such alternative instruction immediately.

In the event that a student within the compulsory education ages of six and the school year in which s/he becomes 16 is suspended from school in excess of five school days, alternative equivalent instruction shall be provided for the duration of the period of suspension.

**Appeals Process**

The decision of the Superintendent with respect to the findings of fact sustaining charges in a long-term suspension hearing and/or penalty determination shall be subject to appeal [or may be appealed] in writing to the Board of Education within 30 calendar days of receiving the written decision of the Superintendent of Schools. The Board shall review the record of the proceedings before the Superintendent or his/her designated Hearing Officer, including a review of the transcript of the proceedings, documentary evidence and written arguments of the representatives of the respective parties, if any. The Board does not provide the representatives of the respective parties with the opportunity either to present evidence not previously in the record or to make arguments in person before the Board.

In the event that the initial long-term suspension hearing was conducted by the Board or its designated Hearing Officer, or where the Board has ruled on an appeal from a Superintendent's long-term suspension hearing, the matter may be further appealed.

**E. Off-Campus Misconduct**

A student may be subject to discipline for conduct constituting a crime, or other misconduct, which is committed off of school premises or at non-school sponsored activities, to the extent that the Superintendent of Schools and/or Board of Education believes that the continued attendance in
school of the student would constitute an endangerment to the health, safety, welfare or morals of the student and/or others in our schools.

F. **Dress and Grooming**

Students are expected to dress and groom themselves in an appropriate manner. Students must be dressed in appropriate clothing and protective equipment as required for physical education classes, participation in athletics, science laboratories and home and careers skills classes.

The following are considered to be inappropriate dress, grooming and appearance and are prohibited in school or at school functions:

- any dress or appearance which constitutes a threat or danger to the health and safety of students (e.g., heavy jewelry or jewelry with spikes which can injure the student or others);
- any dress or appearance which is vulgar, lewd, obscene or indecent or profane or which exposes to sight the private parts of the body (e.g., t-shirts with a phallic symbol and messages consisting of sexual metaphors; see-through garments, extremely plunging necklines or waistlines);
- any dress or appearance which encourages or advocates the use of illegal drugs, alcohol and/or tobacco;
- any dress or appearance which advocates or encourages the other illegal or violent activities;
- any dress or appearance which advocates discrimination or denigrates others based upon race, color, creed, religion, national origin, gender, sexual orientation or disability;
- any dress or appearance which constitutes a disruption to the educational process.
- Hats may be worn in the hallway and lunch.

G. **Computer and Internet Use**

The following prohibited use of District-owned computer drives, network facilities and Internet links may give rise to disciplinary action against users of such equipment and/or facilities:

1. E-mail or other electronic communication originating from the school premises or received at the school premises that a student user creates, posts, and/or reposts that:
   - is lewd, vulgar, obscene, indecent or inappropriate for student recipients of certain ages;
   - conveys an imminent threat of violence, including sexual violence, to a specific individual or individuals;
   - constitutes a state and/or federal crime;
   - is the cause of or a substantial contributing factor to a substantial interference with the orderly functioning of the school(s);
   - attributes the text of e-mail to school officials or that the text is school endorsed, unless there is such official endorsement or consent from school officials;

2. Internet use that circumvents access restrictions placed upon the District's computer systems by the Board of Education or its administrative designee(s).
3. Computer and/or Internet use that is not school-related or is unauthorized.

4. Permitting the use of a student's computer access code by any other person. Such student shall assume responsibility for occurrences in violation of this code of conduct that occurs under the student's access code number.

H. Cell Phones, Cam-phones and Electronic Communications Devices

Cell phones, cam-phones and any other electronic communications device must be kept out of sight and turned off by students during classroom instructional time, except when used with the teacher’s prior permission for purposes of calendaring, calculating and noting assignments or otherwise in accordance with prior written administrative authorization. Devices in the nature of e-readers, i-Pads and Nooks may be used by students with the teacher’s prior permission during student attendance hours for the purposes of reading textbook, content-related text and independent readings that are related to their curriculum of instruction. Electronic devices may be used in the hallway, lunchtime and for instructional purposes at teacher discretion, with supervision and during regular attendance hours.

I. Suspension from Transportation Service

Students may be suspended from transportation services for an infraction or infractions listed herein upon the conducting of an informal hearing by the Principal, Superintendent of Schools or his/her designee, at which time the student's parent/guardian or other representative shall be allowed to confront the witnesses relied upon by the District in determining the appropriateness of such suspension of service. If such informal hearing is conducted before the Principal or Superintendent's designee, the designee shall make a recommendation to the Superintendent as to the action to be taken.

J. Suspension from Extra-Curricular and Co-Curricular Activities, and School Functions

A student may be suspended from participating in extra-curricular or co-curricular activities (including a sports team) for an infraction of any of the provisions herein, for violating a code of conduct issued to participants in the activity by the activity supervisor or for fighting at games. Upon the request of the student's parent/guardian, the Building Principal shall allow the parent/guardian or other representative of the student the right to appear before him/her informally, to discuss the conduct which led to suspension from the activity.

If a student is suspended from school pursuant to §3214 of the Education Law, s/he shall not be permitted to participate in any extra-curricular or co-curricular activities, as well as any other school events or activities which take place on the days of suspension (including intervening weekends).

K. Suspension of Students with Disabilities

In the event that a student has a known disability or when school officials can be deemed to know, in accordance with law, that a student has a disability, the District will first proceed to conduct a §3214 disciplinary proceeding for any suspension of more than five days. The §3214 disciplinary proceeding will be held in two parts, first to determine the student's guilt or innocence on the charges and the second to determine the penalty.
If guilt is determined, before a penalty may be imposed, the following rules shall apply:

**Section 504/Title II ADA Disability**

Before discipline may be meted out for a student with a disability or suspected disability founded solely under §504 of the Rehabilitation Act of 1973 (hereinafter §504)/Title II of the Americans with Disabilities Act (hereinafter the ADA), the §504 multi-disciplinary committee (hereinafter the §504 Committee) must make a determination of whether the conduct underlying the charge(s) was a manifestation of the disability.

1. If a nexus is found between the disability and the conduct underlying the charges, the §3214 proceeding must be discontinued and the matter placed under the jurisdiction of the §504 Committee for any further consideration. The §504 Committee must register a referral and bring about an evaluation of a student with a suspected disability or, if the student is already eligible under §504, it must consider possible program modification and disposition on a non-disciplinary basis.

2. If no nexus is found, yet a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. Students whose sole disabilities are founded under §504 and for whom no nexus is found shall be disciplined in the same manner as their non-disabled peers.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made.

The School District must continue to provide a free appropriate public education to students who have been suspended from school as required by the regulations implementing §504 (34 CFR §104 et. seq.) until the end of the school year in which the student reaches the age of 21.

**IDEA Disability**

Before discipline may be meted out for a student classified or deemed to be known as having a disability under the Individuals with Disabilities Education Act (hereinafter IDEA) [a student with an educational disability], the Committee on Special Education (hereinafter the CSE) must make a determination of whether the conduct underlying the charges was a manifestation of the disability.

1. If a nexus is found between the disability and the conduct, the §3214 proceeding must be discontinued (except for weapons, drugs and dangerous behavior) and the matter placed under the jurisdiction of the CSE for any further consideration. The CSE must register a referral and bring about an evaluation in the case of a student who may be deemed to be known as having a disability or, if the student is already classified under IDEA, it must consider possible program modification and disposition on a non-disciplinary basis.
2. If no nexus is found, yet nonetheless a disability is indicated or has been identified, discipline may be imposed upon remand to the §3214 Hearing Officer. The relevant disciplinary procedures applicable to children without disabilities may be applied in the same manner in which they would be applied to children without disabilities, as long as the child continues to receive a free appropriate public education during any such term of suspension.

3. Where no nexus is found and no suspected disability is determined to exist, the matter shall be remanded to the §3214 Hearing Officer for a determination of penalty.

Any penalty imposed may not be based on past behavior for which a nexus determination was not made.

The School District must continue to provide a free appropriate public education to students who have been suspended from school.

**Suspensions Beyond Ten (10) School Days**

A student with a disability or suspected disability founded solely under §504/Title II of the ADA may not be suspended for more than 10 school days unless the §504 Committee has conducted a nexus determination and found that the behavior underlying the disciplinary charges were not a manifestation of the student's disability.

A student classified or deemed to be known as having an educational disability under IDEA may not be suspended for more than 10 school days unless:

1. The CSE has made a determination that the student's misconduct was not related to the student's disability;

2. The School District obtains a court order authorizing the suspension;

3. The disciplinary charges involve the carrying of a weapon to school or a school function or the knowing possession, use or sale of illegal drugs at school or a school function;

4. The parent or student 18 years of age or older gives their consent, in writing.

In determining a disciplinary outcome, a §3214 Hearing Officer and/or decision making authority may not consider incidents in the past anecdotal record of a student with a disability under §504/Title II ADA and/or IDEA, or suspected of being disabled unless there has been a negative manifestation determination regarding such incident(s) by the §504 Team or CSE, respectively.

**Suspensions for Misconduct Involving Weapons and/or Drugs**
A student classified or deemed to be known as having an educational disability under IDEA may be suspended and placed in an interim alternative educational setting for up to forty-five (45) days (less if the discipline is for a non-disabled student would be less), if the student carries a weapon to school or a school function, or knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance while at school or a school function.

1. In accordance with law, the term weapon means a weapon, device, instrument, material or substance, animate or inanimate, that is used for, or is readily capable of causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than 2-1/2 inches in length.

2. In accordance with law, the term illegal drugs means controlled substances but not those legally possessed or used under the supervision of a licensed health care professional or other permitted authority under the Federal Controlled Substances Act or under any other provision of Federal law. Controlled substances are drugs and other substances identified under schedules set forth in applicable Federal law provisions.

Before a student is suspended and placed in an interim alternative educational setting for up to 45 days for behavior involving weapons and/or drugs, the CSE must conduct a manifestation determination and a functional behavioral assessment, as well as implement a behavioral intervention plan that addresses the behavior underlying the disciplinary proceeding or review any such pre-existing plan for modification, if necessary.

1. Placement in an interim alternative educational setting as a result of conduct involving weapons and/or drugs is not contingent upon a CSE determination that the misconduct is not related to the student's disability.

2. It is up to the CSE to determine what would constitute an interim alternative educational setting that would meet the requirements of the student's IEP and enable the student to participate in the general curriculum (although in another setting).

The exception allowed for the suspension/removal of students with educational disabilities for up to 45 days for conduct involving weapons and/or drugs does not apply to students whose disabilities are founded solely upon §504/Title II ADA. Such an interim alternative educational setting shall be deemed the student's stay put placement during the pendency of any due process proceedings contesting the interim alternative educational setting for the duration of the interim placement.

**Dangerous Students**
To continue the suspension of a student classified or deemed to be known as having an educational disability under IDEA for more than 10 school days, the School District may initiate a hearing before a special education impartial hearing officer who can order the placement of the student in an interim alternative setting for up to 45 days.
1. The CSE must conduct a nexus determination within 10 school days of the initial disciplinary action. Placement in an interim alternative educational setting as a result of dangerous behavior is not contingent upon a CSE determination that the misconduct is not related to the student's disability.

2. It is up to the CSE to determine what would constitute an interim alternative educational setting.

3. The hearing officer may grant such if maintaining the student in the current placement is substantially likely to result in injury to the student and/or others, and the School District has made reasonable efforts to minimize the risk of harm in the current placement. The hearing officer must also consider the appropriateness of the student's current placement and whether the interim alternative educational setting meets all the requirements of the student's IEP, including continued participation in the general curriculum (although in another setting) with an appropriate behavioral component.

Such an interim alternative educational setting shall be deemed the student's stay put placement during the pendency of any due process proceedings contesting the interim alternative educational setting for the duration of the interim placement.

**Declassified Students**

In accordance with law, the CSE must conduct a manifestation determination in the case of a student with an educational disability who has been declassified if the disciplinary matter involves behavioral problems.

**L. Disciplinary Measures**

The following shall constitute appropriate disciplinary measures authorized by this Student Code of Conduct:

1. Warnings (oral or written).
2. Confiscation.
3. Detention.
4. Restricted study/Alternative learning center (In-school suspension).
5. Suspension from school for up to five (5) school days.
6. Suspension from school in excess of five (5) days.
7. Suspension from school for at least one (1) year for possession of a weapon pursuant to the Gun-Free Schools Act of 1994 (subject to the right of the Superintendent to modify such penalty) or, in the case of a student with a disability whose possession of a weapon is determined not to be related to his/her disability, placement in an interim alternative educational setting for a period of up to forty-five (45) days.
8. Placement in an interim alternative educational setting for a period of up to forty-five (45) days, in the case of a student with a disability whose knowing possession or use of illegal drugs, or sale or solicitation of the sale of a controlled substance at a school or a school function is determined not to be related to his/her disability.
9. Permanent suspension (Expulsion).
M. Serious Violations of Code of Conduct

Students, teachers and other District personnel must immediately, or as soon as is reasonably practicable, report any serious violation of this Code of Conduct of which they have firsthand knowledge, or otherwise have reasonable suspicion to believe, to any building administrator where the violation occurred. A serious violation means any infraction where an asterisk (*) appears beneath the infraction. The reporting individual will be given a written confirmation that the matter is being or has been investigated within two (2) weeks from the time when the report was made.

N. Infractions with Penalty References

Note: The penalty ranges that appear next to each infraction in the following section, need not be implemented sequentially but rather any discipline within the range for the infraction may be imposed within the discretion of the disciplinary authority. Consequences will be applied at the discretion of the administrator and may vary in method and severity according to the nature of the behavior, the developmental age of the students, and the student’s history of behavior problems.

In doing so such officer shall warn such persons of the consequences or persistence in the prohibited conduct, including their ejection from any district properties where their continued presence and conduct is in violation of these rules.

ACADEMIC INTEGRITY

It is Eldred High School’s goal to establish for each student an ethic of academic integrity. Because we strive to reinforce ethical values and practices, the ECSD faculty will have a zero tolerance policy for cheating.

1. Students must not copy from another student’s test, quiz paper, or work, including homework. During a test or quiz students must avoid even the appearance of cheating by putting away all notes, cell phones and other electronic devices, keeping their eyes on their own papers, working in silence, and refraining from leaving their seats. Discussing homework with other students is encouraged, but copying homework from another student or from your textbook is unacceptable. Homework must be written in the students’ own words.

2. In any course submitting another student’s paper and representing it as your own is forbidden.

3. We encourage students to collaborate and deepen their knowledge of their subjects by fully discussing academic topics. Students may collaborate with others on assignments. If a student is unsure about the appropriateness of collaboration for a specific assignment, he/she should consult with the teacher. When collaboration takes place, the work should clearly bear the names of all the students who participated. However, students need to practice their critical thinking and writing skills by independently structuring their responses to assignments and writing with their own words. By merely copying the form and paraphrasing another’s ideas, students demonstrate an “inability to develop and express their own thoughts” (MLA Handbook).

4. Offering or receiving specific or general information about the content of tests or quizzes is not permitted. Knowingly using, buying, selling, transporting, or soliciting the contents of a quiz, test or exam is forbidden.

5. Student’s may not substitute for another student or permit another student to substitute for you in an examination.

6. Altering a test paper or grade in any manner is forbidden.

Academic integrity, like all values, is primarily learned at home; Eldred Central School District is committed to reinforcing academic honesty. The health of the school community depends upon each student’s commitment to this ethic.
What is Plagiarism?

In its brochure “Academic Honesty Misconduct - Stop and Think,” Ohio University defines plagiarism as “the presentation of the ideas or writing of someone else as one’s own work.” It includes the following:

- Reproducing another person’s work, whether published or unpublished, including using materials from companies that sell research papers.
- Submitting as your own any academic exercise prepared totally or in part by another.
- Allowing another person to alter or revise your work substantially and submitting it as your own.
- Using another’s written ideas or words without properly acknowledging the source. If a student uses the words of someone else, he or she must put quotation marks around the passage and add indication of its origin. Simply changing a word or two while leaving the organization and content substantially intact and failing to cite the source is plagiarism. Students should also note that failure to acknowledge study aids such as Cliff Notes, Spark Notes, or other common reference sources constitutes plagiarism.
- All sources, including the sources of ideas, must be acknowledged and cited in ways appropriate to one’s discipline. Sources include, but are not limited to, Internet pages, books, magazines, lyrics, photos, publicly printed matter, government documents, etc.
- Failure to acknowledge sources is plagiarism, regardless of intention.

If a student is unsure about a question of plagiarism or cheating, he or she is encouraged to consult his or her teacher on the matter before submitting the material.

Procedures
1. Students will be made aware of all expectations regarding their own work and the consequences of plagiarism.
2. Teachers will first confer with the student about his or her infraction and notify both parents and administrators.
Range of Possible Consequences

In addition to the range of consequences in the Code of Conduct under “Cheating in any academic, extra-curricular or co-curricular activity”, the following steps shall be taken where a violation of this regulation is determined to have occurred:

- If an offense occurs, involving a midterm exam, final examination or a Regents exam, a zero will be recorded.
- A conference will be held by the administrator. In addition to the administrator, the student, and parent(s)/guardian(s) should attend. Following the meeting, both student and parent will be asked to sign a statement that they fully understand that additional violations will result in further consequences as listed in the Code of Conduct and in this addendum.
- If a member of the National Honor Society, the student may be removed from membership, pursuant to the procedures outlined in the constitution of the National Honor Society.
- A conference may be held by the principal for subsequent violations. Any or all of the following may be invited to participate at the conference: the student, the parent(s)/guardian(s), the teacher and the counselor.
- The student could be removed or barred from holding or being a candidate for any leadership position where character, honesty, or integrity are stated or implied qualifications, including athletic teams and clubs. Additionally, the student could be denied membership in the National Honor Society.

Appeals Procedure

1. Appeal of the decision resulting from the first conference is made to the principal.
2. Appeal of the decision of the principal is made to the superintendent.
3. Appeal of the decision of the superintendent is made to the Board of Education via the Secretary of the Board.

Eldred Code of Conduct – Dignity for All Students Act (DASA) Summary

The Eldred Central School District is committed to maintaining high standards of education for our students. In addition, the District and Board of Education is committed to providing an educational environment that promotes respect, dignity and equality in accordance with the Dignity for All Students Act (DASA), and creates and maintains high behavioral standards and expectations.

All students have the right and responsibility to attend and participate in school regularly, be respectful and considerate of others and follow the Code of Conduct in school buildings, on school grounds, on school buses, field trips, and at all other school functions and events. Students are expected to treat others as they would like to be treated. All students have the right to feel safe at school, to grow and learn without worry or fear of physical or emotional harm.

To that end, the administrators, faculty, staff and students will participate in activities designed to support school climates of caring and respect, and to proactively prevent discrimination, harassment, and bullying, including cyberbullying. These developmentally appropriate activities are designed to foster an acceptance and understanding of differences, provide alternative behaviors and responses, and build the capacity to prevent and reduce bullying.

All students have the responsibility to treat each other with caring and respect. No student shall be treated differently or unfairly because of actual and/or perceived differences. This includes saying hurtful words and/or doing hurtful things either in person, on a computer, or in any other way. Students who feel uncomfortable and/or unsafe because of the words or actions of others should immediately speak with a teacher, administrator, coach, or other adult.

The Eldred Central School District Code of Conduct, in accordance with DASA, specifically prohibits, discrimination, harassment, bullying, taunting, hurtful teasing, and cyberbullying, that negatively impacts the ability of a student to focus on school work and participate in school activities based on the following characteristics:

**0105 - EQUITY, INCLUSIVITY, AND DIVERSITY IN EDUCATION**

The Board of Education is committed to creating and maintaining a positive and inclusive learning environment where all students, especially those currently and historically marginalized, feel safe, included, welcomed, and accepted, and experience a sense of belonging and academic success.

**Generally Accepted Beliefs and Agreements**

All children deserve to have equal access to opportunity regardless of the color of their skin, their gender, their sexual orientation, the language they speak or their background. This freedom is fundamental to our K-12 education program and is extended to everyone without exception. However, the district also recognizes that students have been historically marginalized due to inequities associated with aspects of their identities and their contexts, including, but not limited to, race, color, weight, national origin, ethnic group, religion, religious practice, disability, sex; sexual orientation, or gender (including gender identity and expression). Racism, discrimination, and marginalization of any people or groups of people, whether intentional or not, have no place in our schools, our district or our community. Such actions damage not only those individuals and groups at which they are directed, but also our community as a whole. We are committed to addressing these inequities and helping each and every student to equitably access learning opportunities in school to enable them all to thrive and to build a better society.

**Goals**

The goal of the school district is to provide equitable, inclusive and diverse opportunities for all students to reach their highest potential. To achieve educational equity and inclusive education, the district will acknowledge the presence of culturally diverse students and the need for students to find relevant connections among themselves and the subject matter and the tasks teachers ask them to perform. The district will develop the individual and organizational knowledge, attitudes, skills, and practices to create culturally responsive learning and working environments that expect and support high academic achievement for students and employees from all racial groups. Differences will not just be seen as strengths, but they will be nourished, celebrated, and welcomed because they are what make students and families unique.

The Superintendent or designee(s) will ensure that curriculum and instructional materials reflect the Board’s commitment to educational equity. Curriculum and instructional materials for all grades shall reflect diversity and include a range of perspectives and experiences, particularly those of historically underrepresented groups. All curriculum materials shall be examined for bias. Class instructional activities and extracurricular programs shall be designed to provide opportunities for cross-cultural and cross-racial interactions that foster respect for diversity.

Equity and inclusive education is an ongoing process that requires shared commitment and leadership if a district is to meet the ever-evolving society, unique learning needs of all students, and diverse backgrounds of our communities and schools. The Board understands that equity and inclusive education is achieved when each adult collaborates and affirms each student by creating a respectful learning environment inclusive of actual or perceived personal characteristics.

Educational equity is based on the principles of fairness and ensuring that every student has access to the resources and educational rigor they need at the right moment in their education, despite any individual’s actual or perceived personal characteristics, not to be used interchangeably with principles of equality, treating all students the same.

Inclusive education is based on the principles of acceptance and inclusion of all students. Students see themselves reflected in their curriculum, their physical surroundings and the broader environment, in which diversity is honored and all individuals are respected.

Diversity in education means students, staff, families and community are our greatest strength and diversity is viewed as an asset. Diversity means the condition of being different or having differences, including, but not limited to, sex, race, ethnicity, sexual orientation, gender, age, socioeconomic class, religion, and ability, and other human differences. Embracing these diversities and moving beyond tolerance and celebration to inclusivity and respect will help the district reach our goal of creating a community that ensures that each and every voice is heard and valued.

**Accountability, Transparency and Review**
The Board, its officers and employees, accepts responsibility and will hold themselves and each other accountable for every student having full access to quality education, qualified teachers, challenging curriculum, full opportunity to learn, and sufficient, individually-tailored support for learning so they can achieve at excellent levels in academic and other student outcomes. The district also accepts its responsibility for moving forward on this journey and to committing time, energy and resources to develop a more equitable, inclusive, and diverse welcoming environment for all students, parents and staff. To this end, the Superintendent will establish a district-wide Task Force in each school. Committees will include representation from staff, administration, students and parents. The district-wide task force and the school-level committee will assist the administration in developing and implementing specific prevention initiatives, including the adoption and revision of policies and implementation of practices designed to promote diversity, prevent discrimination, assure equitable access to high quality educational staff, facilities and materials, and to maximize student achievement for all students. The accompanying exhibit provides more detail on the specific programs and strategies implemented by the district. The Superintendent of Schools, or designee, will adopt goals and corresponding metrics related to this policy. The district will identify the multiple indicators necessary to monitor student outcomes, engagement, and school climate, and specific data that will be used to ensure accountability for student, school, and district-wide performance; to reduce variability in outcomes; and to ensure that academic outcomes will not be predictable by actual or perceived personal characteristics and can be assessed and reported transparently to the public. Reporting may include, but is not limited to, standardized test scores; referrals, suspension and expulsion reports; the percentage of students placed in Bilingual or English as a New Language (ENL), Advanced Placement and remedial classes; as well as employee, parent and student perceptions about school. With committee input, the Superintendent of Schools is directed to develop and implement a plan for ensuring that equitable educational opportunities are being provided to all students. In addition, the Board directs that training programs be established for students, and annually for employees, to raise awareness of the issues surrounding cultural responsiveness, equity and inclusion and to implement preventative measures to help counteract biases and practices that perpetuate achievement disparities and lead to disproportionate levels of student success. Age-appropriate instructional materials will be incorporated into the curriculum to educate students so that they can learn from a diverse range of experiences and points of view. Curricular materials and staffing decisions will support these efforts. The Board of Education and the Superintendent district will monitor and review the district’s metrics and equity activities to determine the extent to which district schools are complying with this policy, the progress made toward attaining the goals of this policy, whether this policy is having a positive effect on improving academic opportunities for all students and increasing family engagement and reducing achievement gaps. The Superintendent will regularly report progress on the equity, inclusivity, and diversity plan and outcomes. Based on those results, this policy, and the specific objectives set to meet its goals, may be revised as needed.

Equity Policy Communication
To be successful in this endeavor, it is imperative that all members of the school community are aware of this policy, its purpose, procedures and the district’s commitment to equity and inclusion by fostering a positive learning environment that embraces all diverse, unique and individual differences. The Superintendent, or designee(s), is directed to ensure that this policy is communicated to students, staff, and the community. This policy will be posted on the district’s website, and will also be published in student registration materials, student, parent and employee handbooks, and other appropriate school publications.

Policy Enforcement
The Board directs the Superintendent or designee(s) to enforce this policy and create regulations and practices to implement this policy. The Board will annually review the district’s implementation of this policy and take appropriate action to ensure compliance with and enforcement of this policy.

0115 -STUDENT HARASSMENT, HAZING AND BULLYING PREVENTION AND INTERVENTION

The Board of Education is committed to providing an educational and working environment that promotes respect, dignity and equality. The Board recognizes that discrimination, such as harassment, hazing and bullying, are detrimental to student learning and achievement. These behaviors interfere with the mission of the district to educate its students and disrupt the operation of the schools. Such behavior affects not only the students who are its targets but also those individuals who participate and witness such acts.

To this end, the Board condemns and strictly prohibits all forms of discrimination, such as harassment, hazing and bullying on school grounds, school buses and at all school-sponsored activities, programs and events. Discrimination, harassment, hazing or bullying that takes place at locations outside of school grounds, such as cyberbullying, which creates or can be reasonably expected to create a material and substantial interference with the requirements of appropriate discipline in the operation of the school or impinge on the rights of other students are prohibited, and may be subject to disciplinary consequences.

Definitions
1. Bullying. Bullying, under the amended Dignity for All Students Act, has the same meaning as harassment (see below). The accompanying regulation provides more guidance regarding the definition and characteristics of bullying to help the school community recognize the behavior.
2. Cyberbullying. Cyberbullying is defined as harassment (see below) through any form of electronic communication.
3. Discrimination. Discrimination is the act of denying rights, benefits, justice, equitable treatment or access to facilities available to all others, to an individual or group of people because of the group, class or category to which that person belongs (as enumerated in the Definitions section, under Harassment, below).
4. Hazing. Hazing is an induction, initiation or membership process involving harassment which produces public humiliation, physical or emotional discomfort, bodily injury or public ridicule or creates a situation where public humiliation, physical or emotional discomfort, bodily injury or public ridicule is likely to occur.
5. Harassment. Harassment has been defined in various ways in federal and state law and regulation. The Board recognizes that these definitions are important standards, but the Board’s goal is to prevent misbehavior from escalating in order to promote a positive school environment and to limit liability. The Dignity for All Students Act (§§10-18 of Education Law) defines harassment as the creation of a hostile environment by conduct or by threats, intimidation or abuse, including cyberbullying, that (a) has or would have the effect of unreasonably and substantially interfering with a student’s educational performance, opportunities or benefits, or mental, emotional or physical well-being; (b) reasonably causes or would reasonably be expected to cause a student to fear for their physical safety; (c) reasonably causes or would reasonably be expected to cause physical injury or emotional harm to a student; or (d) occurs off school property and creates or would foreseeably create a risk of substantial disruption within the school environment, where it is foreseeable that the conduct, threats, intimidation or abuse might reach school property. The harassing behavior may be based on any characteristic, including but not limited to a person’s actual or perceived:
6. Race (including traits historically associated with race, including, but not limited to, hair texture and protective hairstyles such as but not limited to braids, locks, and twists),
7. color,
8. weight,
9. national origin,
10. ethnic group,
11. religion,
12. religious practice,
13. disability,
14. sex,
15. sexual orientation, or
16. gender (including gender identity and expression). For the purpose of this definition the term “threats, intimidation or abuse” includes verbal and non-verbal actions.

In some instances, bullying or harassment may constitute a violation of an individual’s civil rights. The district is mindful of its responsibilities under the law and in accordance with district policy regarding civil rights protections.

In order to streamline the wording of this policy and regulation the term bullying will be used throughout to encompass harassment, intimidation, cyberbullying and hazing behaviors.

Prevention

The school setting provides an opportunity to teach children, and emphasize among staff, that cooperation with and respect for others is a key district value. A program geared to prevention is designed to not only decrease incidents of bullying but to help students build more supportive relationships with one another by integrating the bullying prevention program into classroom instruction. Staff members and students will be sensitized, through district-wide professional development and instruction, to the warning signs of bullying, as well as to their responsibility to become actively involved in the prevention of bullying before overt acts occur.
• Curricular material that raises awareness and sensitivity to discrimination or harassment and civility in the relationships of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, sexes or gender expression or identities will be included in the instructional program K-12.

• In order to implement this program the Board will designate at its annual organizational meeting a Dignity Act Coordinator (DAC) for each school in the district. One of the DAC’s will be designated as the district-wide coordinator whose responsibilities are described in the accompanying regulation. The role of each DAC is to oversee and enforce this policy in the school to which they are assigned.

• In addition, the Superintendent will establish a district-wide Task Force on Bullying Prevention, as well as Bullying Prevention Coordinating Committees in each school that will be overseen by the district-wide DAC. Committees will include representation from staff, administration, students and parents. The district-wide task force and the school-level committee will assist the administration in developing and implementing specific prevention initiatives, including early identification of bullying and other strategies. In addition, the program will include reporting, investigating, remedying and tracking allegations of bullying. The accompanying regulation provides more detail on the specific programs and strategies implemented by the district.

• Intervention

• Intervention by adults and bystanders is an important step in preventing escalation and resolving issues at the earliest stages. Intervention will emphasize education and skill-building.

• Successful intervention may involve remediation. Remedial responses to bullying include measures designed to correct the problem behavior, prevent another occurrence of the behavior and protect the target. Remediation may be targeted to the individual(s) involved in the bullying behavior or environmental approaches which are targeted to the school or district as a whole.

• In addition, intervention will focus upon the safety of the target. Staff is expected, when aware of bullying, to report it in accordance with this policy, refer the student to designated resources for assistance, or to intervene in accordance with this policy and regulation.

• Provisions for students who do not feel safe at school

• The Board acknowledges that, notwithstanding actions taken by district staff, intervention may require a specific coordinated approach if the child does not feel safe at school. Students who do not feel safe at school are limited in their capacity to learn and reach their academic potential. Staff, when aware of bullying, should determine if accommodations are needed in order to help ensure the safety of the student and bring this to the attention of the building principal. The building principal, other appropriate staff, the student and the student’s parent will work together to define and implement any needed accommodations.

• The district recognizes that there is a need to balance accommodations which enhance student safety against the potential to further stigmatize the targeted student. Therefore, each case will be handled individually. The student, parent/guardian, and school administration will collaborate to establish safety provisions that best meet the needs of the targeted student. Follow-up discussion and/or meetings will be scheduled, as needed, to ensure that safety concerns have been adequately addressed and to determine when and if accommodations need to be changed or discontinued.

• Incident Reporting and Investigation

• Although it can be difficult to step forward, the district can’t effectively address bullying if incidents are not reported. Students who have been bullied, parents whose children have been bullied or other students who observe bullying behavior are encouraged and expected to make a verbal and/or written complaint to any school personnel, in accordance with the training and guidelines provided. Staff who observe or learn of incident(s) of bullying are required, in accordance with State law, to make an oral report to building principal within one school day and to fill out the district reporting form within two school days. Staff who are unsure of the reporting procedure are expected to ask their supervisors how to proceed. District employees may be deemed to have permitted unlawful discrimination or harassment if they fail to report an observed incident, whether or not the target consented.

• At all times, complaints will be documented, tracked and handled in accordance with the regulations and procedures accompanying this policy, or, if applicable and the district’s Code of Conduct.

• An equitable and thorough investigation will be carried out by Building Principal in accordance with the accompanying regulation. In addition, the results of the investigation will be reported back to both the target and the accused as specified in the accompanying regulation. If either of the parties disagrees with the results of the investigation, they can appeal the findings in accordance with the regulations that accompany this policy. Verified bullying incidents that meet the criteria established by the state will be included in the statewide reporting system when applicable, in accordance with law and regulation.

• The Board will receive the annual VADIR report, as well as any other state-required report relevant to bullying and/or school climate, for each building and for the district as whole. Based on the review of the data, the Board may consider further action, including but not limited to modification of this policy and additional training.

• Disciplinary Consequences/Remediation

• While the focus of this policy is on prevention, acts of bullying may still occur. In these cases, offenders will be given the clear message that their actions are wrong and the behavior must improve. Student offenders will receive in-school guidance in making positive choices in their relationships with others. If appropriate, disciplinary action that is measured, balanced and age-appropriate will be taken by the administration in accordance with the district’s Code of Conduct, as applicable. If the behavior rises to the level of criminal activity, law enforcement will be contacted.

• Consequences for a student who commits an act of bullying will be unique to the individual incident and will vary in method and severity according to the nature of the behavior, the developmental age of the student, and the student’s history of problem behaviors, and must be consistent with the district’s Code of Conduct.

• Non-Retaliation

• All complainants and those who participate in the investigation of a complaint in conformity with state law and district policies, who have acted reasonably and in good faith, have the right to be free from retaliation of any kind.
• **Training**
  The Board recognizes that in order to implement an effective bullying prevention and intervention program, professional development is needed. The Superintendent, the districtwide DAC and the District Professional Development Team will incorporate training to support this program in new teacher orientation and the annual professional development plan, as needed. Training opportunities will be provided for all staff, including but not limited to bus drivers, cafeteria and hall monitors and all staff who have contact with students. The DACs will be trained in accordance with state requirements and will continue their professional development so as to successfully support this policy and program.

• **Dissemination, Monitoring and Review**
  This policy, or a plain language summary, will be published in student registration materials, student, parent and employee handbooks, and posted on the district’s website. A bullying complaint form will be available on the district’s website. The district will ensure that the process of reporting bullying is clearly explained to students, staff and parents on an annual basis.

  Each year, as part of the annual review of the Code of Conduct, this policy will be reviewed to assess its effectiveness and compliance with state and federal law. If changes are needed, revisions will be recommended to the Board for its consideration.

  The district will ensure that reporting of information to the public in conjunction with this policy will be in a manner that complies with student privacy rights under the Family Educational Rights and Privacy Act (FERPA).

While the focus of this policy is on prevention, acts of bullying may still occur. In these cases, offenders will be given the clear message that their actions are wrong and the behavior must improve. Student offenders will receive in-school guidance in making positive choices in their relationships with others. If appropriate, disciplinary action that is measured, balanced and age-appropriate will be taken by the administration in accordance with the district’s Code of Conduct, as applicable. **Non-Retaliation**

**4526 - COMPUTER USE AND INTERNET USE**

The Board of Education is committed to optimizing student learning and teaching. The Board considers student access to a computer network, including the Internet, to be a powerful and valuable educational research tool, and encourages the use of computers and computer-related technology in district classrooms solely for the purpose of advancing and promoting learning and teaching.

The computer network can provide a forum for learning various software applications and through online databases, bulletin boards and electronic mail, can significantly enhance educational experiences and provide statewide, national, and global communication opportunities for staff and students.

All users of the district's computer network and the Internet must understand that use is a privilege, not a right and that use entails responsibility.

The Superintendent of Schools shall establish regulations governing the use and security of the district's computer network. He/she may inspect, copy, review, and store at any time, without prior notice, any and all usage of the district's computer network for accessing the Internet and World Wide Web and direct electronic communications, as well as any and all information transmitted or received during such use. All users of the district's computer network shall have no expectation of privacy regarding any such materials.
Except as otherwise authorized under the district's Computer Network or Acceptable Use policy, students may use the district's computer network to access the Internet and World Wide Web only during supervised class time, study periods or at the school library, and exclusively for research related to their course work.

The district's computer network coordinator shall monitor student online activities to ensure students are not engaging in hacking (gaining or attempting to gain unauthorized access to other computers or computer systems), and other unlawful activities.

IV. Training

The district's computer network coordinator shall provide training to staff and students on the requirements of the Internet Safety policy and this regulation at the beginning of each school year.

The training of staff and students shall highlight the various activities prohibited by the Internet Safety policy, and the responsibility of staff to monitor student online activities to ensure compliance therewith.

The district shall provide age-appropriate instruction to students regarding appropriate online behavior. Such instruction shall include, but not be limited to: positive interactions with others online, including on social networking sites and in chat rooms; proper online social etiquette; protection from online predators and personal safety; and how to recognize and respond to cyberbullying and other threats.

5460--CHILD ABUSE IN A DOMESTIC SETTING

The Board of Education recognizes that because of their sustained contact with school-aged children, employees are in an excellent position to identify abused or maltreated children and refer them for treatment and protection. The Board further recognizes the specific dictates of law which require school officials to report suspected instances of child abuse or maltreatment in a domestic setting.

The purpose of mandatory reporting is to identify suspected abused and maltreated children as soon as possible, so that such children determined to be abused or maltreated can be protected from further harm and, where appropriate, can be offered services to assist him or her and his or her family.

School officials, who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment, must immediately report this to the New York State Central Register for Child Abuse and Maltreatment (Central Register) as required by law. No conditions may be imposed which limit their responsibility to report. A school official is defined as:

- Teacher
- Guidance Counselor
- Psychologist
- Nurse
- Social Worker
- Full or part time paid athletic coach
- Administrator
- Any school personnel required to hold a teaching or administrative license or certificate.
- The school official will also report the matter to the Building Principal.

The report shall be made by telephone or by telephone facsimile machine on a form supplied by the Commissioner of Social Services. A written report shall be made within forty-eight hours to the appropriate local protective service, and to the statewide Central Register.

School employees who are not school officials, as defined above, but who have reasonable cause to know or suspect that a child has been subjected to abuse or maltreatment are encouraged to report to the Central Register. However, the school employee must report the matter to the Building Principal. If the matter has not yet been reported to the Central Register, the Building Principal shall make the report in accordance with state law. In being required to file such report, the Building Principal does not have discretion.

School employees or officials may not contact the child's family or any other person to determine the cause of the suspected abuse or maltreatment. It is not the responsibility of the school official to prove that the child has been abused or maltreated.

Any school official or employee who has cause to suspect that the death of any child is a result of child abuse or maltreatment must report that fact to the appropriate medical examiner or coroner.

In accordance with the law, any school official who fails to report an instance of suspected child abuse or maltreatment may be guilty of a Class A misdemeanor and may be held liable for the damages caused by the failure to report. The law grants immunity to persons, who in good faith, report instances of child abuse from any liability.

School employees will not be subject to retaliatory action, as defined in state law, as a result of making a report when they reasonably suspect that a child has been abused or maltreated.

The district will cooperate to the extent possible with authorized child protective services workers in investigations of alleged child abuse.
Training Program and Dissemination of Information
The school district shall maintain an ongoing training program which will address the identification and reporting of child abuse and maltreatment. Attendance at sessions of this training program shall be required of all school officials. Attendance records shall be kept, and notations will be made in personnel files as to the dates of attendance.

The Superintendent shall develop, with input from appropriate personnel, a plan for implementation of such a training program, to be approved by the Board. In addition, the policy and regulations will be included in all employee handbooks and distributed annually to all school officials who are not covered under existing handbooks. The Superintendent will prepare and implement all regulations as are necessary to accomplish the intent of this policy.

As required by state law and regulation, the district shall publicize the toll-free number for reporting child abuse and neglect to the Central Register (800-342-3720), and directions for accessing the NYS Office of Children and Family Services website (http://ocfs.ny.gov/main/cps/), in both English and Spanish.
